# Camcamp DL03 Proactive Vision Deadbolt Smart Lock with Camera & Doorbell Instruction Manual

Model: DL03

## INTRODUCTION

---

This manual provides detailed instructions for the installation, operation, and maintenance of your Camcamp DL03 Proactive Vision Deadbolt Smart Lock. This 3-in-1 smart deadbolt integrates a camera and doorbell for enhanced home security and convenience.

## Key Features

- **All-in-One Smart Lock & Video Doorbell:** See who's there the moment they ring the bell. Connects directly to your phone via the app for instant video and audio.
- **Six Flexible, Keyless Entry Ways:** Unlock using fingerprint, personalized code, app, Siri, key card, or a physical key.
- **Long-Lasting Battery:** Enjoy up to 6 months of reliable use from one charge. App alerts for low battery, and a USB-C port for emergency power.
- **Real-Time Alerts & Enhanced Security Logs:** Instant activity logs to your phone. Alarm sounds after 3 failed entry attempts, and camera records video after 5.
- **HD Wide-Angle Camera & Live View:** Crystal-clear, 142-degree view of your doorstep day or night. Activate live feed anytime through the app.
- **Weather-Resistant & Durable Design:** Robust aluminum alloy body with an IP66 waterproof rating. Operates reliably from -4°F to 149°F (-25°C to 65°C).
- **Easy 15-Minute DIY Installation:** Designed for simple, tool-free replacement of existing deadbolts, often without new holes.
- **Loud Chime for Whole-Home Alerts:** Included plug-in chime amplifies the doorbell ring throughout your home.
- **Dedicated Customer Support:** Committed customer care with technical and pre/post-sale questions answered within 24 hours.

