## Klarstein Velaire 90cm

# Klarstein Velaire 90cm Range Hood Instruction Manual

Model: Velaire 90cm White

## 1. IMPORTANT SAFETY INSTRUCTIONS

---

Please read these instructions carefully before installation and use. Keep this manual for future reference.

- Ensure the electrical installation complies with local regulations.
- Do not allow children to operate the appliance.
- Regularly clean the grease filters to prevent fire hazards.
- Do not flambé under the range hood.
- Disconnect the appliance from the power supply before any cleaning or maintenance.
- Ensure adequate ventilation in the room when the range hood is used simultaneously with gas or other fuel-burning appliances.
- The exhaust air must not be discharged into a flue used for exhausting fumes from appliances burning gas or other fuels.

## 2. PRODUCT OVERVIEW

---

The Klarstein Velaire 90cm range hood is designed to efficiently remove cooking odors and steam from your kitchen. It features a modern design with touch controls and energy-efficient LED lighting.

environment.

### 3. SETUP AND INSTALLATION

---

The Klarstein Velaire range hood offers two installation possibilities: extraction mode and recirculation mode.

Image: A diagram illustrating the two installation options for the range hood. On the left, extraction mode shows air being vented outside. On the right, recirculation mode shows air being filtered and returned to the kitchen.

#### 3.1. Extraction Mode

In extraction mode, the included grease filters collect grease, and the air is expelled outside through an external wall duct. This mode requires a connection to an external ventilation system.

#### 3.2. Recirculation Mode

In recirculation mode, activated carbon filters (included) purify the air, which is then returned clean and fresh into the kitchen. This mode is suitable when external venting is not possible.

#### 3.3. Package Contents and Dimensions

Before installation, ensure all components are present and check the dimensions for proper fitting.

## Contenu de l'emballage

1 x hotte aspirante

2 x revêtements d'extraction

1 x ensemble de filtres à charbon actif (2 pièces)

1 x matériel de montage

Mode d'emploi en français

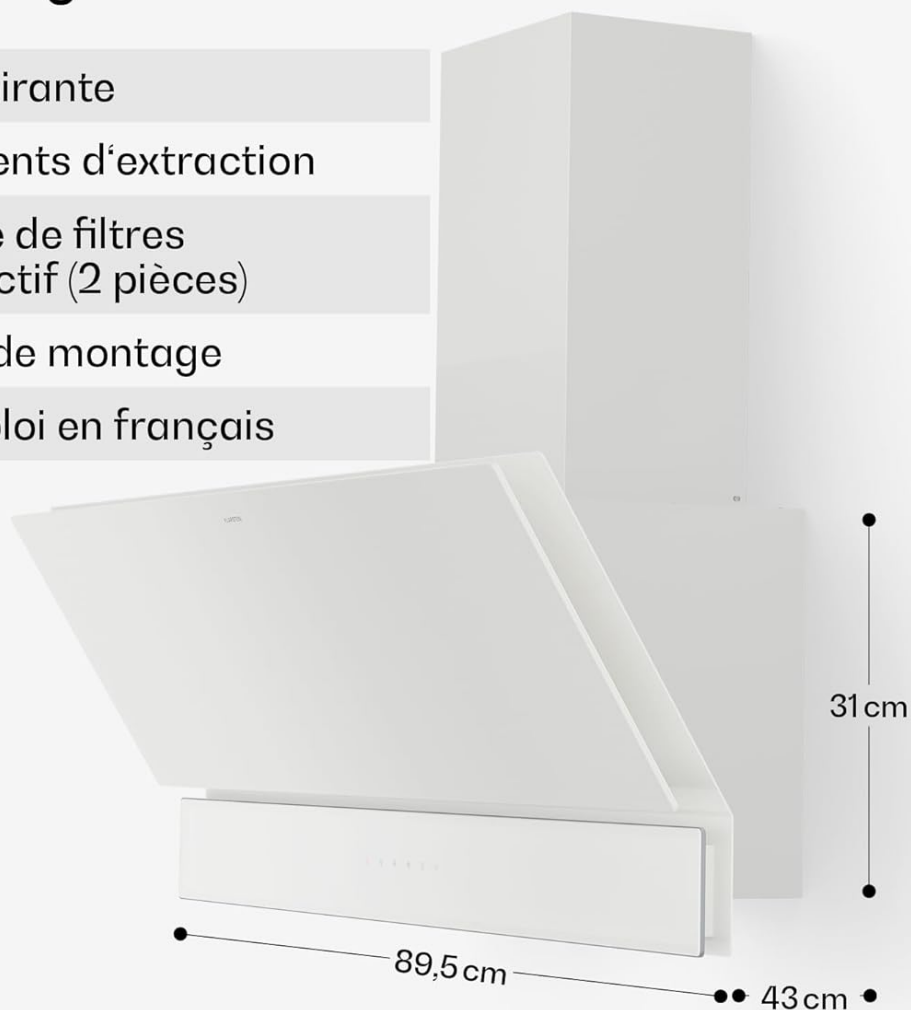

Image: A visual representation of the package contents, including the range hood, extraction covers, active carbon filter set, and mounting material. Key dimensions (89.5 cm width, 43 cm depth, 31 cm height for the main body) are also indicated.

- 1 x Range Hood
- 2 x Extraction Covers
- 1 x Set of Active Carbon Filters (2 pieces)
- 1 x Mounting Material
- Instruction Manual

## 4. OPERATING INSTRUCTIONS

---

The Velaire range hood features intuitive touch controls for easy operation.

Image: A close-up view of the sleek, invisible touch control panel on the range hood, showing various function icons.

