Emdoro SSPWF-412-A (Accessory)

Emdoro Replacement Filters and Sponges Instruction Manual

For Emdoro 3.2L/108oz Cordless Stainless Steel Cat Water Fountain (Model SSPWF-412-A)

1. INTRODUCTION

Thank you for choosing Emdoro Replacement Filters and Sponges. This manual provides essential information for the proper installation, maintenance, and understanding of your new filters, ensuring your pet's water fountain continues to provide clean, fresh water.

These replacement filters and sponges are specifically designed for the Emdoro 3.2L/108oz Cordless Stainless Steel Cat Water Fountain (Model SSPWF-412-A).

2. PACKAGE CONTENTS

Each package contains:

- 8 x Replacement Filters
- 8 x Replacement Sponges

This supply is designed to last approximately 3 to 4 months, based on recommended replacement schedules.

Advanced Filtration System

Pets Drink Clean Running Water Every Day

3. FILTRATION SYSTEM OVERVIEW

The Emdoro replacement filters utilize a multi-stage filtration system to ensure optimal water quality for your pet. This system includes:

- **Ion Exchange Resin:** Helps to soften water and reduce heavy metal ions.

- **Activated Carbon:** Effectively removes odors, chlorine, and other impurities, improving water taste.
- **Non-woven Fabric:** Acts as a pre-filter to trap hair, dirt, and food particles, protecting the pump and extending its lifespan.

Image: A diagram illustrating the advanced filtration system components: Ion Exchange Carbon, Non-woven Fabric, and Activated Carbon, designed to provide clean running water.

4. INSTALLATION INSTRUCTIONS

Follow these steps to properly install your new filter and sponge:

1. **Prepare the Filter:** Before placing the new filter into the fountain, soak it in clean water for 5 minutes. This helps to remove any loose carbon dust and ensures optimal performance.
2. **Rinse Thoroughly:** After soaking, rinse the filter under running water for 30 seconds.
3. **Insert into Fountain:** Place the prepared filter and a new sponge into their designated slots within the Emdoro cat water fountain according to the fountain's user manual.

1. Soak filter in clean water for 5 minutes

2. Rinse filter for 30 seconds before use

Image: A two-part image demonstrating the filter preparation process. The top image shows a filter soaking in a bowl of water, and the bottom image shows a filter being rinsed under a faucet.

5. MAINTENANCE AND REPLACEMENT SCHEDULE

Regular replacement of filters and sponges is crucial for maintaining water quality and the longevity of your fountain pump.

- **Standard Replacement:** Replace both the filter and sponge every **2 weeks**.
- **Multiple Pets:** If you have multiple pets using the fountain, consider replacing the filter and sponge every **1 to 2 weeks** due to increased usage and potential debris.

Adhering to this schedule ensures your pet consistently receives clean, filtered water and helps prevent pump blockages.

Image: A graphic showing a filter and sponge in water, with a large "2 Weeks" text and a circular arrow, emphasizing the recommended replacement frequency.

6. TROUBLESHOOTING

If you notice any of the following issues, it may be time to replace your filter and sponge, even if it's before the recommended schedule:

- Unusual odors or tastes in the water.
- Visible debris or particles in the water reservoir.
- Reduced water flow from the fountain (after checking the pump for blockages).

Always ensure the fountain reservoir is clean and the pump is free of obstructions when troubleshooting water quality or flow issues.

7. SPECIFICATIONS
