- **Dynamic RGB Illumination:** Features 8 RGB backlit options to create a unique ambiance and personalize your entertainment experience.

Mirror-Like Lighting, Stunning Visuals

Vivid LED light, feel the music in beautiful and dynamic

Image: Two BESTISAN GM06 speakers flanking a monitor, showcasing the vibrant RGB lighting effects that enhance the desktop aesthetic.

- **Delicate Design:** Unique diamond-shaped cabinet with a 5-degree elevation, 0.7L isometric cavity, matte panel, metal laser engraving logo, silicone buttons, and anti-slip foot pads.

Headphone Jack

Where your midnight magic meets crystal-clear vibes-no lag, no leaks, just 'You'

Image: A user wearing headphones connected to one of the BESTISAN GM06 speakers, illustrating the convenient headphone jack for private listening.

SETUP INSTRUCTIONS

- 1. Connect Speakers:** Connect the main speaker (with controls) to the secondary speaker using the provided PS2 cable.
- 2. Power Connection:** Connect the power adapter to the main speaker's power port and then to a power outlet.
- 3. Audio Connection:** Choose your preferred audio input method:
 - **3.5mm AUX:** Connect the 3.5mm audio cable from your device's audio output to the AUX IN port on the main speaker.
 - **Bluetooth:** Power on the speakers. The speakers will automatically enter Bluetooth pairing mode (indicated by a flashing blue light). On your device, search for "BESTISAN GM06" in the Bluetooth settings and pair.
 - **Type-C:** Connect your device to the Type-C port on the main speaker using a compatible Type-C cable.
- 4. Position Speakers:** Place the speakers on your desktop or desired surface, ensuring optimal sound projection. The 5-degree elevation is designed for improved audio direction.

OPERATING INSTRUCTIONS

The main speaker features intuitive controls for easy operation:

Image: Top view of the main speaker showing the silicone buttons for On/Off, RGB lights switch, Volume/Track control, and Sound Source/EQ switch.

- **Power On/Off:** Press and hold the Power/Mode button (labeled with power symbol and 'M') for 3 seconds.
- **Switch Input Mode:** Short press the Power/Mode button to cycle through AUX, Bluetooth, and Type-C input modes.
- **Volume Control:** Use the Volume Lever (labeled with '+' and '-') to increase or decrease the volume.
- **Track Control:** Long press the '+' button for the next track, and long press the '-' button for the previous track (in Bluetooth mode).
- **RGB Lighting:** Press the RGB lights switch button (labeled with a lightbulb symbol) to cycle through 8 different RGB lighting modes.
- **EQ Mode:** Press the EQ button (labeled with 'EQ') to switch between Gaming, Movies, and Music sound modes.
- **Play/Pause:** Press the Play/Pause button (labeled with play/pause symbol) to play or pause audio (in Bluetooth mode).

Control Method	Touch

MAINTENANCE

To ensure the longevity and optimal performance of your BESTISAN GM06 speakers, please follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the speaker surfaces. Avoid using abrasive cleaners, waxes, or solvents as they may damage the finish.
- **Placement:** Place speakers on a stable, flat surface to prevent accidental falls. Ensure adequate ventilation around the speakers.
- **Avoid Moisture:** Keep the speakers away from water, excessive humidity, and direct exposure to rain or splashes. These speakers are not waterproof.
- **Temperature:** Avoid exposing the speakers to extreme temperatures (hot or cold) or direct sunlight for extended periods.
- **Cable Care:** Handle cables gently. Avoid bending, twisting, or pinching them, which can damage internal wiring.

TROUBLESHOOTING

If you encounter any issues with your BESTISAN GM06 speakers, please refer to the following common solutions:

- **No Sound:**
 - Ensure the speakers are powered on and the volume is turned up.
 - Verify that the correct input mode (AUX, Bluetooth, Type-C) is selected.

- Check all cable connections (power, speaker interconnect, audio input) are secure.
- Confirm your device's volume is not muted or too low.
- **Distorted Sound:**
 - Lower the volume on both the speakers and your connected device.
 - Check for interference if using Bluetooth. Try moving the speakers closer to the device or away from other electronic devices.
 - Ensure audio cables are fully inserted and not damaged.
- **Bluetooth Pairing Issues:**
 - Ensure the speakers are in Bluetooth pairing mode (flashing blue light).
 - Turn off and on Bluetooth on your device, then try pairing again.
 - Forget/remove "BESTISAN GM06" from your device's Bluetooth list and re-pair.
- **RGB Lights Not Working:**
 - Ensure the speakers are powered on.
 - Press the RGB lights switch button to cycle through modes or turn them on.

WARRANTY & SUPPORT

The BESTISAN GM06 Computer Gaming Speakers come with a Limited Warranty. For specific details regarding warranty coverage, duration, and terms, please refer to the warranty card included in your package or contact BESTISAN customer support.

For technical support, troubleshooting assistance, or any inquiries regarding your product, please visit the official BESTISAN website or contact their customer service team through the contact information provided in your user manual.
