## 4.2 Power Connection

1. Connect the power cord to the projector's power input port.
2. Plug the other end of the power cord into a standard electrical outlet.
3. The power indicator light will illuminate.

## 4.3 Initial Setup

Upon powering on, the projector will automatically perform auto-focus and keystone correction to optimize the image. It also features obstacle avoidance and automatic screen fit for a perfect display.

# 5. OPERATING INSTRUCTIONS

## 5.1 Power On/Off

- To power on: Press the power button on the projector or the remote control.
- To power off: Press the power button again and confirm shutdown on the screen.

## 5.2 Navigation

Use the included remote control to navigate the user interface. The directional buttons allow you to move between options, and the "OK" button confirms selections.

## 5.3 App Usage

The VISSPL A5 comes with pre-installed streaming applications. Select the desired app from the home screen to begin streaming content. An internet connection is required for online streaming services.

## 5.4 Screen Mirroring

The projector supports wireless screen mirroring from both iOS and Android devices via WiFi 6. Refer to your device's screen mirroring instructions and select the projector from the available devices.

## 6. CONNECTIVITY

---

The VISSPL A5 offers multiple connectivity options:

- **HDMI:** Connect external devices such as laptops, gaming consoles, or Blu-ray players using the provided HDMI cable.
- **USB:** Two USB ports are available for connecting USB drives to play media files.
- **3.5mm Audio Jack:** Connect external speakers or headphones for enhanced audio.
- **Wi-Fi 6:** For high-speed wireless internet access and screen mirroring.
- **Bluetooth 5.2:** Pair with Bluetooth speakers or headphones for wireless audio.

## 7. MAINTENANCE

- **Lens Cleaning:** Use a soft, lint-free cloth to gently clean the projector lens. Avoid abrasive materials or harsh chemicals.
- **Ventilation:** Ensure the projector's ventilation ports are clear of dust and debris to prevent overheating. The

advanced cooling system is designed for quiet operation, but proper airflow is crucial.

- **Storage:** When not in use, store the projector in a cool, dry place, ideally in its original packaging or a protective case.
- **Light Source:** The projector features a durable light source with an estimated lifespan of 65,000 hours. No regular lamp replacement is required.
