SETUP

1. Installation

The Hikity Autoradio is designed for direct fitment in the Renault Master 2021. Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation. Follow the vehicle-specific wiring diagram provided with your unit.

Figure 2: Before and after installation in a Renault Master 2021.

2. Initial Power-On

After installation, reconnect the vehicle's power. The unit should power on automatically with the vehicle's ignition. Follow any on-screen prompts for initial setup, such as language selection and time zone.

3. Connecting Peripherals

- **Rear Camera:** Connect the rear camera cable to the designated input on the autoradio. Ensure the camera is mounted securely and has a clear view.
- **Microphone:** Plug the external microphone into its port for optimal call quality during hands-free operation.
- **USB Devices:** Use the provided USB cables to connect external storage devices or for charging compatible smartphones.
- **GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky for accurate navigation.

OPERATING INSTRUCTIONS

1. Touch Screen Operation

The unit features a 10-inch Incell touchscreen for intuitive control. Tap, swipe, and pinch gestures are supported for navigation and interaction with applications. The Incell technology provides enhanced readability in direct sunlight, wide viewing angles, and superior color accuracy.

3. Bluetooth Hands-Free Calling & Audio Streaming

Pair your smartphone via Bluetooth 5.0 for hands-free calling and high-quality wireless audio streaming. Access your phonebook and manage calls directly from the touchscreen, ensuring focus on the road.

4. GPS Navigation

The integrated GPS module provides reliable navigation. The system supports online maps with real-time traffic updates and offline map usage. Ensure the GPS antenna is properly installed for optimal signal reception.

5. FM/RDS Radio

Tune into FM radio stations with clear reception. The RDS (Radio Data System) feature displays station information, song titles, and traffic alerts where available.

6. Steering Wheel Control (SWC)

If your vehicle supports it, connect the unit to your steering wheel controls. This allows you to manage volume, track selection, and answer/end calls without taking your hands off the steering wheel. Refer to the unit's settings for SWC configuration.

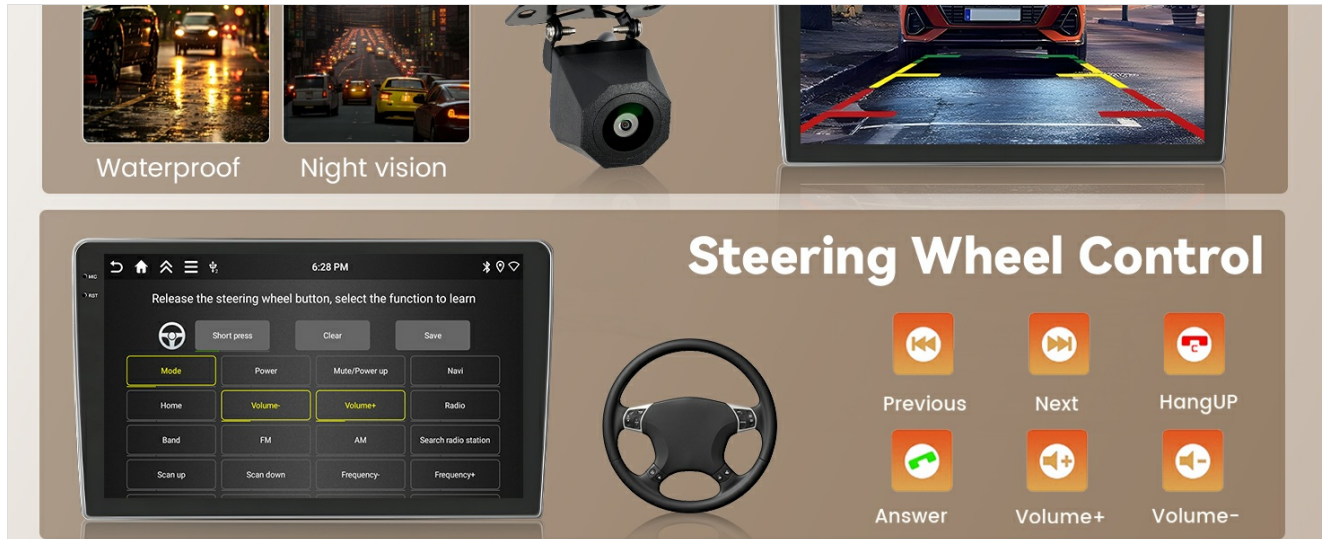

Figure 5: Steering Wheel Control setup and functions.

