

Provirtec AP-12-RF01

Provirtec AP-12 Air Purifier Replacement Filter (AP-12-RF01)
User Manual

Model: AP-12-RF01

1. INTRODUCTION

This manual provides instructions for the proper installation, maintenance, and understanding of the Provirtec AP-12 Air Purifier Replacement Filter (Model AP-12-RF01). This filter is specifically designed for use with the Provirtec AP-12 Air Purifier and is not compatible with other brands or models. Adhering to these instructions will ensure optimal performance and longevity of your air purification system.

2. WHAT'S INCLUDED

The package for the Provirtec AP-12 Air Purifier Replacement Filter (AP-12-RF01) typically includes the following components:

- AP-12-RF01 Filter x1
- Washable Pre-Filters x2 (one for use, one as replacement)
- User Manual x1

3. FILTER SYSTEM OVERVIEW

The Provirtec AP-12 Replacement Filter features a comprehensive 5-stage filtration system designed to capture various airborne particles and odors, providing cleaner air in pet-owning households.

5-Stage Filtration Process:

- 1. **Pre-Filter:** Captures large particles such as lint, fibers, and pet hair. This layer is washable for extended use.
- 2. **Nylon Pre-Filter:** Further traps cotton fluff and pet dander.
- 3. **H13 HEPA Filter:** Filters 99.97% of particles as small as 0.3 microns, including smoke, fine dust, and pollen.
- 4. **Activated Carbon Filter:** Deeply absorbs pet and general household odors.
- 5. **Odor-Reducing Filter:** Provides thorough purification by targeting unpleasant smells.

4. INSTALLATION (FILTER REPLACEMENT)

To maintain optimal air purification, replace the filter according to the recommended schedule or when indicated by your air purifier. The Provirtec AP-12 filter is designed for easy replacement.

Steps for Filter Replacement:

1. Ensure the Provirtec AP-12 Air Purifier is turned off and unplugged from the power outlet.
2. Locate the filter compartment on your air purifier. Refer to your air purifier's main user manual for specific instructions on opening the compartment.
3. Grasp the quick-release handle on the existing filter and gently pull it out of the air purifier.
4. Dispose of the old filter responsibly.
5. Unpack the new AP-12-RF01 replacement filter.
6. Insert the new filter into the compartment, ensuring it is seated correctly. The quick-release handle should be facing outwards for easy removal next time.
7. Close the filter compartment door securely.
8. Plug in and turn on your air purifier. Reset the filter life indicator if your model has this feature.

5. MAINTENANCE

Regular maintenance of your replacement filter, particularly the washable pre-filter, is crucial for extending its lifespan and maintaining air purifier efficiency.

Washable Pre-Filter Care:

- The pre-filter is designed to capture pet hair and large airborne particles. It can be washed to prolong its effectiveness.
- Remove the pre-filter from the main filter unit.
- Rinse the pre-filter under cool, running water until clean. Avoid using harsh detergents or abrasive materials.
- Allow the pre-filter to air dry completely before reinserting it into the main filter unit. Ensure it is fully dry to prevent mold or mildew growth.
- The package includes two pre-filters, allowing you to use one while the other is drying or as a direct replacement. Each pre-filter is designed to last up to 6 months.

Main Filter Replacement Schedule:

The 4-in-1 pet-exclusive filter system (including H13 HEPA and activated carbon layers) has a lifespan of up to 12 months, depending on usage and air quality. Replace the entire filter unit when the air purifier's indicator light signals or when you notice a decrease in air quality or increased odors.

6. FILTER PERFORMANCE

The Provirtec AP-12 Replacement Filter is engineered to effectively address common air quality concerns, especially in homes with pets.

Pet Hair and Particle Capture:

The innovative pre-filter and nylon pre-filter layers work together to firmly capture pet hair, fluff, dander, and other large airborne particles, preventing them from clogging the deeper filtration layers.

Odor Reduction:

The enhanced activated carbon and odor adsorption filter layers are specifically designed to trap and degrade odors from pet saliva, waste, damp environments, and general household smells, reducing up to 99.23% of pet-related odors.

7. TROUBLESHOOTING

If you experience issues with air quality after installing a new filter, consider the following:

- Reduced Airflow:** Ensure the filter is installed correctly and the compartment door is fully closed. Check if the washable

pre-filter needs cleaning.

- **Persistent Odors:** Verify that the filter is seated properly. If odors persist, the filter may be saturated and require replacement, or the source of the odor may be outside the air purifier's effective range.
- **Filter Life Indicator:** If the filter replacement indicator remains on after installing a new filter, consult your air purifier's main user manual for instructions on how to reset the filter life counter.
- **General Performance Issues:** For issues not directly related to the filter, refer to the user manual of your Provirtec AP-12 Air Purifier.

8. SPECIFICATIONS

Brand	Provirtec
Model Number	AP-12-RF01
Compatible Devices	Provirtec AP-12 Air Purifier (Not suitable for any other brand and model of air purifier)
Material	Plastic
Product Dimensions (L x W x Th)	7.28"L x 7.28"W x 9.57"Th
Item Weight	0.27 Pounds
Number of Items	1 (Filter unit, includes 2 pre-filters)
Common Applications	Allergen Reduction, Odor Reduction, Pet Hair Reduction

9. WARRANTY INFORMATION

The Provirtec AP-12 Air Purifier Replacement Filter (AP-12-RF01) comes with a **1-Year Limited Warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use. It does not cover damage resulting from misuse, accident, modification, or unauthorized repair. Please retain your proof of purchase for warranty claims.
