## SETUP AND ASSEMBLY

---

The RoyalCraft ZBBD003 bed frame is designed for quick and straightforward assembly. All necessary tools and instructions are included. Assembly typically takes approximately 30 minutes with two people.

### Before You Begin:

- Verify all components are present according to the parts list.
- Clear an adequate workspace.
- Keep children and pets away from the assembly area.

### Assembly Steps:

1. Unpack all components and lay them out on a soft, clean surface to prevent scratches.

2. Follow the step-by-step instructions provided in the included assembly guide.
3. Ensure all bolts and screws are securely tightened, but do not overtighten.
4. Confirm the frame is stable and level before placing a mattress on it.

## MAINTENANCE

---

Proper care and maintenance will extend the lifespan of your RoyalCraft ZBBD003 bed frame.

### Cleaning Instructions:

- For the metal frame, wipe clean with a damp cloth. Avoid abrasive cleaners that may damage the finish.
- For the upholstered headboard, spot clean with a mild fabric cleaner as needed. Test on an inconspicuous area first. The fabric is designed to be easy to care for.
- Regularly dust the wooden headboard shelf with a soft, dry cloth.

### Periodic Checks:

- Periodically check all bolts and connections to ensure they remain tight. Retighten if necessary.
- Inspect the support legs and slats for any signs of wear or damage.

### TROUBLESHOOTING

This section addresses common issues you might encounter with your bed frame.

#### Noise or Squeaking:

- **Cause:** Loose connections or friction between metal parts. The frame is designed with EVA silent strips to minimize noise.
- **Solution:** Carefully inspect all bolts and screws. Tighten any loose connections. Ensure the EVA silent strips are properly positioned between the slats and the frame.

## Instability or Wobbling:

- **Cause:** Uneven floor surface or loose assembly.
- **Solution:** Verify that the bed frame is on a level surface. Check all assembly points and tighten any loose bolts. The frame is reinforced with 13 steel slats and 9 support legs for stability.

## Mattress Sliding:

- **Cause:** Mattress not properly seated or embedded design not fully utilized.
- **Solution:** Ensure the mattress is correctly placed within the embedded frame design.
