Maintenance

Proper care will help maintain the appearance and extend the life of your dining table.

- **Cleaning:** Wipe the table surface with a soft, damp cloth to remove dust and spills. For more stubborn marks, use a mild, non-abrasive cleaner specifically designed for wood or engineered wood surfaces. Immediately wipe dry with a clean, dry cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, strong detergents, or solvents, as these can damage the finish.
- **Protect from Moisture and Heat:** Use coasters under drinks and placemats under hot dishes to prevent water rings and heat damage. Promptly clean up any liquid spills.
- **Regular Inspection:** Periodically check all fasteners (screws, bolts) and tighten them if they have become loose.

- **Table Wobbles:**
  - Ensure the table is placed on a completely level surface.
  - Check all assembly bolts and screws. Tighten any that are loose.
  - If necessary, use furniture pads or shims under the legs to stabilize the table.
- **Loose Parts:**
  - Regularly inspect and tighten all hardware to maintain structural integrity.
- **Surface Scratches/Marks:**
  - For minor scratches, furniture repair pens or waxes designed for wood can be used.
  - Always use placemats and coasters to prevent future damage.
