LAMTTO B0FP4N74R5

LAMTTO 10.25 Inch Wireless CarPlay & Android Auto Display User Manual

Model: B0FP4N74R5

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your LAMTTO 10.25 Inch Wireless CarPlay & Android Auto Display. Please read this manual thoroughly before using the device to ensure proper functionality and safety. Keep this manual for future reference.

2. PRODUCT OVERVIEW

The LAMTTO 10.25-inch display is designed to integrate wireless Apple CarPlay and Android Auto into your vehicle, enhancing your driving experience with navigation, communication, and entertainment features. It includes built-in streaming applications and supports various audio output methods.

10.25" Carplay with Video Apps

Your Car, Smarter and More Entertaining Than Ever

Image: The LAMTTO 10.25-inch display mounted on a car dashboard, showing a split screen with navigation on one side and a video streaming app on the other. Various feature icons are displayed below the main screen.

Key Features:

- **Wireless CarPlay & Android Auto:** Seamless integration with your smartphone for navigation, calls, messages, and music.
- **Integrated Streaming Apps:** Access Net-flix, YouTube, and other popular video applications directly from the device (requires phone hotspot connection).
- **Rear View Camera:** Includes a waterproof HD rear camera with night vision for enhanced safety during reversing.
- **Dual-Band WiFi & Split-Screen:** Stable wireless connection and the ability to display two applications simultaneously.
- **High-Resolution In-Cell Display:** 10.25-inch ultra-thin screen with 1920x720P clarity and responsive touch control.
- **Customization:** Personalize boot logos and wallpapers via SD card.
- **OTA Updates:** Receive over-the-air software updates for continuous improvement.
- **Multiple Audio Output Options:** Built-in speakers, Bluetooth, FM transmission, and AUX connection.

3. SETUP

3.1 Unboxing and Components

Carefully unpack all items from the box. Ensure all components are present before proceeding with installation.

Image: A flat lay of all components included in the package: the Carplay screen, built-in FM antenna, 3M adhesive bracket, suction cup bracket, 1.5M AUX cable, installation tools, 3M adhesive tape, user manual, and rear camera (24.5ft cable).

3.2 Mounting the Display

The display offers two primary installation methods: using the 3M adhesive bracket or the suction cup bracket. Choose the method that best suits your vehicle's dashboard and ensures a stable, clear view without obstructing driving.

Image: A visual guide illustrating the two installation methods for the display, showing how the screen attaches to both an adhesive base and a suction cup mount.

3.3 Connecting Power and Rear Camera

Connect the power cable to your vehicle's 12V power outlet. If installing the rear camera, route the camera cable to the rear of the vehicle and connect it to the display. Ensure all connections are secure.

Your browser does not support the video tag.

Video: This video demonstrates the unboxing process, assembly of the adjustable bracket, and initial setup of the LAMTTO Carplay screen, including connecting the power and rear camera.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

The device will power on automatically when your vehicle starts. To power off, disconnect the power cable or use the designated power button if available.

4.2 Connecting to Wireless CarPlay / Android Auto

To connect your smartphone:

1. Ensure Bluetooth and Wi-Fi are enabled on your phone.
2. On the LAMTTO display, navigate to the CarPlay or Android Auto section.
3. Search for the device's Bluetooth name (e.g., "T88-XXXX") on your phone and pair.
4. Confirm the connection prompt on both your phone and the display.
5. For Android Auto, ensure you have the latest Android Auto application installed on your phone.

Wireless CarPlay & Android Auto

Turn Your Car into a Smart Hub

4.3 Using Navigation and Voice Control

Once connected to CarPlay or Android Auto, you can use your preferred navigation apps. Activate voice control (Siri or Google Assistant) by pressing the voice command button on the screen or your steering wheel (if supported) to get directions, make calls, or play music hands-free.

4.4 Streaming Entertainment

The device supports built-in applications like Net-flix and YouTube. Connect the display to your phone's hotspot to access these streaming services. The split-screen feature allows passengers to watch videos while the driver uses navigation.

4.5 Audio Output Options

The LAMTTO display offers four audio output methods:

- **Built-in Speakers:** For direct audio output from the device.
- **Bluetooth:** Connect wirelessly to your car's audio system for high-quality sound.
- **FM Transmission:** Transmit audio to your car's FM radio by tuning to a specific frequency.
- **AUX Connection:** Use the provided AUX cable for a direct, lossless audio connection to your car's AUX input.

Dual-band WiFi & Bluetooth 5.3

Use CarPlay and stream video. At the same time.

- Dual-Band (2.4+5GHz) Stability
- New upgraded Bluetooth 5.3
- High-Speed Data Transfer

Bluetooth 5.3

WiFi

4.6 Customizing Wallpapers and Boot Logos

You can personalize the display by uploading custom wallpapers and boot logos via an SD card (not included). Refer to the device settings for options to change these visual elements.

5. MAINTENANCE

To ensure the longevity and optimal performance of your LAMTTO display:

- Clean the screen regularly with a soft, lint-free cloth. Avoid abrasive cleaners.
- Keep the device away from extreme temperatures and direct sunlight for prolonged periods.
- Ensure all cables are securely connected and not pinched or damaged.
- Regularly check for and install OTA software updates to benefit from new features and bug fixes.

6. TROUBLESHOOTING

6.1 No Power

- Check if the power cable is securely plugged into the vehicle's 12V outlet.
- Ensure the vehicle's ignition is on.
- Verify the vehicle's 12V outlet is functioning correctly.

6.2 CarPlay/Android Auto Not Connecting

- Ensure Bluetooth and Wi-Fi are active on your smartphone.
- Forget the device from your phone's Bluetooth settings and try pairing again.
- Restart both your phone and the LAMTTO display.
- For Android Auto, confirm the app is updated to the latest version.

6.3 No Audio Output

- Check the audio output settings on the display and ensure the correct method (Built-in Speaker, Bluetooth, FM, AUX) is selected.
- If using Bluetooth, ensure your phone is connected to the display and your car's audio system.
- If using FM transmission, verify the display and your car radio are tuned to the same clear FM frequency.
- If using AUX, ensure the cable is properly connected to both the display and your car's AUX input.

6.4 Rear Camera Not Displaying

- Check the camera cable connection to the display.
- Ensure the vehicle is in reverse gear to activate the camera display.
- Verify the camera lens is clean and free from obstructions.

AHD Adjustable Backup Camera

See every curb, child, and obstacle — make reversing as simple as looking ahead
