# Blukar Mini Rechargeable LED Flashlight K9183 User Manual

Model: K9183

## 1. INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your Blukar Mini Rechargeable LED Flashlight, Model K9183. Please read this manual thoroughly before using the product and retain it for future reference.

The Blukar K9183 is a compact, durable, and versatile LED flashlight designed for everyday carry (EDC). Its small size, multiple lighting modes, and USB-C rechargeable battery make it ideal for various situations, from outdoor activities to emergency lighting.

## 2. PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Blukar Mini Rechargeable LED Flashlight (Model K9183)
- 1 x USB-C Charging Cable
- 1 x User Manual

## 3. PRODUCT FEATURES

- **Ultra-Compact EDC Design:** Super compact and lightweight, equipped with a keychain for easy attachment to keys, backpacks, or pockets.
- **Three Lighting Modes:** Offers High, Medium, and Low brightness levels to suit different illumination needs.
- **USB-C Rechargeable:** Features a built-in battery that recharges conveniently via the included USB-C cable.
- **Memory Function:** Automatically remembers the last used lighting mode when turned off and on again.
- **IPX6 Waterproof Rating:** Ensures safe operation in wet conditions and rain, making it suitable for outdoor use.
- **Durable Construction:** Made from high-quality aluminum alloy, providing a lightweight, durable, and

corrosion-resistant housing.

- **Battery Indicator:** The power switch illuminates red during charging or when the battery is low, and green when fully charged or in use.

## 4. SETUP

Before initial use, it is recommended to fully charge the flashlight. Refer to the "Charging Instructions" section for details.

## 5. OPERATING INSTRUCTIONS

The Blukar K9183 flashlight features a single button for all operations.

## 3 Lighting Modes

High

Medium

Low

### One-Button Control

Short press to switch modes, long press for 3 seconds to turn off. Turn on again with mode memory function.

Image: Illustrates the three lighting modes (High, Medium, Low) and the single-button control for switching modes and turning off.

- **Turning On/Changing Modes:** Press the power button briefly to turn on the flashlight. Each subsequent brief press will cycle through the brightness modes: High > Medium > Low.
- **Turning Off:**
  - If the flashlight has been on for more than 8 seconds in any mode, a single brief press of the power button will turn it off.
  - To turn off the flashlight quickly at any time (within 8 seconds of turning on or changing modes), press and hold the power button for approximately 3 seconds.
- **Memory Function:** The flashlight will remember the last used brightness mode. When you turn it on again, it will activate in that mode.

## 6. CHARGING INSTRUCTIONS

The Blukar K9183 flashlight is equipped with a built-in rechargeable battery.

# USB-C Rechargeable

Red Light:  
Charging

Green Light:  
Fully Charged

When torch battery is low, red light also stays on as a reminder

Image: Shows the USB-C charging port and the red/green indicator lights for charging status.

1. Locate the USB-C charging port on the side of the flashlight, usually covered by a rubber flap.
2. Gently open the rubber flap to expose the port.
3. Connect the included USB-C charging cable to the flashlight's port and the other end to a standard USB power source (e.g., computer, wall adapter, power bank).
4. The power button will illuminate **red** to indicate that the flashlight is charging.
5. Once fully charged, the power button will turn **green**.
6. A full charge typically takes approximately 2 hours.
7. When the battery is low during operation, the power button will also illuminate **red** as a reminder to recharge.

A full charge provides up to 5.5 hours of continuous illumination on the low brightness setting.

## 7. MAINTENANCE

### Cleaning

- Wipe the flashlight with a soft, damp cloth to remove dirt or debris.
- Do not use abrasive cleaners or solvents, as these may damage the finish or internal components.

- Ensure the USB-C port cover is securely closed after charging to maintain its IPX6 waterproof rating.

Storage

- Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.
- If storing for an extended period, recharge the battery every 3 months to prevent battery degradation and prolong its lifespan.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is depleted.	Charge the flashlight using the provided USB-C cable.
Light is dim or flickers.	Low battery.	Recharge the flashlight.
Flashlight does not charge.	Charging cable or adapter faulty; port not connected properly.	Ensure the USB-C cable is securely connected. Try a different USB-C cable or power adapter.
Cannot change brightness modes.	Incorrect operation.	Ensure you are pressing the button briefly to cycle modes.

Feature	Detail
Beam Distance	Up to 48 meters (157 feet)
Drop Resistance	1.5 meters (5 feet)
Material	High-quality Aluminum Alloy

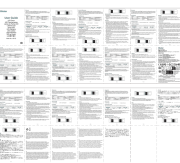

## 10. SAFETY INFORMATION

- Do not shine the flashlight directly into eyes, as the bright light can cause temporary vision impairment.
- Keep out of reach of children. This is not a toy.
- Do not disassemble, modify, or attempt to repair the flashlight yourself. This may void the warranty and pose safety risks.
- Avoid exposing the flashlight to extreme temperatures, open flames, or corrosive liquids.
- While the flashlight is IPX6 waterproof, it is not designed for submersion in water.
- Use only the provided USB-C cable or a certified equivalent for charging.

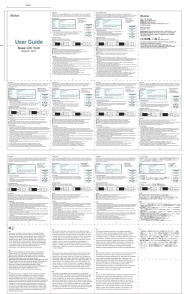

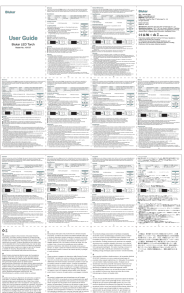

## 11. WARRANTY AND SUPPORT

For warranty information, please refer to the documentation included with your purchase or visit the official Blukar website. If you encounter any issues or require technical assistance, please contact Blukar customer support through their official channels.
