Topzee GLJP-1103

TOPZEE GLJP-1103 Electric Blanket User Manual

Model: GLJP-1103

1. PRODUCT OVERVIEW

The TOPZEE GLJP-1103 Electric Blanket is designed to provide warmth and comfort. This versatile blanket measures 188x130cm and can be used as both a throw and an underblanket. It features a soft, double-sided flannel material for a pleasant skin feel. The blanket offers 10 adjustable temperature levels and a programmable timer for personalized comfort and safety.

2. PACKAGE CONTENTS

Upon opening the package, please ensure all the following items are present:

- TOPZEE GLJP-1103 Electric Blanket (188x130cm) x 1
- Controller x 1
- Instruction Manual (including Warranty Information) x 1

3. SETUP INSTRUCTIONS

Follow these steps to set up your electric blanket:

1. **Unpack:** Carefully remove the electric blanket and its accessories from the packaging.
2. **Inspect:** Check the blanket and controller for any signs of damage. Do not use if damaged.
3. **Connect Controller:** Locate the connector on the blanket and the corresponding plug on the controller. Ensure a firm and secure connection.
4. **Position Blanket:** Lay the blanket flat on your bed or sofa. Ensure it is not folded or bunched up, as this can lead to overheating in specific areas.
5. **Plug In:** Insert the power plug of the controller into a standard electrical outlet.

4. OPERATING INSTRUCTIONS

Your TOPZEE electric blanket features simple controls for temperature and timer settings.

4.1. Power On/Off

- Press the power button on the controller to turn the blanket on or off.

4.2. Temperature Adjustment

The blanket offers 10 temperature levels, ranging from approximately 30°C to 48°C ($\pm 5^{\circ}\text{C}$). Adjust the temperature to your preference using the '+' and '-' buttons on the controller.

- Press the '+' button to increase the temperature level.
- Press the '-' button to decrease the temperature level.
- The current temperature level will be displayed on the controller's screen.

4.3. Timer Function

The integrated timer allows you to set the operating duration from 1 to 9 hours. After the set time, the blanket will automatically power off.

- Press the timer button to cycle through the available timer settings (1H to 9H).
- The selected timer duration will be displayed.
- If no timer is set, the blanket will automatically power off after 3 hours as a default safety measure.

5. SAFETY INFORMATION

Your safety is paramount. This electric blanket incorporates several safety features:

- **Overheat Protection:** Equipped with PTC passive temperature control, overpressure protection, and flame retardant protection to prevent overheating and ensure uniform heating.
- **Automatic Power-Off:** The blanket automatically turns off after the set timer duration or after 3 hours if no timer is selected, reducing the risk of accidental prolonged use.
- **Anti-Static Measures:** Enhanced anti-static treatment minimizes static electricity for a more comfortable experience.
- **PSE Certified:** This product is PSE certified, meeting Japanese safety standards for electrical appliances.

6. MAINTENANCE

Proper care ensures the longevity and hygiene of your electric blanket.

6.1. Washing Instructions

The electric blanket is fully washable, allowing for easy cleaning.

1. **Disconnect Controller:** Before washing, always disconnect the controller from the blanket.
2. **Machine Washable:** The blanket can be machine washed. Use a gentle cycle with cold water (below 30°C).
3. **Drying:** Air dry the blanket completely before reconnecting the controller and using it again. Do not tumble dry or iron.

Image 6.1: The electric blanket is machine washable for easy cleaning.

6.2. Mite Repellent and Deodorizing

The blanket features antibacterial and deodorizing processing. For enhanced mite repellent action, operate the blanket at a high-temperature setting periodically.

7. TROUBLESHOOTING

If you encounter any issues with your electric blanket, please refer to the following common solutions:

Problem	Possible Cause	Solution
Blanket does not heat up.	Not plugged in, controller not connected properly, power button not pressed.	Ensure power plug is securely in outlet. Check controller connection. Press power button.
Blanket heats unevenly.	Blanket is folded or bunched.	Lay the blanket flat and ensure no folds or bunches.
Controller display is off.	Power off, loose connection, power outage.	Check power supply. Reconnect controller. Press power button.

If the problem persists after trying these solutions, please contact customer support.
