## 6. MAINTENANCE

- **Padding Care:** Periodically check the EVA padding on the guitar supports for wear and tear. Replace if necessary to ensure continued protection for your instruments.
- **Fastener Check:** Regularly inspect all screws and connections to ensure they remain tight. Re-tighten any loose fasteners to maintain stability.

- **Environmental Conditions:** Store the stand in a climate-controlled environment, away from extreme temperature changes, humidity, and direct sunlight, which can cause warping or fading.