7. Wi-Fi Connectivity

Connect the autoradio to a Wi-Fi hotspot (e.g., from your smartphone) to access online features, stream content, download applications, and receive map updates.

8. Backup Camera Functionality

When the vehicle is shifted into reverse, the display automatically switches to the rear camera view, assisting with parking and maneuvering. The included camera offers clear visibility.

9. Digital Equalizer (EQ)

Utilize the integrated digital equalizer to fine-tune audio output. Adjust frequency bands to customize the sound profile to your preference, reducing distortion and enhancing clarity for all audio sources.

10. Split-Screen Function

The split-screen feature allows you to run two applications simultaneously on the display, such as navigation and music playback, for enhanced multitasking.

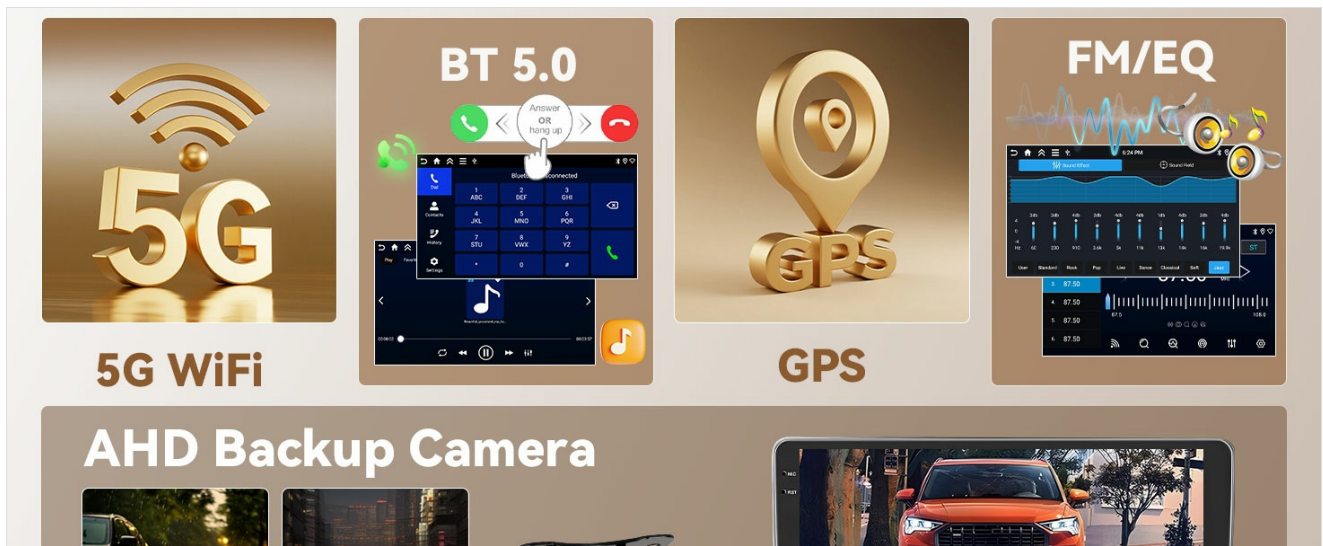

Figure 6: Overview of key features including Wi-Fi, Bluetooth, GPS, FM/EQ, Backup Camera, and Steering Wheel Control.

MAINTENANCE

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the touchscreen. Avoid abrasive cleaners or solvents that may damage the display.
- **Software Updates:** Periodically check for software updates via the system settings to ensure optimal performance and access to new features. Connect to Wi-Fi for updates.
- **General Care:** Keep the unit free from dust and extreme temperatures. Ensure all cable connections remain secure.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not power on	Loose power connection; Blown fuse	Check power cables and vehicle fuses. Consult a professional if necessary.
No sound output	Volume too low; Incorrect audio source; Speaker wiring issue	Increase volume. Verify correct audio source. Check speaker connections.
GPS signal lost or inaccurate	GPS antenna obstructed or improperly placed	Ensure GPS antenna has a clear view of the sky and is securely connected.
CarPlay/Android Auto not connecting	Bluetooth/Wi-Fi off on phone; Incompatible phone settings	Ensure Bluetooth and Wi-Fi are enabled on your phone. Check phone settings for CarPlay/Android Auto permissions.
Rear camera not displaying	Camera cable loose; Camera faulty; Incorrect input selected	Check camera cable connection. Ensure vehicle is in reverse. Verify camera settings in the unit.
