2. **Attach Armrests:** Slide the armrests onto the designated slots on the side of the end modules. Ensure they are firmly seated.
3. **Integrate Console:** Position the console table between any two modules where you desire its functionality. The console is designed to seamlessly fit and connect with the sofa modules.
4. **Place Cushions:** Arrange the seat and back cushions on their respective modules. Allow 48-72 hours for cushions to fully expand after unpacking.

No power tools are typically required for assembly. For detailed visual guidance, refer to the product video below.
