## WEUP B0FNVVJLNS

# WEUP 42.5" Sleeper Chair Bed Instruction Manual

Model: B0FNVVJLNS | Brand: WEUP

### Important Safety Instructions

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Ensure all components are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Assemble the chair on a soft, clean surface to prevent scratches.
- Do not overtighten screws during assembly.
- The maximum weight capacity for this sleeper chair is 500 lbs (227 kg). Do not exceed this limit.
- Keep hands and fingers clear of moving parts during conversion to prevent injury.
- Do not allow children to play on or around the sleeper chair unsupervised.
- Place the chair on a level surface to ensure stability.

### Package Contents

Verify that all the following components are included in your package:

- Main Chair Frame with Pull-Out Mechanism
- Backrest Cushion
- Armrests (Left and Right)
- Foldable Side Table (integrated into one armrest)
- USB & Type-C Charging Module (integrated into one armrest)
- Cup Holder (integrated into one armrest)
- Assembly Hardware (bolts, washers, Allen wrench - if applicable, though described as tool-free)

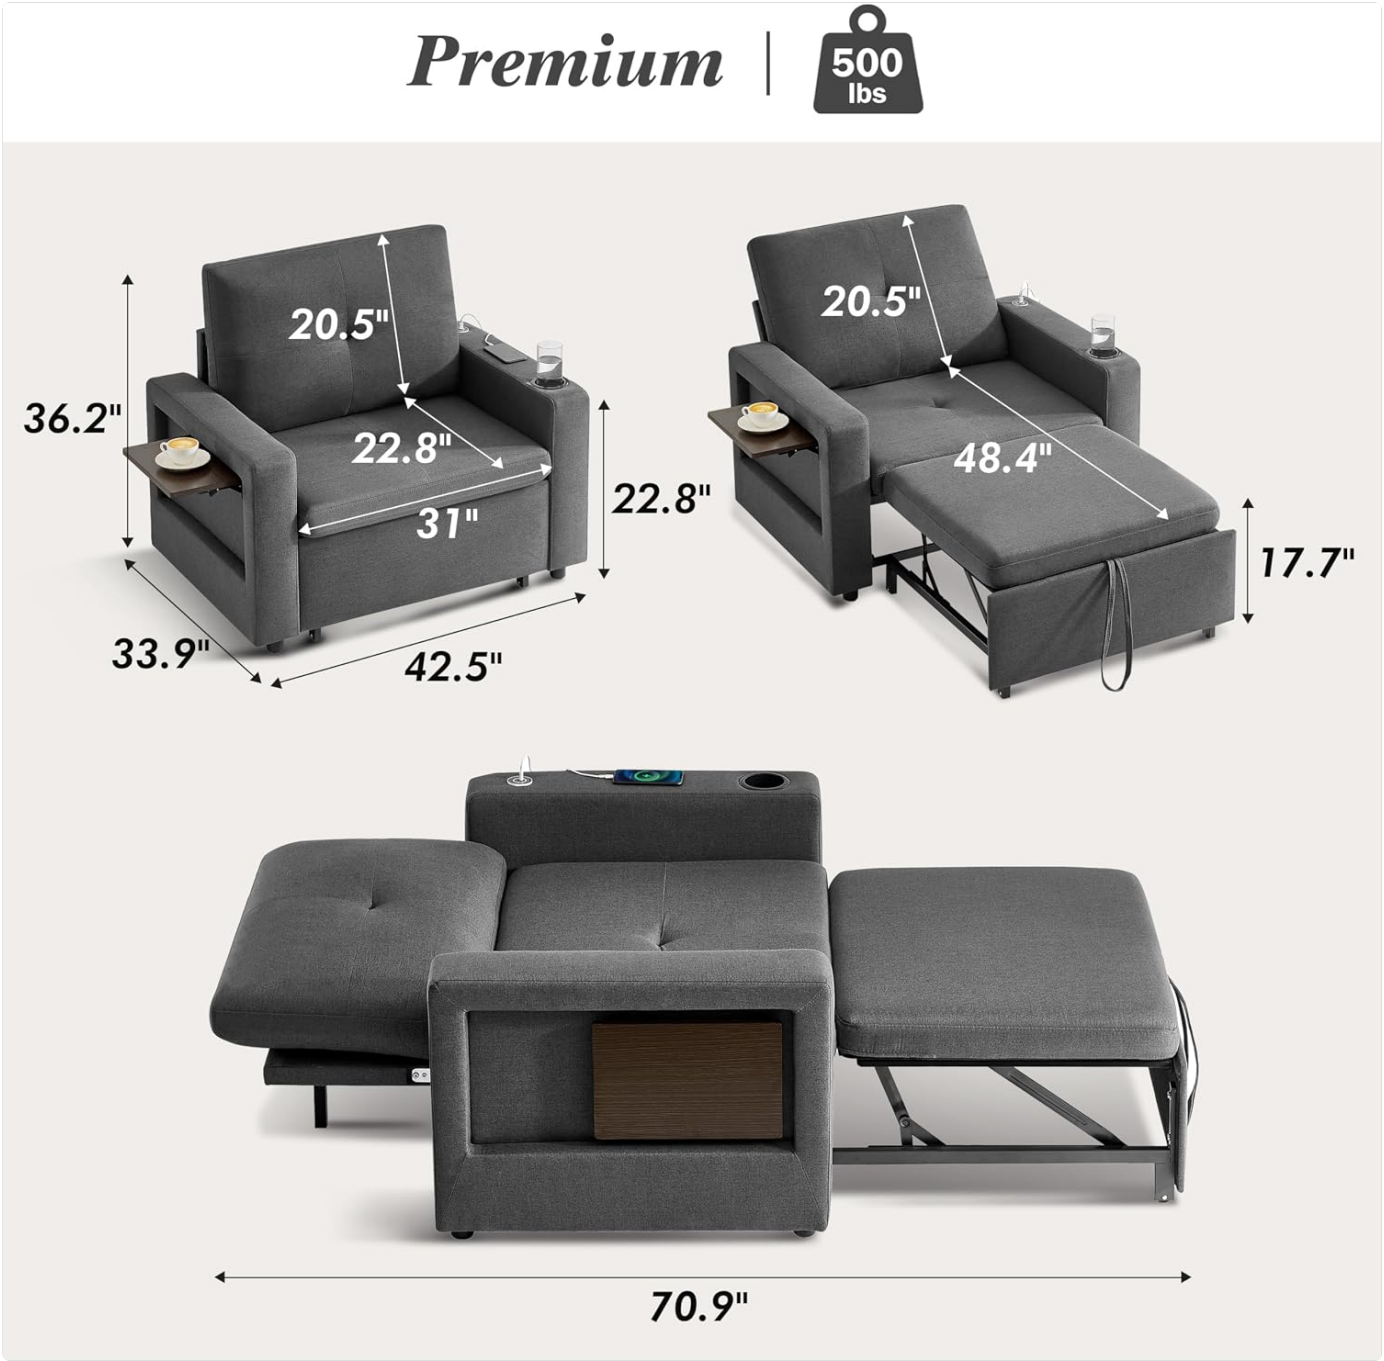

Figure 1: Overview of components and dimensions. The image displays the chair in two configurations, highlighting its width of 42.5 inches, height of 36.2 inches, and depth of 33.9 inches. The chaise lounge configuration extends to 48.4 inches in depth with a seat height of 17.7 inches. A weight capacity of 500 lbs is also indicated.

## Setup and Assembly

This sleeper chair is designed for tool-free assembly. Follow these steps to set up your chair:

1. Unpack all components from the packaging and place them on a clean, flat surface.
2. Identify the main chair frame, backrest, and two armrests.
3. Attach the backrest to the main chair frame. Ensure the connection points align and secure firmly.
4. Slide the armrests onto the sides of the main chair frame. Ensure they click into place or are secured according to the design. The armrest with the foldable table and the armrest with the USB/cup holder are distinct.