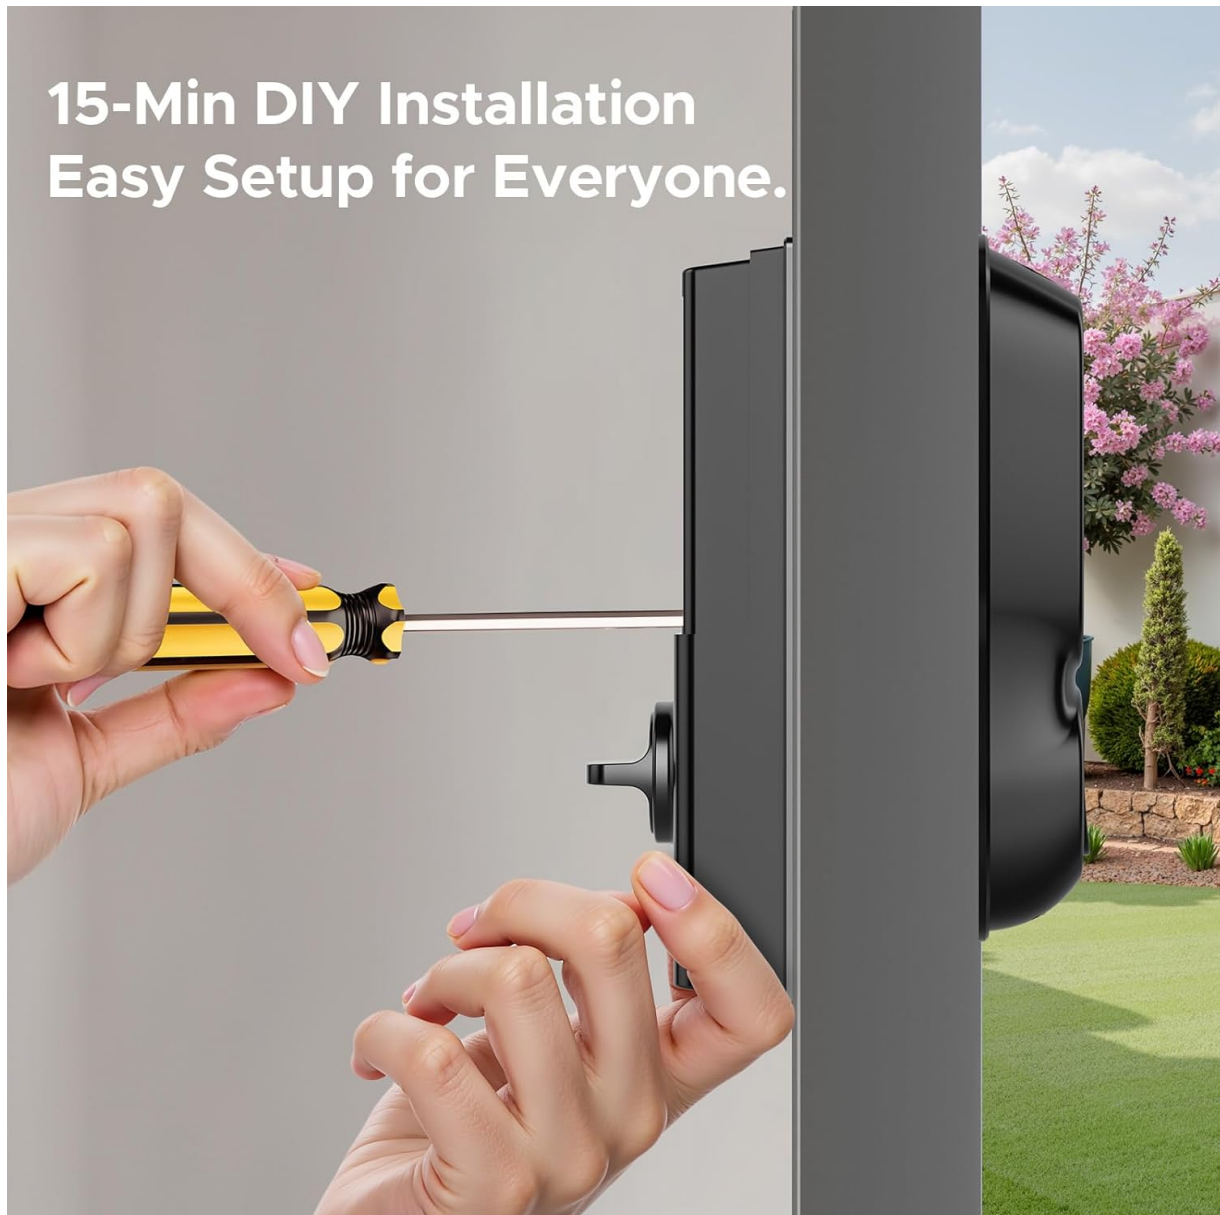

## SETUP AND INSTALLATION

---

The Camcamp DL03 Smart Lock is designed for easy DIY installation, typically taking around 15 minutes. No new holes are usually required for standard deadbolt replacements.

### Package Contents

Verify all components are present before beginning installation.

This image displays all items included in the product package: the exterior smart lock assembly with keypad and camera, the interior assembly with the thumb turn, a rechargeable battery, two IC cards for tap-to-unlock, two physical keys, the deadbolt mechanism, a strike plate, and a plug-in doorbell chime.

