Novilla King Memory Foam Mattress Topper Instruction Manual

Model: N-T15003

PRODUCT OVERVIEW

The Novilla King Memory Foam Mattress Topper is designed to enhance your sleep experience with its innovative 2-in-1 design, offering versatile support and adaptable comfort throughout the year. It features a high-density gel-infused memory foam layer for pressure relief and a detachable cooling cover for breathability.

This topper is engineered to conform to your body's curves, reducing pressure points and minimizing tossing and turning. The dual-layer construction allows for customized comfort, providing warmth in colder months when using the foam alone, and a cool-to-the-touch surface during warmer seasons with the cooling cover attached.

SETUP INSTRUCTIONS

Your Novilla mattress topper comes vacuum-packed for convenient delivery and storage. Follow these steps for proper setup:

1. Carefully remove the product (topper and memory foam) from its vacuum-sealed packaging.
2. Unroll the topper and place it flat on a clean, dry surface.
3. Allow 48–72 hours for the memory foam topper to fully expand to its intended size and shape. Expansion time may vary based on room temperature.
4. Once fully expanded, place the topper on your mattress. The elastic straps and deep pockets are designed to securely fit mattresses from 8 to 21 inches deep, ensuring it stays in place.

OPERATING AND USAGE TIPS

The Novilla mattress topper offers a 2-in-1 design for adaptable comfort:

- **Combined Use (All-Season):** For double softness and comfort, use both the gel-infused memory foam and the detachable cooling cover together. This configuration provides balanced support and temperature regulation.
- **Topper Only (Cloud-Like Softness):** In warmer conditions or if you prefer a cooler sleep surface, use the detachable cooling cover alone. The cover, made from 40% cooling Olefin and ultra-fine knit fabric, provides a cool-to-the-touch feel and enhanced airflow.
- **Foam Only (Supportive Comfort):** In colder conditions or if you prefer more warmth and body-hugging support, detach the cooling cover and use only the gel-infused memory foam layer. The foam retains gentle warmth, ideal for winter use.

This versatile mattress topper is suitable for various settings, including bedrooms, guest rooms, RVs, or travel, providing consistent comfort wherever you need it.

MAINTENANCE

Proper care ensures the longevity and performance of your Novilla mattress topper. Please note that the gel-infused memory foam itself is not washable.

- **Detachable Cover Care:** The removable cooling cover is machine washable. Simply detach it from the foam layer. Wash in cold water on a gentle cycle. Tumble dry on low heat. Ensure the cover is completely dry before reattaching.
- **Foam Care:** The memory foam layer should not be washed. For spot cleaning, gently dab with a mild detergent and water solution, then allow to air dry completely away from direct sunlight.
- **Non-Slip Fit:** The elastic straps and deep pockets are designed to keep the topper secure on mattresses from 8 to 21 inches deep. Periodically check the fit to ensure optimal stability.

TROUBLESHOOTING

- **Topper not fully expanding:** Ensure the topper has been unrolled and laid flat for the recommended 48-72 hours. Room temperature can affect expansion; a warmer room may speed up the process.
- **Unusual odor:** A new memory foam product may have a slight odor upon unboxing. This is normal and harmless. Allow the topper to air out in a well-ventilated room for 24-48 hours before use.
- **Topper shifting on mattress:** Ensure the elastic straps are securely fitted around the corners of your mattress. The deep pockets are designed to accommodate mattresses up to 21 inches thick for a snug fit.
- **Cover not feeling cool:** Ensure the cooling cover is properly attached and facing upwards. The cooling effect is most noticeable when in direct contact with the body.
