INPHIC A9 Explorer

INPHIC A9 Explorer Bluetooth Mouse Instruction Manual

Model: A9 Explorer

1. PRODUCT OVERVIEW

The INPHIC A9 Explorer is a versatile dual-mode wireless mouse designed for comfort and efficiency. It features Bluetooth 5.0 and 2.4G wireless connectivity, adjustable DPI settings, a visible battery indicator, and customizable RGB lighting. Its ergonomic design ensures comfortable use during extended periods.

DUAL CONNECTION

2.4G

Bluetooth 5.0

2. PACKAGE CONTENTS

Please check the package for the following items:

- INPHIC A9 Explorer Bluetooth Mouse
- USB 2.4G Receiver (stored in the mouse)
- USB-C Charging Cable
- User Manual

3. SETUP INSTRUCTIONS

3.1 Initial Charging

Before first use, charge the mouse for approximately 5 hours. Connect the provided USB-C cable to the mouse's charging port and a USB power source (e.g., computer USB port, wall adapter).

Figure 2: Connecting the USB-C charging cable to the mouse.

3.2 2.4G Wireless Connection

1. Locate the USB receiver stored in the bottom compartment of the mouse.
2. Plug the USB receiver into an available USB port on your computer.
3. Turn on the mouse using the ON/OFF switch located on the bottom.
4. The mouse should automatically connect to your device.

Figure 3: Dual connection options, showing 2.4G and Bluetooth 5.0.

3.3 Bluetooth 5.0 Connection

1. Turn on the mouse using the ON/OFF switch on the bottom.
2. Press the mode button on the bottom of the mouse to switch to Bluetooth mode (indicated by a blue light).
3. On your computer or device, go to Bluetooth settings and search for new devices.
4. Select "INPHIC A9" from the list of available devices to pair.

3.4 Wired Connection

For a wired connection or to charge while using, simply connect the USB-C charging cable to the mouse and your computer's USB port. The mouse will function as a wired device.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

Use the ON/OFF switch located on the bottom of the mouse to power it on or off. The mouse will automatically enter sleep mode after a period of inactivity to conserve battery life.

4.2 DPI Adjustment

Press the DPI button (usually located near the scroll wheel) to cycle through the available DPI settings: 800, 1200, 1600, 2000, and 2400 DPI. This allows you to adjust cursor sensitivity to match your preference.

Figure 4: Visual representation of 2400 DPI adjustable settings.

4.3 RGB Lighting Control

The mouse features customizable RGB lighting. Use the dedicated RGB light switch (often on the bottom or side) to change lighting modes or turn the lights off.

4.5 Forward/Backward Buttons

Utilize the conveniently placed side buttons for quick navigation, such as moving forward or backward in web browsers or file explorers.

4.6 Quiet Click Design

The INPHIC A9 Explorer features quiet click buttons, reducing noise for a more focused and peaceful working environment.

5. MAINTENANCE

To ensure the longevity and optimal performance of your INPHIC A9 Explorer mouse, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the mouse regularly. Avoid using harsh chemicals or abrasive materials.
- **Battery Care:** Recharge the mouse when the battery indicator shows low power. Avoid completely draining the battery frequently to prolong its lifespan.
- **Storage:** Store the mouse in a cool, dry place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

If you encounter any issues with your INPHIC A9 Explorer mouse, please refer to the following common solutions:

- **Mouse not responding:** Ensure the mouse is powered on and fully charged. For 2.4G mode, check if the USB receiver is securely plugged into your computer. For Bluetooth mode, ensure it's paired correctly and within range.
- **Lag or erratic movement:** Try moving the mouse closer to the receiver/device. Ensure there are no obstructions or strong interference sources (e.g., other wireless devices) nearby.
- **Charging issues:** Verify the USB-C cable is not damaged and is properly connected to both the mouse and the power source. Try a different USB port or charger.
- **DPI not changing:** Press the DPI button firmly. If the issue persists, try restarting the mouse.

If these steps do not resolve the issue, please contact INPHIC customer support for further assistance.

7. SPECIFICATIONS
