MAHOMICO Drafting Chair Tall Office Chair User Manual

Model: 768274333469

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your MAHOMICO Drafting Chair Tall Office Chair. Designed for comfort and adaptability, this ergonomic chair is suitable for various workspaces, including standing desks.

2. SETUP AND ASSEMBLY

Assembly of your MAHOMICO Drafting Chair is designed to be straightforward, typically taking approximately 20 minutes. Please ensure all components are present before beginning.

2.1 Unpacking and Component Check

Carefully unpack all parts from the box. The armrests and the five-star base are conveniently stored inside the backrest of the chair. Unzip the backrest to access these components.

Wheels & Armrests Inside—Unzip to Access!

2.2 Assembly Steps

1. Attach the chair mechanism to the underside of the seat cushion using the provided screws and Allen wrench. Ensure the front of the mechanism aligns with the front of the seat.
2. Insert the gas lift cylinder into the center hole of the five-star base.
3. Place the foot ring over the gas lift cylinder and secure it at your desired height using the adjustment knob.
4. Carefully place the assembled seat onto the gas lift cylinder.
5. Attach the backrest to the seat mechanism using the remaining screws.
6. Install the flip-up armrests to the sides of the seat, ensuring they are securely fastened.

2.3 Assembly Video

For a visual guide on the assembly process and chair features, please refer to the official product video below:

3. OPERATING INSTRUCTIONS

Your MAHOMICO Drafting Chair offers several adjustable features to customize your seating experience for optimal comfort and ergonomic support.

3.1 Seat Height Adjustment

To adjust the seat height, locate the lever on the right side beneath the seat. While seated, pull the lever up to lower the seat. To raise the seat, stand up slightly and pull the lever up. Release the lever at your desired height.

3.2 Foot Ring Adjustment

The foot ring can be adjusted vertically to provide comfortable foot support at various seat heights. Loosen the knob on the foot ring's support column, slide the foot ring to the desired position, and then tighten the knob securely.

Flexible Adjustment for Ergonomic Comfort

5" Adjustable foot ring height

20" Lumbar Support

8" Seat height adjustment

90° Flip UP Armrests

3.3 Flip-Up Armrests

The armrests can be flipped up to allow the chair to be pushed closer to your desk or to provide more space when not needed. Simply lift the armrests upwards until they lock into the vertical position. To lower them, pull them down.

Adjustable Seat Height Conforms to Both Standard and Elevated Work Surfaces

FLIP UP ARMRESTS

Easily Adjust Between Conventional & Space-Saving Modes

LUMBAR SUPPORT

Designed for All Day Comfort for All Body Types

Image 3.3: Adjustable features including flip-up armrests.

3.4 Lumbar Support

The chair features integrated lumbar support designed to promote proper posture and reduce strain during extended use. This support is built into the backrest for consistent ergonomic comfort.

Contoured Cushion For Ergonomic Design

4. MAINTENANCE

Proper care and maintenance will extend the life and performance of your MAHOMICO Drafting Chair.

4.1 Cleaning

- **Fabric Surfaces:** Wipe clean with a damp cloth. For tougher stains, use a mild fabric cleaner and follow the product instructions. Test on an inconspicuous area first.
- **Metal Components:** Wipe with a soft, dry cloth. Avoid abrasive cleaners that may damage the finish.

4.2 General Care

- Regularly check all screws and bolts to ensure they are tight. Retighten as necessary to maintain stability.
- Keep the chair away from direct sunlight and heat sources to prevent fading or material degradation.
- Periodically clean the casters (wheels) to remove dust and debris, ensuring smooth movement.

5. TROUBLESHOOTING

If you encounter any issues with your chair, please refer to the following common troubleshooting tips:

- **Chair Squeaks:** Check all connection points, especially where the seat and backrest attach to the mechanism, and where the gas lift meets the base. Tighten any loose screws. A small amount of silicone lubricant can be applied to moving metal parts if the squeaking persists.
- **Chair Does Not Adjust Height:** Ensure the height adjustment lever is fully engaged. If the gas lift cylinder is not functioning, it may require replacement.
- **Chair Feels Unstable:** Verify that all casters are securely inserted into the five-star base and that all bolts are tightened. Ensure the chair is on a flat, even surface.
- **Casters Not Rolling Smoothly:** Remove any hair or debris wrapped around the caster wheels. Clean the wheels and their axles.

If these steps do not resolve the issue, please contact customer support for further assistance.

6. SPECIFICATIONS
