INTRODUCTION

Thank you for purchasing the VINGLI Fluted Makeup Vanity Desk. This modern vanity set is designed to enhance your daily routine with its integrated mirror, adjustable lighting, and convenient power outlets. This manual provides detailed instructions for assembly, operation, and maintenance to ensure safe and optimal use of your new vanity desk.

IMPORTANT SAFETY INFORMATION

- Always unplug the vanity before assembly, disassembly, or cleaning.
- Be cautious of sharp edges and heavy components during assembly. It is recommended to have two people for assembly.
- Do not use the vanity if any electrical components are damaged or if the power outlet is not properly grounded.
- Always follow the assembly instructions carefully to avoid injury and ensure structural integrity.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Do not overload drawers or shelves to prevent tipping or damage.
- Ensure the vanity is placed on a stable, level surface.

ASSEMBLY INSTRUCTIONS

Please read all instructions carefully before and during assembly. It is recommended to assemble the vanity on a soft, clean surface to prevent scratches. Two people are recommended for easier assembly.

Step 1: Prepare Components

Unpack all components and lay them out on a clean, soft surface. Identify each part by its corresponding number or letter

as indicated in the parts list. Separate all hardware into individual piles for easy access.

Step 3: Install Drawer Slides and Shelves

Attach the drawer slides to the designated areas on the side panels of the desk. Insert the fixed shelves into their slots, ensuring they are level and secure. For adjustable shelves, use the provided shelf pins.

Step 4: Attach the Mirror Unit

Carefully place the mirror unit onto the main desk frame. Secure it using the provided screws and brackets. Ensure the mirror is stable and aligned. Connect the lighting wires as per the diagram in your manual.

OPERATING INSTRUCTIONS

Mirror Lighting

The mirror features adjustable LED lights with three color modes: Cold White, Warm White, and Warm Yellow. Use the touch sensor on the mirror to cycle through the modes and adjust brightness. Press and hold the touch sensor to dim or brighten the lights.

Power Outlet Unit

The integrated power outlet unit provides two standard AC outlets, one USB-A port, and one USB-C port. Use these to power or charge your electronic devices, hair tools, or other accessories. Ensure devices are compatible with the provided voltage and current specifications.

Storage Features

Utilize the seven smooth-gliding drawers and four open storage shelves to organize your makeup, skincare products, accessories, and other personal items. The fluted drawer fronts offer an elegant design while providing practical storage.

MAINTENANCE

- Cleaning:** Wipe the vanity surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish. For the mirror, use a glass cleaner and a lint-free cloth.
- Electrical Components:** Regularly check the power cord and outlet unit for any signs of damage. If damage is found, discontinue use and contact customer support.
- Drawer Slides:** Periodically check drawer slides for smooth operation. If a drawer becomes stiff, a small amount of silicone lubricant can be applied to the slides.
- Tightening Hardware:** Over time, screws and fasteners may loosen. Periodically check and tighten all hardware to maintain the vanity's stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lights not turning on.	Power cord unplugged, faulty connection, bulb issue.	Ensure power cord is securely plugged into both the vanity and a working wall outlet. Check all light connections. Contact support if issue persists.
Power outlets not working.	Vanity not plugged in, circuit breaker tripped.	Verify the vanity is plugged into a live outlet. Check your home's circuit breaker.
Drawers are stiff or not sliding smoothly.	Misaligned slides, debris in tracks, loose hardware.	Check alignment of drawer slides. Clean tracks of any debris. Tighten any loose screws on the slides.
Vanity feels wobbly.	Loose assembly hardware, uneven floor.	Retighten all assembly screws. Ensure the vanity is on a level surface; use shims if necessary.
