Package Contents

Your SOFTSEA Full Size Corner Bed is shipped in three separate packages. Please ensure you have received all packages before beginning assembly. Each package contains various components necessary for the complete structure.

While a detailed parts list is typically included in the physical instruction manual, expect to find:

- Wooden panels (MDF and Plywood) for the bed frame, desk, bookcase, and drawers.
- Upholstered headboard sections.
- Bed slats and support components.
- Hardware kit (screws, bolts, connectors, Allen wrenches, etc.).
- LED light strips and power adapter.
- USB charging station module.
- Drawer components and slides.

Refer to the specific parts list included in your product packaging for exact quantities and identification of each component.

Setup & Assembly

Full assembly is required for this product. It is strongly recommended that two people perform the assembly. All necessary tools are included in the package.

1. **Unpack and Verify:** Carefully unpack all three boxes. Lay out all components and hardware on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Compare all parts against the included parts list to ensure nothing is missing or damaged.

2. **Prepare the Area:** Choose the final location for your bed. Ensure there is enough space for assembly and that the floor is level.

3. **Follow Step-by-Step Instructions:** Refer to the detailed graphical instructions provided in your product's physical manual. Each step will guide you through connecting specific components.

4. **Assemble the Main Bed Frame:** Begin by assembling the primary bed frame structure, including the side rails and end panels. Ensure all connections are snug but do not overtighten until the frame is fully aligned.

5. **Install the L-Shaped Components:** Attach the L-shaped desk and bookcase sections according to the manual. These sections often integrate with the headboard and side panels.

6. **Integrate the Upholstered Headboard:** Secure the upholstered headboard panels into their designated slots or mounting points.

7. **Assemble and Insert Drawers:** Assemble the two underbed storage drawers. Install the drawer slides onto the bed frame and then insert the assembled drawers.

8. **Install Bed Slats:** Place and secure the bed slats across the bed frame. Ensure they are evenly spaced and firmly attached to provide adequate mattress support.

9. **Connect Electrical Components:** Install the LED light strips into the bookcase compartments and connect the USB charging station. Route cables neatly and securely. Plug the power adapter into a

wall outlet only after all electrical components are installed.

10. **Final Tightening and Inspection:** Once all components are in place, go back and securely tighten all screws and bolts. Check the entire structure for stability and ensure there are no loose parts.

OPERATION

Storage Drawers

The two underbed storage drawers are designed for easy access and organization. Simply pull the drawer handles to open and push to close. Ensure drawers are fully closed when not in use to prevent dust accumulation and maintain a tidy appearance.

L-Shaped Desk

The integrated L-shaped desk provides a convenient surface for studying, working, or placing personal items. Ensure items placed on the desk do not exceed its weight capacity and are stable to prevent falling.

LED Bookcase Lighting

The LED lights integrated into the bookcase compartments provide ambient illumination. Locate the power switch, typically a small button or touch sensor, within one of the bookcase sections. Press to turn on/off. Some models may offer adjustable brightness or color temperature; refer to your specific product's instructions for advanced features.

- **Drawer Maintenance:** Keep drawer slides clean and free of obstructions for smooth operation.

TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Missing parts or damaged components upon arrival.	Shipping damage or packaging error.	Do not proceed with assembly. Contact SOFTSEA customer support immediately with your purchase details and a list of missing/damaged parts for replacement.
Difficulty aligning parts during assembly.	Incorrect orientation of parts; pre-drilled holes not aligning; overtightened fasteners too early.	Review the assembly instructions carefully. Ensure parts are oriented correctly. Loosen previously tightened fasteners to allow for adjustment, then re-tighten once aligned. If holes are genuinely misaligned, contact support.
Bed feels unstable or wobbly after assembly.	Loose fasteners; uneven floor surface.	Check and securely tighten all screws and bolts. Ensure the bed is placed on a level surface. Use shims if necessary to stabilize on uneven floors.
LED lights are not turning on.	Power cord not plugged in; loose connection; faulty switch/LED strip.	Ensure the power adapter is securely plugged into a working wall outlet. Check all cable connections to the LED strips and switch. If issues persist, contact customer support.
USB ports or power outlets are not charging devices.	Bed's power cord not plugged in; device cable faulty; port malfunction.	Verify the bed's main power cord is connected to a live outlet. Test with a different device and charging cable. Ensure the device requires the correct voltage/amperage. If still not working, contact support.
A bolt is protruding through a surface (e.g., desk).	Incorrect bolt length used; over-tightening; manufacturing defect.	Immediately cease use of the affected area. Identify the specific bolt and refer to the assembly manual to ensure the correct bolt was used. If it's a manufacturing defect or incorrect part, contact customer support for guidance and potential replacement. Do not attempt to force it further.
