

AIPER Scuba S1 Pro

AIPER Scuba S1 Pro Cordless Robotic Pool Cleaner

USER MANUAL

Introduction

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your AIPER Scuba S1 Pro Cordless Robotic Pool Cleaner. Please read this manual thoroughly before using the product and retain it for future reference.

The AIPER Scuba S1 Pro is designed to provide superior cleaning performance for various pool types, featuring advanced navigation, powerful suction, and multiple cleaning modes to ensure a pristine pool environment.

1. Product Overview

The Scuba S1 Pro is a sophisticated robotic pool cleaner equipped with features for comprehensive pool maintenance.

Figure 1.1: AIPER Scuba S1 Pro Robotic Pool Cleaner and Accessories.

This image displays the main unit of the AIPER Scuba S1 Pro, a dark-colored robotic pool cleaner with caterpillar tracks and a blue illuminated front. Beside it, a white filter basket is shown, along with a smartphone screen illustrating the Aiper application interface. This setup highlights the cleaner's design and its smart control capabilities.

Key Features:

- **Quad-Brushless Motor System:** Maximizes power for enhanced scrubbing and suction.
- **Caterpillar Tracks:** Enables navigation on uneven pool floors and scaling walls up to $90^{\circ} \pm 15^{\circ}$ angles.
- **WaveLine Technology:** Specializes in effective waterline cleaning.
- **WavePath Navigation Technology 2.0:** Expands cleaning coverage to 99% through advanced sensor-based location determination.
- **High-Performance Particle Filtration:** Equipped with a 5L, 180-micron primary filter and a 3-micron secondary filter for fine particle capture.
- **Versatile Cleaning Modes:** Offers Auto, Eco, Waterline, Floor-only, and Wall-only modes.
- **Universal Compatibility:** Suitable for all pool types (concrete, fiberglass, vinyl) up to 2,150 sq.ft. and various shapes.

- **Long Battery Life:** Provides up to 180 minutes of runtime with a 4-hour charge time.