### Door Preparation

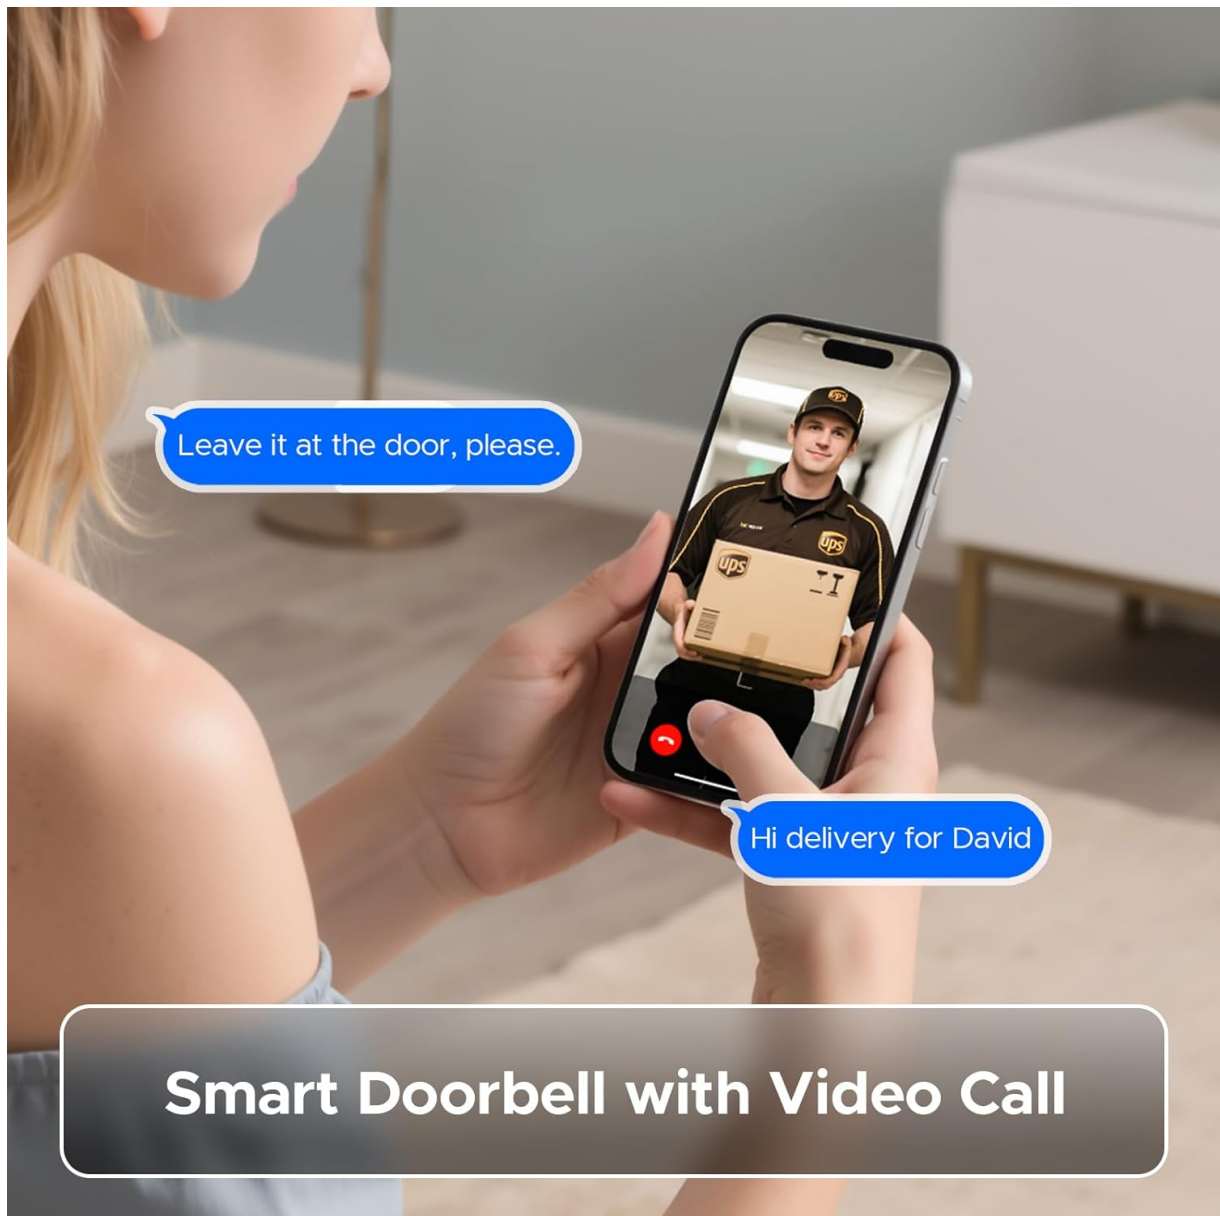

Ensure your door meets the required dimensions for proper installation.

A diagram illustrating the necessary door measurements for proper installation, including the bore hole diameter (2.16 inches / 55mm) and the backset range (2.36-2.75 inches / 60-70mm).

### Installation Steps

Follow these steps to install your smart lock. Refer to the included paper template for precise drilling if needed.

A person is shown using a screwdriver to install the smart lock, highlighting the ease and speed of the DIY installation process.

1. Remove your existing deadbolt.
2. Install the new deadbolt mechanism.
3. Attach the exterior assembly, feeding the cable through the door.
4. Connect the cable to the interior assembly.
5. Secure the interior assembly to the door.
6. Insert the rechargeable battery.
7. Test the lock's functionality.

This video demonstrates the installation process of the Camcamp Smart Lock, showing how to replace an existing deadbolt with the new smart lock system.

## OPERATING INSTRUCTIONS

---

### Unlocking Methods

The DL03 Smart Lock offers multiple ways to access your home:

- **Fingerprint Unlock:** Place your registered finger on the sensor.

- **Passcode Unlock:** Enter your personalized code on the keypad.
- **App Unlock:** Use the dedicated mobile application to unlock remotely.
- **Siri Unlock:** Utilize Siri voice commands for hands-free unlocking.
- **IC Card Unlock:** Tap a registered IC card on the lock.
- **Physical Key:** Use the provided physical keys as a backup.

