## Logilink BT0070

# LogiLink BT0070 BT 6.0 Gaming Headset User Manual

Model: BT0070

## INTRODUCTION

Thank you for choosing the LogiLink BT0070 BT 6.0 Gaming Headset. This manual provides essential information for the proper setup, operation, and maintenance of your headset. Please read these instructions carefully before using the product to ensure optimal performance and longevity.

The LogiLink BT0070 is a versatile wireless gaming headset designed for clear communication and immersive audio experiences. It features a 360° microphone, comfortable ear pads, an adjustable headband, and a long-lasting battery.

## SAFETY INFORMATION

- Do not expose the headset to extreme temperatures, humidity, or corrosive substances.
- Avoid dropping or subjecting the headset to strong impacts.
- Do not attempt to disassemble or modify the headset. This will void the warranty and may cause damage.
- Keep the headset away from water and other liquids.
- Use only the specified charging voltage and current.
- Prolonged listening at high volume levels may cause hearing damage. Adjust volume to a safe level.

## PACKAGE CONTENTS

Please check the package for the following items:

- LogiLink BT0070 Gaming Headset
- USB Charging Cable
- 3.5mm AUX Audio Cable
- User Manual (this document)

## **SETUP**

### **1. Charging the Headset**

Before first use, fully charge the headset. Connect the USB charging cable to the headset's charging port and the other end to a compatible USB power source (e.g., computer USB port, USB wall adapter).

**Image:** Illustration of power adapter requirements. Use a 3.0-3.0W power adapter. Note that a power adapter is not included with the headset.

- A full charge typically takes approximately [X] hours (*specific time not provided, refer to product packaging or LED indicator*).
- The LED indicator on the headset will change color or turn off once charging is complete.
- Ensure the power source provides 3.0-3.0W for optimal charging.

## 2. Powering On/Off

- **To Power On:** Press and hold the Power button for approximately 3 seconds until the LED indicator lights up.
- **To Power Off:** Press and hold the Power button for approximately 5 seconds until the LED indicator turns off.

## 3. Bluetooth Pairing

To connect your headset wirelessly to a device:

1. Ensure the headset is powered off.
2. Press and hold the Power button for approximately 5-7 seconds until the LED indicator flashes rapidly (usually blue and red), indicating pairing mode.
3. On your device (smartphone, laptop, etc.), enable Bluetooth and search for new devices.
4. Select "LogiLink BT0070" from the list of available devices.
5. Once paired, the LED indicator on the headset will typically flash slowly or turn solid blue.

## 4. Wired Connection (3.5mm AUX)

For a wired connection, use the included 3.5mm AUX audio cable:

1. Plug one end of the 3.5mm audio cable into the AUX port on the headset.
2. Plug the other end into the 3.5mm audio jack of your device.

3. The headset will operate in passive mode, drawing no power from its battery.

## 5. Adjusting Fit

For optimal comfort and sound quality, adjust the headset to fit your head:

- Extend or retract the adjustable headband until the ear cups comfortably cover your ears.
- Ensure the soft memory ear pads create a good seal around your ears.

Image: Close-up view of the adjustable headband mechanism, demonstrating how to customize the fit.

## OPERATING THE HEADSET

### 1. Basic Controls

The headset features intuitive controls, typically located on the ear cups:

- **Power Button:** Press and hold to power on/off. Short press for [X function, e.g., play/pause, answer call *-specifics not provided, common functions listed*].
- **Volume Up/Next Track:** Short press for volume up. Long press for next track.
- **Volume Down/Previous Track:** Short press for volume down. Long press for previous track.
- **Multi-function Button (MFB):** (Often combined with Power button) Single press to Play/Pause music or Answer/End calls. Double press to Redial last number.

## 2. Microphone Usage

The integrated 360° noise-isolating microphone is designed for clear communication.

- **Adjusting the Microphone:** Position the microphone close to your mouth for optimal voice pickup.
- **Mute/Unmute:** (*Specific button for mute not provided, common methods listed*) Look for a dedicated mute button on the headset or use your device's software controls.

## 3. Active Noise Cancellation (ANC)

The headset features Active Noise Cancellation to reduce ambient noise.

- **Activating ANC:** (*Specific button for ANC not provided, common methods listed*) Look for a dedicated ANC button or a combination press on existing buttons.
- When ANC is active, you may notice a slight change in audio characteristics.

## MAINTENANCE

---

### 1. Cleaning

- Wipe the headset with a soft, dry, lint-free cloth.
- Do not use abrasive cleaners, alcohol, or chemical solvents.
- Clean the ear pads gently to remove any buildup.

### 2. Storage

- Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- If storing for an extended period, ensure the battery is partially charged (around 50%) to preserve battery health.

**Image:** The LogiLink BT0070 headset shown in a folded configuration, suitable for compact storage or transport.

### 3. Battery Care

- Avoid fully discharging the battery frequently.
- Charge the headset regularly, even if not in use, to maintain battery health.

## TROUBLESHOOTING

If you encounter issues with your headset, refer to the following common problems and solutions:

<b>Problem</b>	<b>Possible Solution</b>
Headset does not power on.	Ensure the headset is fully charged. Press and hold the Power button for the required duration.
Cannot pair via Bluetooth.	Ensure the headset is in pairing mode (rapidly flashing LED). Turn off and on your device's Bluetooth. Move closer to the device. Clear previous Bluetooth connections on your device.
No sound or low volume.	Check headset and device volume levels. Ensure the headset is properly connected (Bluetooth or AUX). For Bluetooth, check audio output settings on your device.

Problem	Possible Solution
Microphone not working.	Ensure the microphone is not muted. Check microphone input settings on your device. Ensure the microphone is positioned correctly.
Sound quality is poor.	Ensure the headset is within Bluetooth range. Check for interference from other wireless devices. For wired connection, ensure the 3.5mm cable is fully inserted.