5. Confirm all connections are secure before use.

Figure 2: The foldable wing table, shown unfolded with a cup and saucer, and folded flush with the armrest. This feature is integrated into one of the armrests during assembly.

## Operating Instructions

### Transforming the Chair (3-in-1 Functionality)

The WEUP Sleeper Chair Bed can be easily converted between an accent chair, a chaise lounge, and a sofa bed.

- **Accent Chair:** In its default upright position, the unit functions as a comfortable accent chair.
- **Chaise Lounge:** To convert to a chaise lounge, gently pull the hidden footrest mechanism from beneath the seat. The footrest will extend forward, providing leg support.

- **Sofa Bed:** To convert to a sofa bed, first extend the footrest to the chaise lounge position. Then, fully recline the backrest to a flat, horizontal position. The pull-out bed mechanism will fully extend to create a sleeping surface.

Figure 3: The 3-in-1 functionality of the sleeper chair, showing its transformation from an upright accent chair to a chaise lounge with an extended footrest, and finally to a flat sofa bed.

Figure 4: A user demonstrating the simple pull-out action to extend the bed, with arrows showing the forward movement of the mechanism.

## Adjusting the Backrest

The backrest offers 5 adjustable reclining levels to suit various activities:

- To adjust, gently push the backrest forward slightly, then recline it to your desired angle.
- The available angles are approximately 100° (chatting), 120°, 140° (lounging), 160°, and 180° (sleeping).
- Ensure the backrest locks securely into place at each chosen angle.

Figure 5: The adjustable backrest, illustrating five distinct positions from 100° (upright for chatting) to 180° (flat for sleeping), with intermediate lounging angles.

## Using Integrated Features

- **Foldable Side Table:** Located on one armrest, this table can be unfolded for use as a surface for drinks or small items. When not in use, it folds neatly back into the armrest.
- **USB & Type-C Charging Ports:** Integrated into the other armrest, these ports allow you to charge your electronic devices conveniently. Connect your device's charging cable to the appropriate port.
- **Cup Holder:** A recessed cup holder is also located on the armrest with the charging ports, designed to securely hold beverages.
- **Side Pockets:** Two side pockets are provided on the exterior of the armrests for storing magazines, remote controls, or other small items.

Figure 6: Detailed views of the integrated features: the pull-out bed mechanism, USB and Type-C charging ports, convenient side pockets, and the built-in cup holder.

## Maintenance and Care

Proper care will extend the life and appearance of your sleeper chair.

- **Cleaning Fabric:** For general cleaning, vacuum the fabric regularly using a soft brush attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner according to its instructions, testing on an inconspicuous area first.
- **Cleaning Frame:** Wipe the metal frame and wooden elements (like the side table) with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **General Care:** Avoid placing the chair in direct sunlight for prolonged periods to prevent fading. Keep sharp objects

away from the fabric to prevent tears. Periodically check all bolts and connections to ensure they remain tight.

## Troubleshooting

If you encounter any issues, refer to the following common problems and solutions:

- **Difficulty Converting:** Ensure no obstructions are blocking the pull-out mechanism or backrest. Apply gentle, even pressure when converting. Check if any parts are misaligned.
- **Wobbly Chair:** Verify that all assembly connections are securely tightened. Ensure the chair is placed on a flat, even surface.
- **USB Ports Not Charging:** Confirm the chair is properly connected to a power source (if applicable, though typically USB ports on furniture are passive and require an external power brick or connection to a wall outlet). Ensure your device's charging cable is functional.
- **Backrest Not Locking:** Ensure the backrest is fully engaged at one of the 5 adjustment levels. Push it slightly forward and then recline to reset the locking mechanism.

## Specifications

| | |
|---|---|
| **Brand** | WEUP |
| **Model** | B0FNVVJLNS |
| **Color** | Dark Gray |
| **Product Dimensions (Chair)** | 33.9"D x 42.5"W x 36.2"H |
