Dyeetic 9302

Dyeetic 11.26" Wireless CarPlay/Android Auto Screen

USER INSTRUCTION MANUAL - MODEL 9302

Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your Dyeetic 11.26" Wireless CarPlay/Android Auto Screen, Model 9302. Please read this manual thoroughly before use to ensure proper functionality and safety.

What's in the Box

- Dyeetic 11.26" Portable Car Screen
- Instruction Manual
- Cigarette Lighter Power Cord
- Suction Cup Bracket
- AUX Audio Adapter Cable
- AHD 1080P Reversing Camera (24.5ft/7.5m cable)
- 64GB SD Card

Setup and Installation

The Dyeetic 11.26" Car Screen offers flexible installation options to suit various vehicle dashboards and windshields.

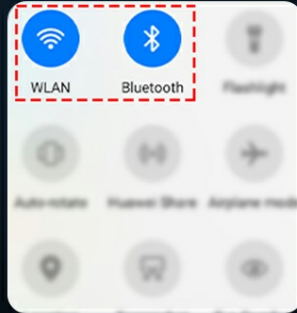

1. Mounting the Screen

Choose between the dashboard suction cup mount or the adhesive base mount. Ensure the chosen surface is clean and flat for secure attachment. The mount allows for angle adjustment to optimize viewing.

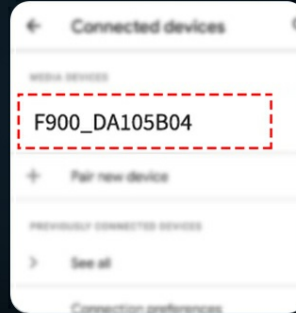

Wireless Android Auto

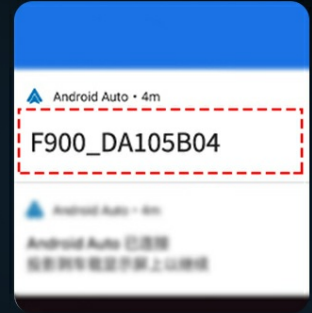

1. Connect with Android

2. Turn on "WI-FI" and "Bluetooth"

3. Select the Bluetooth device starting with "F900_DA105B04"

4. Pull down the taskbar to see if the connection was successful

2. Power Connection

Connect the provided cigarette lighter power cord to the screen and your vehicle's 12V power outlet. The power adapter includes an additional USB port for charging other devices.

3. Rearview Camera Installation (Optional)

The system includes an AHD 1080P rearview camera. For optimal and discreet installation, it is recommended to route the camera cable through the vehicle's interior to the rear. Professional installation may be preferred for this component.

4. Memory Card Insertion

Insert the included 64GB SD card into the designated slot on the screen. This enables the built-in dash cam to record driving footage.

Setup Video Guide

Your browser does not support the video tag.

5. Audio Output Options

The device supports multiple audio output methods:

- **Bluetooth:** Connect wirelessly to your car's audio system for high-quality sound.
- **FM Transmitter:** Transmit audio to your car's FM radio by tuning to a specific frequency.
- **AUX Connection:** Use the provided AUX cable to connect to your car's AUX input.
- **Built-in Speaker:** The screen has a built-in speaker, suitable for basic audio output.

Maintenance

To ensure the longevity and optimal performance of your Dyeetic Car Screen:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** The device supports Over-The-Air (OTA) wireless updates. Ensure your device is connected to Wi-Fi to receive the latest features and security updates.
- **Temperature:** Avoid exposing the device to extreme temperatures for prolonged periods.

Troubleshooting

If you encounter issues with your Dyeetic Car Screen, please refer to the following common solutions:

- **No Power:** Ensure the cigarette lighter power cord is securely connected and the vehicle's power outlet is functioning.
- **Connection Issues (CarPlay/Android Auto):** Verify Bluetooth and Wi-Fi are enabled on your smartphone. Re-pair the device if necessary.
- **No Audio:** Check your audio output settings (Bluetooth, FM, AUX). Ensure your car's audio system is set to the correct input.
- **Dash Cam Not Recording:** Confirm the 64GB SD card is properly inserted and not full.
