### Key Features:

- **Sleek and Compact Design:** Blends seamlessly into any home or office environment.
- **Flexible Installation:** Can be placed on a desk or mounted on a wall.
- **Clear Call Quality:** Ensures uninterrupted and clear conversations.
- **Adjustable Ringer Volume:** Customize the ringer sound level.
- **Redial Function:** Quickly redial the last number called.
- **Flash Function:** Used for call waiting or transferring calls (requires network service).
- **Tone/Pulse Dialing:** Compatible with various telephone line systems.

## 4. SETUP INSTRUCTIONS

---

Follow these steps to set up your Beetel B29 phone:

1. **Connect the Handset:** Plug one end of the coiled handset cord into the handset and the other end into the designated jack on the side of the phone base.
2. **Connect the Line Cord:** Plug one end of the line cord into the phone line jack on the back of the phone base. Plug the other end into your wall telephone jack.
3. **Placement:**
  - **Desk Placement:** Place the phone on a flat, stable surface.
  - **Wall Mounting:** The phone is designed with keyholes on the back for wall mounting. Secure two screws (not included) into the wall, spaced appropriately for the keyholes, and hang the phone. Ensure the handset cradle is reversed for secure wall mounting.

## A Landline That Complements Your Space.

Sleek, slim, and modern design crafted to blend seamlessly into any home or office décor.

Image: Two views of the Beetel B29 phone, one on a desk and another wall-mounted, demonstrating its versatile installation options.

After connecting, lift the handset and listen for a dial tone to confirm proper installation.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Making a Call

1. Lift the handset.
2. Listen for a dial tone.
3. Dial the desired telephone number.

### 5.2 Receiving a Call

1. When the phone rings, lift the handset.
2. Begin your conversation.
3. To end the call, place the handset back on the phone base.

### 5.3 Redial Function

To redial the last number called:

1. Lift the handset.
2. Press the **REDIAL** button. The phone will automatically dial the last number.

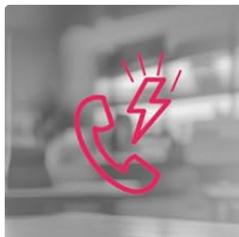

Image: A red icon depicting a telephone with two circular arrows, symbolizing the Redial function.

## 5.4 Flash Function

The Flash function is used to switch between calls if you have call waiting service, or for transferring calls in a PBX system.

1. During a call, press the **FLASH** button.
2. This will put the current call on hold and allow you to answer an incoming call or initiate a transfer.

Image: A red icon depicting a telephone with a lightning bolt, symbolizing the Flash function.

## 5.5 Mute Function

To temporarily mute your microphone during a call:

1. During a call, press the **MUTE** button. The other party will not hear you.
2. Press the **MUTE** button again to unmute your microphone.

Image: A red icon depicting a microphone with a diagonal line through it, symbolizing the Mute function.

## 5.6 Ringer Volume Control

The Beetel B29 features an adjustable ringer volume control. Locate the switch on the phone base (usually on the side or bottom) and slide it to your preferred volume level (e.g., High, Low, Off).

## 5.7 Tone/Pulse Dialing

The phone supports both Tone (DTMF) and Pulse dialing modes. This ensures compatibility with various telephone exchange systems. The mode can typically be selected via a switch on the phone base. Consult your telephone service provider if you are unsure which mode to use.

## 6. MAINTENANCE

---

To ensure the longevity and optimal performance of your Beetel B29 phone:

- **Cleaning:** Wipe the phone with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Avoid Liquids:** Keep the phone away from water and other liquids.
- **Temperature:** Avoid exposing the phone to extreme temperatures or direct sunlight.
- **Cords:** Ensure all cords are free from kinks or damage.

## 7. TROUBLESHOOTING

---

If you encounter issues with your Beetel B29 phone, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No dial tone	Line cord not connected properly; service outage.	Check all cable connections. Ensure the line cord is securely plugged into the phone and the wall jack. Test with another phone if available. Contact your service provider.
Cannot make or receive calls	No dial tone; incorrect dialing mode (Tone/Pulse).	Verify dial tone. Check the Tone/Pulse switch setting on the phone base to match your service provider's requirements.
Poor call quality (static, unclear)	Loose connections; faulty line cord; interference.	Ensure all cords are firmly connected. Try replacing the line cord. Keep the phone away from other electronic devices that might cause interference.
Ringer does not sound	Ringer volume set to 'Off' or 'Low'.	Check the ringer volume control switch and adjust it to a higher setting.
