3. Product Overview & Key Features

The vebiliki F13 is engineered for discreet and effective monitoring. Its small cube design allows for versatile placement, while its robust features ensure comprehensive coverage.

- **4K UHD Video:** Captures clear and detailed footage.
- **140° Wide-Angle Lens:** Provides broad room coverage.
- **AI Motion Detection:** Sends instant alerts to your phone upon detecting movement.
- **Enhanced Night Vision:** Automatic infrared night vision for clear monitoring in total darkness up to 16 feet.
- **Long Battery Life:** Up to 100 days standby or 15-20 days continuous operation.
- **Flexible Storage:** Supports encrypted cloud backup and local TF card storage (up to 128GB, card not included).
- **Compact & Portable:** Easy to install and move without drawing attention.
- **Family Sharing:** Allows multiple users to view the camera feed via the app.

4. Setup Instructions

4.1 Charging the Camera

Before initial use, fully charge your vebiliki F13 camera using the provided USB-C charging cable. Connect the cable to the camera's USB-C port and a compatible USB power adapter (not included). The charging indicator light will show the charging status and turn off when fully charged.

4.2 App Download and Account Registration

1. Scan the QR code in the instruction manual or search for the recommended app (e.g., 'HIDVCAM' or 'UBox' as per manual) in your smartphone's app store (App Store for iOS, Google Play for Android).
2. Download and install the app.
3. Open the app and register for a new account using your email address. Follow the on-screen prompts to complete registration and verification.

4.3 Connecting to Wi-Fi

1. Ensure your camera is powered on and within range of your 2.4GHz Wi-Fi network. (Note: The camera supports 2.4GHz Wi-Fi only).
2. In the app, tap the '+' icon to add a new device.
3. Select the option to add a device via Wi-Fi or Bluetooth network configuration.
4. Follow the app's instructions to connect the camera to your home Wi-Fi network. This usually involves selecting your Wi-Fi network and entering the password.
5. Once connected, you can name your device (e.g., 'Living Room', 'Nursery', 'Office').

5. Operating Instructions

5.1 Live View and Recording

Once connected, open the app to access the live video feed from your camera. You can view the feed in real-time, take screenshots, and manually record video clips directly from the app interface. The 4K UHD resolution ensures a clear picture.

Image: Demonstrates the camera's capability to provide clear live and recorded 4K UHD video, including automatic infrared night vision.

5.2 Motion Detection and Alerts

The camera features advanced AI motion detection. When motion is detected, the camera will automatically begin recording and send an instant push notification to your smartphone. You can customize the sensitivity of the motion detection and review motion-triggered clips within the app.

Image: Illustrates the instant motion detection feature, showing how smart detection triggers automatic alerts and video recording, with an example of an app notification.

5.3 Night Vision

The vebiliki F13 is equipped with enhanced infrared night vision, allowing it to capture clear footage even in complete darkness. The night vision mode activates automatically when ambient light is low, ensuring 24/7 monitoring capability.

Image: Emphasizes the camera's outstanding night vision capabilities, providing clear images in low-light conditions through automatic infrared activation.

6. Mounting and Placement

The compact design and included mounting bracket make installation simple and versatile. The camera can be placed on a flat surface, attached to a wall, or mounted on a shelf or ceiling.

- Use the adhesive backing on the mounting bracket to secure it to a clean, flat surface.
- The camera magnetically attaches to the bracket, allowing for easy adjustment of the viewing angle.
- For optimal performance, place the camera in a location that provides a clear view of the area you wish to monitor, ideally within 16 feet for effective motion detection and night vision.

Image: Demonstrates the easy installation of the camera using its magnetic stand, suitable for various indoor placements like shelves, walls, and ceilings.

Image: Highlights the versatile applications of the camera for elderly care, child care, and pet monitoring, emphasizing its role in providing peace of mind.

7. Battery Management

The vebiliki F13 camera is designed for extended use with its built-in rechargeable battery. It offers up to 100 days of standby time or 15-20 days of continuous operation on a full charge, depending on usage patterns and settings (e.g., frequency of motion detection). Regularly check the battery level via the app and recharge as needed to ensure uninterrupted surveillance.

Amazing Battery Life

Image: Illustrates the impressive battery life of the vebiliki F13 camera, featuring a 100-day standby capability.

8. Storage Options

Your vebiliki F13 camera offers two secure options for storing your video footage:

- **TF Card Storage:** Insert a TF (microSD) card (up to 128GB, not included) into the designated slot on the camera. Footage will be recorded locally onto the card, ensuring your video history is protected even without an internet connection.
- **Cloud Storage:** For added security and accessibility, you can subscribe to the encrypted cloud storage service through the app. This allows for remote access to your recordings and protects against data loss if the device is lost or damaged.

Image: Details the dual storage options for the camera: local SD card storage (up to 128GB) and budget-friendly encrypted cloud storage.

9. Advanced App Features

The companion app provides a range of features to enhance your surveillance experience:

- **Customizable Settings:** Adjust motion detection sensitivity, recording schedules, and other monitoring options.
- **Family Sharing:** Easily share camera access with trusted family members, allowing multiple users to view the live feed and recordings simultaneously.
- **Two-Way Audio:** (If applicable, check product for this feature) Communicate through the camera using the app.

10. Specifications

Feature	Detail
Model Name	F13
Video Capture Resolution	4K

Feature	Detail
Viewing Angle	140 Degrees
Night Vision Range	16 Feet
Connectivity Technology	Wireless (Wi-Fi 2.4GHz)
Power Source	Battery Powered (1 C battery included)
Flash Memory Supported Size Maximum	128 GB (TF Card)
Item Dimensions L x W x H	2 x 1 x 1 inches
Item Weight	7.4 ounces
Material	Acrylonitrile Butadiene Styrene (ABS)
Indoor/Outdoor Usage	Indoor

11. Troubleshooting

- **Camera not connecting to Wi-Fi:** Ensure your Wi-Fi network is 2.4GHz. Check your Wi-Fi password for accuracy. Make sure the camera is within range of your router. Try resetting the camera and repeating the connection process.
- **Poor video quality:** Check your Wi-Fi signal strength in the camera's location. Ensure the camera lens is clean.
- **Motion detection not working:** Verify that motion detection is enabled in the app settings. Adjust the PIR sensitivity if needed.
- **Battery draining quickly:** Frequent live viewing, continuous recording, or high motion detection activity can reduce battery life. Adjust settings to power-saving modes if available.
- **SD card issues:** Ensure the TF card is correctly inserted and formatted within the app. Use a high-quality TF card (Class 10 or higher).

12. Warranty and Support

For warranty information and technical support, please refer to the contact details provided in the included instruction manual or visit the official vebiliki website. Keep your purchase receipt for warranty claims.
