1. PRODUCT OVERVIEW

The CUTEROOM Edinburgh Castle Miniature DIY Dollhouse Kit is a detailed wooden craft kit designed for assembly. This kit allows you to construct a miniature dollhouse featuring LED lighting, creating a visually impressive display piece. It is intended for adults and children aged 14 and above, offering an engaging and rewarding building experience.

Upon completion, the miniature house serves as a decorative item, a collectible, or a thoughtful gift. The assembly process encourages the development of hand-eye coordination, concentration, and spatial understanding.

EDUCATION

2. SETUP AND ASSEMBLY

Assembly of the Edinburgh Castle Miniature DIY Dollhouse Kit requires patience and attention to detail. The kit includes all necessary wooden pieces, paper components, and other materials for construction. Please follow the illustrated instructions provided in the manual carefully.

2.1. Required Tools and Materials (Not Included)

- Adhesive (glue suitable for wood and paper)
- Scissors or precision knife
- Tweezers (recommended for small parts)
- Ruler
- Small screwdriver (for battery compartment, if applicable)
- Batteries (for LED lights, specific type not provided in product data, typically AA or AAA)

2.2. Assembly Steps

1. **Unpack and Organize:** Carefully unpack all components. Identify and organize pieces according to their numbers as indicated in the instruction manual.

2. **Review Instructions:** Read through the entire illustrated English instruction manual before beginning assembly to understand the overall process.
3. **Prepare Components:** Cut out paper components and prepare wooden pieces as instructed. Some pieces may require gentle sanding for a perfect fit.
4. **Follow Step-by-Step:** Assemble the dollhouse section by section, following the numbered steps in the manual. Apply adhesive sparingly and allow sufficient drying time between steps.
5. **Install LED Lighting:** Integrate the LED lighting system as directed. Ensure all connections are secure before concealing wires.
6. **Add Decorative Elements:** Once the main structure is complete, add the miniature furniture and decorative elements to personalize your dollhouse.

Note: The assembly process typically takes 20 to 24 hours to complete. Take your time and enjoy the crafting experience.

3. OPERATION

The primary operational feature of the Edinburgh Castle Miniature DIY Dollhouse Kit is its integrated LED lighting system.

3.1. Powering the LED Lights

- Ensure batteries (not included) are correctly installed in the designated battery compartment, following polarity markings.
- Locate the power switch for the LED lights, typically found on the base or rear of the dollhouse.
- Toggle the switch to the "ON" position to illuminate the miniature house.
- Toggle the switch to the "OFF" position when not in use to conserve battery life.

Note: The specific battery type and location of the switch will be detailed in your included instruction manual.

4. MAINTENANCE

To ensure the longevity and appearance of your miniature dollhouse, follow these maintenance guidelines:

- **Cleaning:** Gently dust the dollhouse and its components with a soft, dry cloth or a soft brush. Avoid using liquid cleaners, as they may damage the wood or paper elements.
- **Storage:** Store the dollhouse in a dry environment, away from direct sunlight and extreme temperatures, to prevent warping or fading of materials.
- **Battery Replacement:** If the LED lights dim or stop working, replace the batteries. Always use the recommended battery type and dispose of old batteries responsibly.
- **Repairs:** If any small parts become detached, reattach them using appropriate adhesive. Handle with care to avoid damage.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
LED Lights Not Working	Batteries incorrectly installed or depleted. Loose wire connection. Power switch is off.	Check battery polarity and replace if necessary. Inspect wire connections and re-secure. Ensure power switch is in the "ON" position.
Pieces Do Not Fit Together	Incorrect piece selection. Excess material or rough edges.	Double-check the part numbers against the manual. Gently sand edges if needed for a snug fit.
Missing Components	Packaging error.	Carefully re-check all packaging materials. If still missing, contact customer support.
