5. MAINTENANCE

To ensure the longevity and optimal performance of your SIXTOP car stereo, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touch screen. Avoid abrasive materials or harsh chemicals that could damage the display.
- **General Cleaning:** Keep the unit free from dust and debris. Use a soft brush or compressed air to clean vents and buttons.
- **Software Updates:** Periodically check for software updates to ensure the system has the latest features and security patches. Refer to the manufacturer's website for update instructions.
- **Avoid Extreme Temperatures:** Do not expose the unit to extreme heat or cold for extended periods, as this can affect performance and lifespan.

6. TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common troubleshooting steps:

- **No Power:** Check all power connections and ensure the fuse is intact. Verify the vehicle's battery is charged.
- **No Sound:** Check speaker connections and ensure the volume is not muted or set too low.

Verify EQ settings are not causing audio issues.

- **Touch Screen Unresponsive:** Perform a system reset (refer to the user manual for specific instructions). Ensure the screen is clean and free from obstructions.
- **CarPlay/Android Auto Connection Issues:** Ensure your phone's Wi-Fi and Bluetooth are enabled. Try restarting both your phone and the car stereo. Verify the phone's operating system is compatible.
- **Backup Camera Not Displaying:** Check the camera's power and video connections. Ensure the reverse trigger wire is correctly connected to the vehicle's reverse light circuit.
