SETUP AND ASSEMBLY

Assembly of the Novilla King Size Bed Frame typically takes approximately 30 minutes with two people. All necessary tools are provided.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Attach Legs:** Fix the support legs to the bed frame components using the provided screws. Ensure they are tightened securely with the included Allen wrench.
3. **Assemble Frame:** Connect the headboard, side rails, and footboard according to the visual instructions in the included manual. Ensure all connections are firm.

MAINTENANCE

Upholstery Care

The velvet upholstery can be maintained by regular light vacuuming with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the fabric.

Frame Care

Wipe the wooden and metal components with a soft, damp cloth. Ensure all connections remain tight by periodically checking and re-tightening screws if necessary.

Under-Bed Cleaning

The bed frame offers a 6.3-inch low-profile storage space, allowing for easy cleaning underneath, including access for robot vacuums.

TROUBLESHOOTING

- **Bed Frame is Wobbly:** Ensure all screws and bolts are fully tightened. Check that all legs are making firm contact with the floor. Uneven flooring may require shims under the legs.
- **Squeaking Noises:** The bed frame is engineered with Velcro-secured slats and reinforced screws to minimize noise. If squeaking occurs, re-check all slat connections and frame bolts for tightness. Ensure the mattress is properly seated on the slats.
- **Missing or Defective Parts:** If you find any accessories missing or defective during assembly, do not attempt to force parts or use substitutes. Refer to the contact information on the cover of your original installation instructions or contact Novilla customer support for replacement parts.
- **Headboard Appears Different:** Please note that different bed frame batches may have variations in headboard design. This is a normal manufacturing variation and does not affect the functionality or quality of the product.
