

GEREE DB6

GEREE DB6 Video Doorbell Instruction Manual

Model: DB6

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your GERE DB6 Video Doorbell. Please read this manual thoroughly before using the product to ensure proper functionality and safety. The GERE DB6 is a wireless video doorbell system designed to enhance home security and convenience, allowing you to see and communicate with visitors from your smartphone.

2. PRODUCT OVERVIEW

2.1 Package Contents

- GERE DB6 Video Doorbell Unit
- Wireless Chime Unit (USB-powered)
- Mounting Bracket
- Mounting Screws and Wall Anchors
- Adhesive Mounting Strip
- SIM Pin (for doorbell removal)
- Instruction Manual (this document)

2.2 Key Features

- **High-Definition Video:** Captures clear video footage.
- **Two-Way Audio:** Communicate with visitors remotely.
- **Motion Detection:** Receive alerts for activity at your door.
- **Wireless Chime:** Audible alert inside your home.
- **App Control:** Manage and monitor your doorbell via the VicoHome application.
- **Battery Powered:** Cordless operation for flexible installation.

2.3 Product Components Diagram

Image 1: The GEREE DB6 Video Doorbell unit (left), showing the camera lens, speaker, microphone, and doorbell button. To the right, a smartphone screen displays a live view of a delivery person. Below the smartphone, the compact wireless chime unit with a USB-A connector is visible.

3. SETUP

3.1 Charging the Doorbell

Before initial use, ensure the doorbell unit is fully charged. Connect the doorbell to a standard USB power adapter (not included) using a compatible charging cable. The LED indicator will show charging status. A full charge can last for an extended period, but actual battery life varies based on usage and environmental factors.

3.2 Installing the VicoHome App

1. Download the **VicoHome** app from your smartphone's app store (iOS App Store or Google Play Store).
2. Open the app and follow the on-screen instructions to create an account or log in.

3.3 Mounting the Doorbell Unit

The doorbell can be mounted using either the included adhesive strip or screws.

- **Adhesive Mounting:** Clean the desired mounting surface thoroughly. Apply the adhesive strip to the back of the mounting bracket, then firmly press the bracket onto the surface.
- **Screw Mounting:** Position the mounting bracket at the desired location. Mark the screw holes. Drill pilot holes if necessary, then secure the bracket to the wall using the provided screws and wall anchors.
- Once the bracket is secured, attach the doorbell unit to the bracket. Ensure it clicks into place.
- To remove the doorbell unit from its bracket (e.g., for charging), insert the provided SIM pin into the designated release hole on the bottom of the unit and gently pry it off.

3.4 Pairing the Doorbell with the App

1. Ensure your smartphone is connected to a 2.4GHz Wi-Fi network.
2. Open the VicoHome app and tap the "Add Device" or "+" icon.
3. Follow the in-app instructions to put the doorbell into pairing mode (usually by holding the power button for a few seconds).
4. Scan the QR code on the doorbell unit or packaging if prompted.
5. Complete the pairing process as guided by the app.

3.5 Setting Up the Wireless Chime

1. Plug the wireless chime unit into a standard USB Type-A power source (e.g., a USB wall adapter, computer USB port).
2. The chime should automatically pair with the doorbell unit once both are powered on and within range.
3. Use the buttons on the chime unit to adjust volume and select desired chime melodies.

4. OPERATING INSTRUCTIONS

4.1 Responding to Doorbell Presses

- When a visitor presses the doorbell button, the wireless chime will sound, and you will receive a notification on your smartphone via the VicoHome app.
- Tap the notification to open the app and view a live video feed from the doorbell.
- Use the two-way audio function within the app to speak with the visitor.

4.2 Motion Detection

- The doorbell is equipped with motion sensors that detect movement in its field of view.
- Upon detecting motion, the doorbell will send a notification to your smartphone.
- You can customize motion detection sensitivity and zones within the VicoHome app to reduce false alerts.
- Video recording of motion events may require a subscription service for cloud storage. Refer to the VicoHome app for subscription details.

4.3 Live View

You can access a live video feed from your doorbell at any time through the VicoHome app, even if no one has pressed the doorbell or triggered motion detection.

5. MAINTENANCE

- **Charging:** Recharge the doorbell unit when the battery level is low. The app will typically notify you.
- **Cleaning:** Periodically wipe the camera lens and the doorbell's exterior with a soft, damp cloth to remove dust and smudges. Do not use harsh chemicals.
- **App Updates:** Keep the VicoHome app updated to the latest version to ensure optimal performance and access to new features.

6. TROUBLESHOOTING

Problem	Possible Solution
Doorbell not connecting to Wi-Fi.	• Ensure your Wi-Fi network is 2.4GHz. • Check Wi-Fi signal strength at the doorbell's location. • Restart your Wi-Fi router. • Reset the doorbell and attempt pairing again.
No notifications on smartphone.	• Verify app notification settings are enabled on your phone. • Check notification settings within the VicoHome app. • Ensure the doorbell is connected to Wi-Fi.

Problem	Possible Solution
Chime not sounding.	• Ensure the chime unit is plugged into a working USB power source. • Check the chime's volume settings. • Re-pair the chime with the doorbell if necessary (refer to app for instructions).
Poor video quality.	• Clean the camera lens. • Ensure adequate Wi-Fi signal strength. • Check app settings for video resolution options.
Short battery life.	• Reduce motion detection sensitivity or frequency. • Ensure the doorbell is fully charged. • Extreme temperatures can affect battery performance.

For further assistance, please refer to the VicoHome app's help section or contact GEREE customer support.

7. SPECIFICATIONS

Feature	Detail
Brand	GEREE
Model Name	DB6
Product Dimensions (L x W x H)	14.7 x 4.7 x 3.3 cm
Item Weight	320 grams
Video Recording Resolution	1440p (2K HD)
Connectivity Protocol	Bluetooth (for initial setup/pairing, Wi-Fi for operation)
Mounting Type	Door Mount (Adhesive or Screw)
Usage Environment	Designed for outdoor use at entrances, though listed as 'Indoor' in some specifications, its function is for exterior monitoring.
Power Source	Battery (rechargeable) for doorbell, USB for chime
Included Components	Video Doorbell, Wireless Chime, Mounting Accessories, Instruction Manual

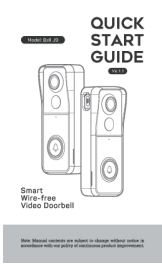

8. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation included with your purchase or visit the official GEREE website. You can also find support resources within the VicoHome application. Please retain your proof of purchase for any warranty claims.
