## 4. SETUP

### 4.1 Mounting the Device

1. Attach the car bracket (suction cup mount) to the back of the GPS unit. Ensure it clicks securely into place.
2. Clean the desired mounting surface (windshield or dashboard) thoroughly.
3. Press the suction cup firmly against the surface and engage the locking lever to secure it.
4. Adjust the angle of the GPS unit for optimal viewing without obstructing your driving view.
5. Alternatively, use the sunshade mount by clipping it to your vehicle's sun visor.

### 4.2 Powering On and Initial Charge

1. Connect the MINI USB cable to the GPS unit and the car charger.
2. Plug the car charger into your vehicle's 12V power outlet.
3. Press and hold the power button on the GPS unit to turn it on.

4. Allow the device to charge fully before its first use.

## INSTALLATION STEPS

Image 4: Visual guide for installing the GPS unit and mount.

## 5. OPERATING THE NAVRUF GPS NAVIGATOR

### 5.1 Basic Navigation

1. From the main menu, tap 'Navigation'.
2. Select 'Destination' to enter your desired location. You can search by address, postcode, coordinates, or points of interest (POI).
3. Confirm your destination, and the device will calculate the route.
4. Follow the voice prompts and on-screen directions for turn-by-turn guidance.

### 5.2 Route Planning and Vehicle Profiles

- The device offers 4 route options: Fast, Green, Short, and Easy. Select the one that best suits your needs.
- Set your vehicle type (Car, Truck, RV, etc.) in the settings to ensure the most appropriate route is calculated, considering vehicle-specific restrictions like height or weight.

## 5.3 Safety Features

- **Speed Camera Alerts:** Receive intelligent alerts for upcoming speed cameras.
- **Red Light Warnings:** Get audible warnings for red light cameras.
- **Lane Assistant:** Clearly indicates the correct lane for upcoming turns and exits.
- **Voice Guidance:** Keeps your eyes on the road by providing spoken directions.

## 5.4 FM Transmitter Function

The built-in FM transmitter allows you to transfer the GPS voice instructions to your vehicle's FM radio. To use this feature:

1. Go to the 'FM' option in the main menu or settings.
2. Select an unused FM frequency on your GPS unit.
3. Tune your vehicle's FM radio to the same frequency.
4. GPS voice guidance will now play through your car speakers.

### FM Transmitter

Built-in hi-fi FM transmitter functions with 76.0MHz-108.0MHz, the GPS voice will be sent to the speakers on your vehicles directly

### Multiple Map Voice Announcements

Coming with 107 kinds of voice announcements which cover about 38 countries and contains female natural voice, female TTS voice, male natural voice and male TTS voice for your selection

## 6. MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior of the device. Avoid abrasive cleaners or solvents.
- **Map Updates:** Regularly check for and install free lifetime map updates to ensure the most accurate and up-to-date navigation data. Contact NAVRUF support for instructions on how to update maps.
- **Storage:** When not in use, store the GPS unit in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly.

## 7. TROUBLESHOOTING

---

- **Device not turning on:** Ensure the device is fully charged. Connect it to the car charger and try again. If the issue persists, check the charging cable and car charger for damage.
- **No GPS signal:** Ensure the device has a clear view of the sky. Move away from tall buildings or dense tree cover. Allow a few minutes for the device to acquire satellite signals.

- **Inaccurate directions:** Verify that the maps are up to date. Perform a map update if necessary. Check your selected vehicle profile to ensure it matches your current vehicle.
- **Touchscreen unresponsive:** Restart the device. If the problem continues, ensure the screen is clean and free of debris.
- **Voice guidance issues:** Check the volume settings on the device and your vehicle's audio system if using the FM transmitter. Ensure the FM transmitter frequency is correctly set and matched.

## 8. SPECIFICATIONS

Feature	Detail
