Annadue N95 Pro

Annadue N95 Pro 2G GSM Slider Phone User Manual

Model: N95 Pro

1. Introduction

Welcome to the Annadue N95 Pro 2G GSM Slider Phone user manual. This guide provides detailed instructions on how to set up, operate, maintain, and troubleshoot your new mobile phone. Please read this manual carefully to ensure proper use and to maximize the phone's features.

2. Product Overview

The Annadue N95 Pro is a compact 2G GSM slider phone designed for ease of use, featuring a 2.0-inch HD display and a range of multimedia capabilities.

2.1 Key Features

- **Easy Lock/Unlock:** Convenient slider mechanism for locking and unlocking.
- **Family Quick Dial:** Configure up to 9 numbers for quick access.
- **Rich Functionality:** Supports calls, text messages, camera, MP3/MP4 playback, FM radio, Bluetooth, alarm, calendar, flashlight, calculator, games, and internet access.
- **Voice Changer:** Allows for male, female, and child voice effects during calls.
- **2.0-inch HD Display:** Ensures clear and easy-to-read text.
- **Loud and Clear Sound:** Built-in high-volume speaker and 3.5mm headphone jack.
- **Dual SIM Support:** For managing two phone numbers simultaneously.

3. Setup

3.1 SIM Card and Battery Installation

1. Carefully slide open the phone to reveal the battery compartment and SIM card slots.
2. Insert your 2G GSM SIM card(s) into the designated slots. Ensure the gold contacts face downwards and the card is correctly oriented.

3. Insert the battery into its compartment, aligning the contacts.
4. Close the battery cover and slide the phone back into its closed position.

4. Operating Instructions

4.1 Power On/Off

- **To Power On:** Press and hold the Power button until the screen lights up. Alternatively, sliding the phone open may power it on automatically.
- **To Power Off:** Press and hold the Power button, then select 'Power Off' from the options. Sliding the phone closed may power it off or put it into standby mode.

4.2 Making and Receiving Calls

- **To Make a Call:** Enter the phone number using the keypad and press the green 'Call' button.
- **To Receive a Call:** When the phone rings, press the green 'Call' button to answer.
- **To End a Call:** Press the red 'End Call' button.

4.3 Text Messaging

- Navigate to the 'Messages' menu.
- Select 'New Message' to compose a text.
- Enter the recipient's number and your message, then send.

4.4 Quick Dial for Family

You can set up to 9 numbers for quick dialing. Refer to the phone's settings menu under 'Speed Dial' or 'Family Numbers' to assign contacts to specific keys (e.g., 2-9).

4.5 Multimedia Features

- **MP3/MP4 Player:** Access the 'Multimedia' or 'Player' menu to play audio and video files stored on your phone or memory card.
- **FM Radio:** Plug in headphones (which act as an antenna) and navigate to the 'FM Radio' application to listen to local stations.
- **Camera:** Open the 'Camera' application to take photos.

4.6 Other Functions

- **Bluetooth:** Enable Bluetooth in the settings to connect to compatible devices like headsets.
- **Tools:** Access applications such as Alarm, Calendar, Flashlight, and Calculator from the 'Tools' or 'Applications' menu.
- **Internet Access:** The phone supports basic internet access via its browser. Note that this is a 2G device, so internet speeds will be limited.
- **Voice Changer:** This feature can be found in the call settings or during an active call, allowing you to modify your voice.

5. Maintenance

- Keep the phone dry. Moisture can damage electronic circuits.
- Do not expose the phone to extreme temperatures.
- Clean the phone with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- Handle the phone with care to prevent drops or impacts.
- Charge the battery regularly, but avoid overcharging or letting it completely drain for extended periods.

6. Troubleshooting

If you encounter issues with your phone, please refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Phone does not power on	Low battery; battery not inserted correctly; faulty battery.	Charge the phone; reinsert battery; try a different battery if available.
No network signal	Out of network coverage; SIM card not inserted correctly; SIM card issue.	Move to an area with better coverage; reinsert SIM card; contact your service provider.
Cannot make/receive calls	No network signal; call barring activated; insufficient credit (prepaid).	Check network signal; disable call barring; recharge your account.
Sound issues (low volume, no sound)	Volume too low; speaker/earpiece blocked; faulty hardware.	Adjust volume settings; clean speaker/earpiece; contact support if issue persists.
Phone freezes or crashes	Software glitch; too many applications running; low memory.	Restart the phone; close unnecessary applications; perform a factory reset (data will be lost).
