Feonase 681A3-1

Feonase Queen Metal Bed Frame with Fabric Button Tufted Headboard Instruction Manual

Model: 681A3-1

1. Introduction

Thank you for choosing the Feonase Queen Metal Bed Frame. This bed frame is designed for durability, stability, and ease of assembly, featuring a heavy-duty metal construction and a stylish fabric button-tufted headboard. This manual provides essential information for safe assembly, proper use, and effective maintenance of your new bed frame.

Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. Safety Information

- **Read all instructions:** Ensure you understand all assembly steps and safety warnings before proceeding.
- **Two-person assembly recommended:** Some steps may require lifting or holding heavy components.
- **Keep children and pets away:** Small parts can be a choking hazard.
- **Use on a level surface:** Assemble the bed frame on a clean, flat, and stable surface to prevent damage or injury.
- **Do not overtighten screws:** Overtightening can strip threads or damage components.
- **Regularly check connections:** Periodically inspect all bolts and screws to ensure they remain tight.
- **Weight Capacity:** The bed frame is designed to support up to 1000 lbs. Do not exceed this weight limit.
- **Protective Edges:** The bed frame includes protective covers for exposed sharp edges to reduce impact intensity.
- **Reflective Strips:** Thoughtful reflective strips are included on the bed legs to help avoid accidental toe injuries.

3. Package Contents

Before assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

Image: All components of the Feonase bed frame laid out for inspection.

The package includes the bed frame and an instruction manual. All necessary parts and tools for assembly are typically packed within the headboard or frame components.

4. Assembly Instructions

Assembly is designed to be straightforward and can typically be completed in approximately 30 minutes with two people. All parts are labeled for easy identification.

General Assembly Steps:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a soft, clean surface to prevent scratches. Refer to the parts list in your manual to identify each piece.
2. **Assemble the Headboard:** Attach the fabric button-tufted headboard sections to the main headboard frame using the provided hardware.
3. **Connect Side Rails:** Attach the side rails to the headboard and footboard using the designated U-shaped fasten grooves and bolts. Ensure all connections are secure.
4. **Install Support Legs:** Securely attach the 9 steady support feet to the frame.
5. **Place Slats:** Position the heavy-duty metal slats across the frame. The slats are designed with EVA mute strips to prevent noise. Ensure they are properly seated and secured.
6. **Final Check:** Once assembled, gently shake the frame to ensure all connections are stable and tight. Re-tighten any loose bolts if necessary.

5. Usage Guidelines

Mattress Placement:

This platform bed frame does not require a box spring. Place your Queen size mattress directly onto the metal slats. The frame is designed to hold the mattress securely in place, preventing sliding.

Under-Bed Storage:

The bed frame provides 12 inches of under-bed clearance, offering ample space for storage. Utilize this area for bins, boxes, or other items to keep your room tidy.

Image: Illustration of the 12-inch under-bed storage clearance.

6. Care and Maintenance

Cleaning:

- **Fabric Headboard:** The fabric headboard requires dry cleaning only. Do not use liquid cleaners or abrasive materials, as this may damage the fabric.
- **Metal Frame:** Wipe the metal frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the powder-coated finish.

General Maintenance:

- Periodically check all bolts and screws to ensure they are tight. Loose connections can lead to instability and noise.
- Avoid dragging the bed frame when moving it. Lift the frame to prevent damage to the legs or floor.

7. Troubleshooting

Noise Issues:

The Feonase bed frame is designed with a noise-free construction, incorporating EVA mute strips on the slats and muted processing on all connecting parts of the metal frame. If you experience any squeaking or noise:

- **Check all connections:** Ensure all bolts and screws are securely tightened. Loose connections are the most common cause of noise.
- **Verify slat placement:** Ensure all metal slats are correctly seated and the EVA mute strips are intact and properly positioned.
- **Inspect foot pads:** Confirm that the anti-friction and scratch-proof foot pads are correctly installed on the bottom of each leg.