An infographic detailing the six available unlocking methods: fingerprint, mobile app, Siri voice command, physical key, PIN code entry, and RFID card.

### **Doorbell Functionality**

The integrated doorbell allows you to see and communicate with visitors.

# Live View on Demand

A user interacting with a delivery person through the smart lock's video doorbell, viewing the live feed and speaking via two-way audio on their smartphone.

## Mobile App Usage

The mobile app provides comprehensive control and monitoring features.

## Remote Control at Your Fingertips

See and unlock your door from anywhere.  
Perfect for letting in guests remotely.

APP

A smartphone screen displaying the smart lock's mobile application, which allows for remote control, video surveillance, managing users, and setting temporary access codes.

## Auto-Lock Feature

The lock can be configured to automatically lock after a set period, providing peace of mind when you forget to manually lock the door.

## MAINTENANCE

---

### Battery Management

The smart lock is powered by a long-lasting rechargeable battery.

- The battery provides up to 6 months of use on a single charge.
- The app will send alerts when the battery level is low.
- In case of a completely drained battery, use a USB-C power bank for emergency power via the exterior port.

## Enhanced WiFi Connection with Built-in Antenna

The rechargeable battery for the smart lock is shown connected to a USB-C charging cable, emphasizing its extended 6-month battery life.

### Weather Resistance

The lock is designed for durability in various weather conditions.

- Features a robust aluminum alloy body.

- IP66 waterproof rating.
- Operates reliably in temperatures from -4°F to 149°F (-25°C to 65°C).

## IP66 Weatherproof. Built for All Seasons & Weathers.

A split image showing the smart lock enduring a simulated rain shower on one side and direct sunlight on the other, illustrating its IP66 weatherproof and durable design.

## TROUBLESHOOTING

### Failed Entry Attempts

The lock incorporates security measures for failed entry attempts:

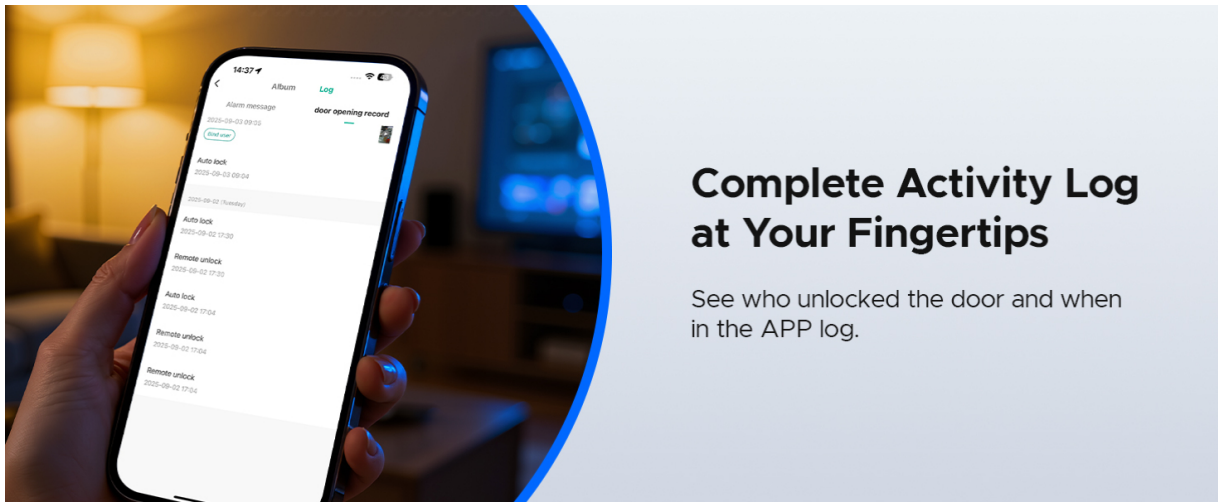

- An alarm sounds after 3 failed entry attempts.
- After 5 failed attempts, the camera automatically records a video.

A visual representation of the smart lock's security features, showing an alarm sounding and video recording initiated after multiple incorrect access attempts.

### Activity Log

Review the activity log in the mobile app for all lock and unlock events.

## Complete Activity Log at Your Fingertips

See who unlocked the door and when in the APP log.

A smartphone screen showing the mobile application's activity log, which records all locking and unlocking events, including timestamps and method used.