## 4.1. Power and Speed Settings

The range hood offers 3 speed levels and a boost mode for intensive extraction. The maximum air flow capacity is 820 m<sup>3</sup>/h in boost mode.

Image: The range hood with a prominent display of "820 m<sup>3</sup>/h", emphasizing its high extraction performance and elegant minimalist design.

## 4.2. LED Lighting

Activate the integrated LED lighting for optimal visibility over your cooking area. The LED lights are energy-efficient.

## 5. MAINTENANCE AND CLEANING

---

Regular maintenance ensures optimal performance and longevity of your range hood.

## 5.1. Cleaning Grease Filters

The aluminum grease filters are dishwasher-safe for easy cleaning. It is recommended to clean them regularly, depending on usage, to maintain effective grease capture.

Image: A hand wiping the glossy white surface of the range hood with a yellow sponge, demonstrating the ease of cleaning.

## 5.2. Replacing Carbon Filters (Recirculation Mode)

If using the recirculation mode, the active carbon filters should be replaced periodically (typically every 3-6 months, depending on usage) to ensure effective odor filtration. Refer to the full manual for specific replacement instructions.

## 5.3. Cleaning Exterior Surfaces

Clean the exterior surfaces with a soft cloth and a mild, non-abrasive detergent. Avoid using harsh chemicals or abrasive materials that could damage the finish.

## 6. TROUBLESHOOTING

---

If you encounter issues with your range hood, refer to the following common troubleshooting steps:

- **No Power:** Check if the appliance is properly plugged in and if the circuit breaker has tripped.
- **Low Suction Power:** Ensure grease filters are clean and not clogged. In recirculation mode, check if carbon filters need replacement. Verify that the exhaust duct (if applicable) is not obstructed.
- **Excessive Noise:** Check for loose parts or improper installation. Ensure the fan blades are clean and free from obstructions.
- **Lights Not Working:** Check if the LED lights are properly connected. If individual LEDs are replaceable, consult a qualified technician.
- **Odors Not Removed:** In recirculation mode, replace the active carbon filters. In extraction mode, ensure the external ducting is clear and properly sealed.

If the problem persists after performing these checks, please contact customer support.

## 7. SPECIFICATIONS

---

Feature	Specification
Brand	KLARSTEIN
Model	Velaire 90cm White
Dimensions (D x W x H)	42.7 cm x 89.5 cm x 42.7 cm

Color	White
Air Flow Capacity	Up to 820 m³/h (Boost mode)
Energy Efficiency Class	A++
Noise Level	67.1 Decibels
Control Type	Touch Controls
Number of Speeds	3 + Boost
Lighting Type	LED
Filter Type	Aluminum Mesh (Grease), Active Carbon (Odor)
Mounting Type	Wall Mount
Weight	16 Kilograms

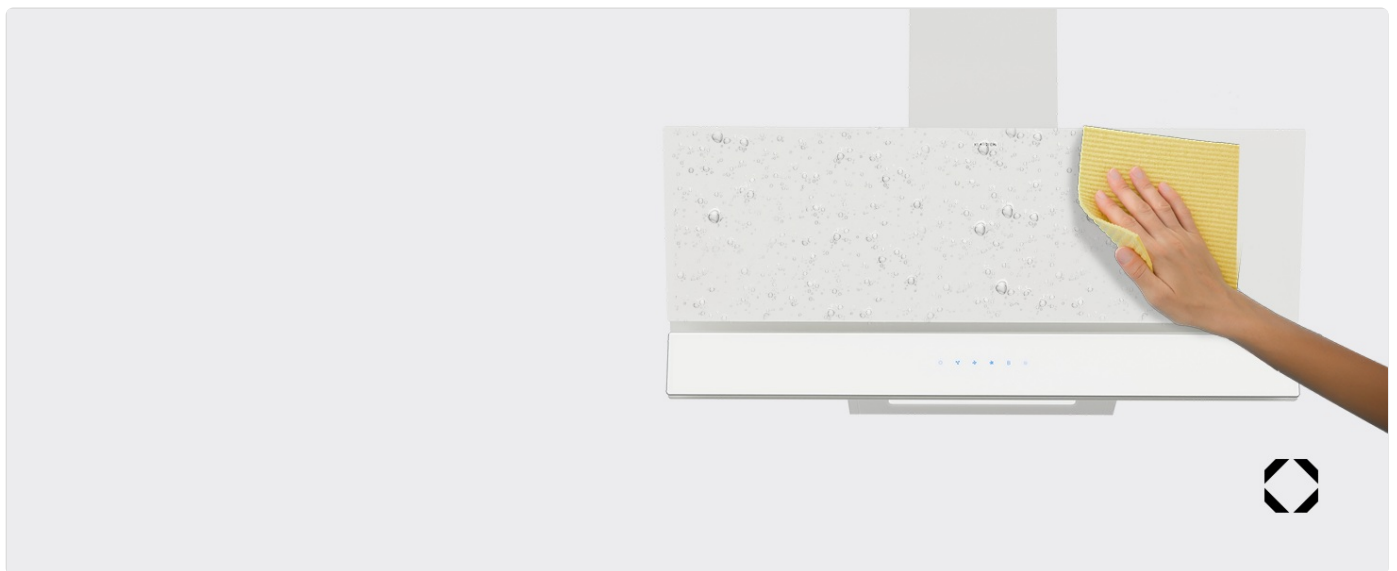

Image: The range hood with a prominent "A++" rating, indicating its high energy efficiency.

## 8. WARRANTY AND SUPPORT

---

For warranty information and customer support, please refer to the warranty card included with your product or visit the official Klarstein website. You can also contact the seller directly for assistance.

Keep your purchase receipt as proof of purchase for any warranty claims.
