## FLTIDUNDI Z9

# FLTIDUNDI Z9 AI Language Translator Device User Manual

Model: Z9

## 1. INTRODUCTION

---

The FLTIDUNDI Z9 AI Language Translator Device is a portable, intelligent translation tool designed to facilitate communication across various languages. It supports online and offline translation modes, including voice, photo, and text translation, making it suitable for travel, business, and learning environments.

## 2. WHAT'S INCLUDED

---

- FLTIDUNDI Z9 Language Translator Device
- USB Charging Cable
- Lanyard
- User Manual

## 3. DEVICE OVERVIEW

---

The FLTIDUNDI Z9 AI Language Translator Device features a 5.0-inch HD touchscreen on the front, displaying various translation modes. The back of the device includes a camera and speaker grille.

## Physical Features:

- **5.0" IPS HD Touchscreen:** All functions are accessible via the intuitive touch interface.
- **Buttons:** Various control buttons are located on the bottom and sides of the device for power, volume, and specific translation functions.
- **Charging Port:** Located at the bottom of the device.
- **Camera:** An 8MP camera is integrated for photo translation.
- **Speaker/Microphone:** For clear audio output and voice input.

## 4. SETUP

---

### 4.1 Powering On/Off

Press and hold the Power button (located on the side) to turn the device on or off. The device will display its home screen upon startup.

### 4.2 Connecting to Wi-Fi

1. From the home screen, navigate to the 'Settings' icon.
2. Select 'WLAN' or 'Wi-Fi' from the settings menu.
3. Choose your desired Wi-Fi network from the list.
4. Enter the Wi-Fi password if prompted and connect.

A stable Wi-Fi connection is recommended for optimal online translation performance.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Online Voice Translation

This mode allows for instant two-way voice translation across over 150 languages with up to 98% accuracy. Ensure the device is connected to Wi-Fi.

1. From the home screen, select 'Online Translation' or 'Voice Translation'.
2. Choose the source and target languages.
3. Press and hold the designated button (often indicated by a microphone icon or color-coded) and speak clearly into the device.
4. Release the button, and the device will translate and speak the phrase in the target language. The translated text will also appear on the screen.

Video demonstrating the unboxing and basic functions of the AI Translator device, including speech, offline, and photo translation modes.

Video showcasing the AI Language Translator Device's extensive language selection and real-time translation capabilities, including text and speech.

### 5.2 Offline Translation

The device supports offline translation for over 20 languages, allowing use without an internet connection. Ensure necessary language packs are downloaded beforehand.

1. Select 'Offline Translation' from the home screen.
2. Choose the pre-downloaded source and target languages.
3. Proceed with voice input as described in Online Voice Translation.

### 5.3 Photo Translation

Utilize the built-in 8MP camera to translate text from images in 75 online and 41 offline languages.

1. Select 'Photo Translation' from the home screen.
2. Point the camera at the text you wish to translate (e.g., menus, signs).
3. Capture the image. The device will process the text and display the translation on the screen.

### 5.4 Smart Recording

The device can record up to 60 minutes of audio memos and supports translation of these recordings. This feature is ideal for lectures and conferences.

1. Select 'Smart Recording' from the home screen.
2. Start recording your audio.
3. After recording, you can select the audio file for translation into your desired language.

### 5.5 Other Translation Modes

- **Realtime Translation:** For continuous, fluid conversations.
- **Phone Translation:** Integrates with phone calls for real-time translation.
- **Input Translation:** Allows manual text input for translation.
- **Group Translation:** Facilitates communication in multi-person, multi-language settings.
- **AI Assistant (ChatGPT Integration):** Provides intelligent voice services and information.

## 7. TROUBLESHOOTING

---

## 7.1 Device Not Powering On

- Ensure the device is fully charged. Connect it to a power source using the provided USB charging cable.
- Press and hold the Power button for at least 5-10 seconds.

## 7.2 Translation Inaccuracy or Failure

- For online translation, verify that the device has a stable Wi-Fi connection.
- For offline translation, ensure the required language packs are downloaded and up to date.
- Speak clearly and at a moderate pace into the microphone. Avoid background noise.
- For photo translation, ensure the text is well-lit, clear, and within the camera's focus.
- Check that the correct source and target languages are selected.

## 7.3 Screen Unresponsive

- Restart the device by holding down the Power button.
- If the issue persists, ensure the screen is clean and free of debris.

## 8. WARRANTY AND SUPPORT

---

For warranty information, technical support, or service inquiries, please refer to the contact details provided with your purchase documentation or visit the official FLTIDUNDI website. Keep your proof of purchase for warranty claims.
