## PETULTRA DU4LB-VY

# PETULTRA Automatic Cat Feeder with Camera (5G Video Edition) Instruction Manual

## 1. PRODUCT OVERVIEW

---

The PETULTRA Automatic Cat Feeder with Camera (5G Video Edition) is designed to provide convenient and precise feeding for your pets. Featuring 2.4GHz and 5G WiFi connectivity, an HD camera with 2-way audio, and a freshness preservation system, this feeder ensures your pet's meals are consistent and monitored. It supports customizable feeding schedules and offers dual power supply options for reliability.

## 2. KEY FEATURES

- **Convenient APP Control Feeding:** Manage your pet's meals remotely via 2.4GHz & 5G WiFi. Customize 1-10 meals/day with 1-20 portions per meal. Track feeding logs through the app for consistent scheduling.
- **High Definition Camera:** Remotely monitor your pet with a wide-angle HD camera. Receive motion detection alerts for unusual activity. Record real-time video and capture snapshots.

Image 2.1: Live Monitoring Feature. A cat is eating from the feeder while a hand holds a smartphone displaying a live video feed of the cat, demonstrating remote monitoring.

- **Two-way Audio and Personalized Meal Call:** Built-in microphone and speaker allow real-time communication with your pet. Record a 10-second voice clip to call your pet for meals, providing comfort and ensuring timely feeding.