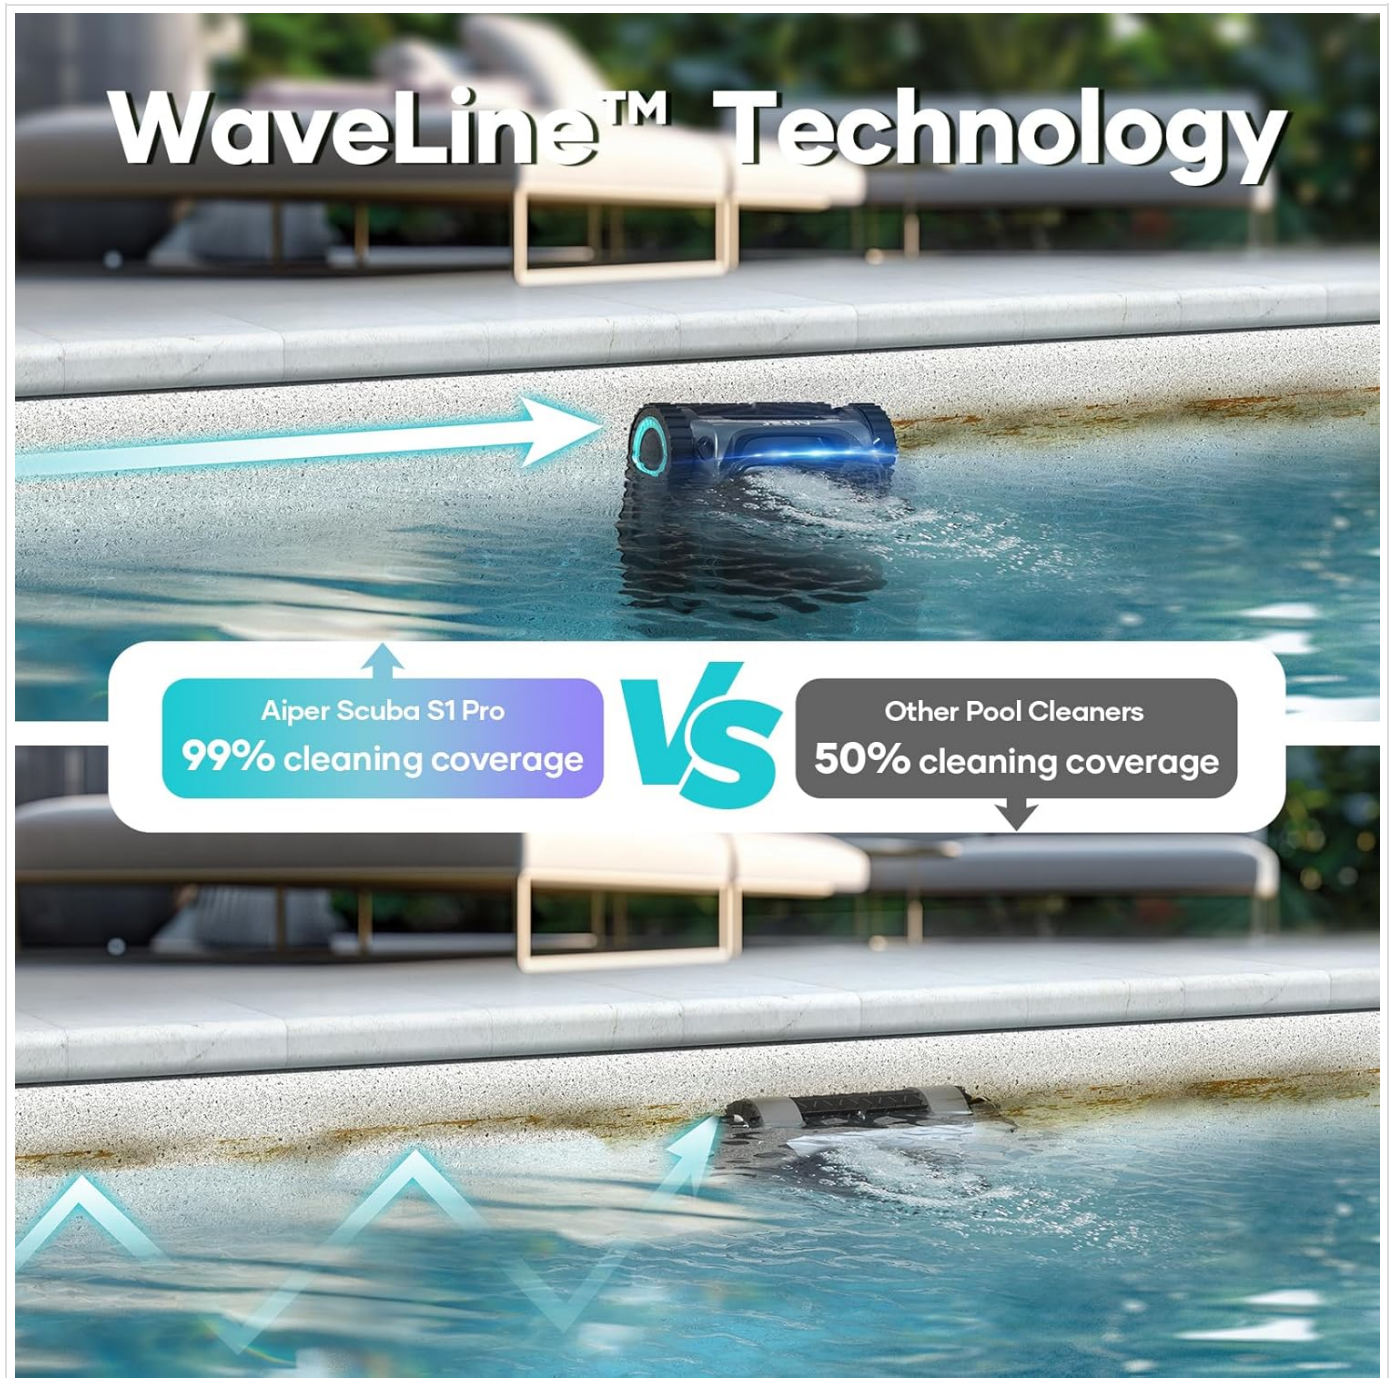

Figure 1.2: WaveLine Technology in Action.

This image illustrates the AIPER Scuba S1 Pro utilizing its WaveLine Technology to clean the pool's waterline. The top panel shows the cleaner moving along the water surface, while the bottom panel highlights its ability to clean the waterline effectively, contrasting its 99% cleaning coverage with other cleaners' 50% coverage.

Figure 1.3: WavePath Navigation Technology 2.0.

This image depicts the AIPER Scuba S1 Pro operating underwater, showcasing its WavePath Navigation Technology 2.0. Light blue lines indicate the cleaner's intelligent pathing across the pool floor and walls, aiming to achieve up to 99% cleaning coverage by systematically mapping and cleaning the pool area.

2. Setup

2.1 Unpacking and Initial Inspection

Carefully remove all components from the packaging. Inspect the cleaner and accessories for any signs of damage. If any damage is found, do not use the product and contact customer support.

2.2 Charging the Cleaner

1. Ensure the charging port on the cleaner is dry and free of debris.
2. Connect the charging cable to the cleaner and then to a power outlet.
3. The indicator lights on the cleaner will show the charging status. A full charge typically takes approximately 4 hours.
4. Disconnect the charger once fully charged.

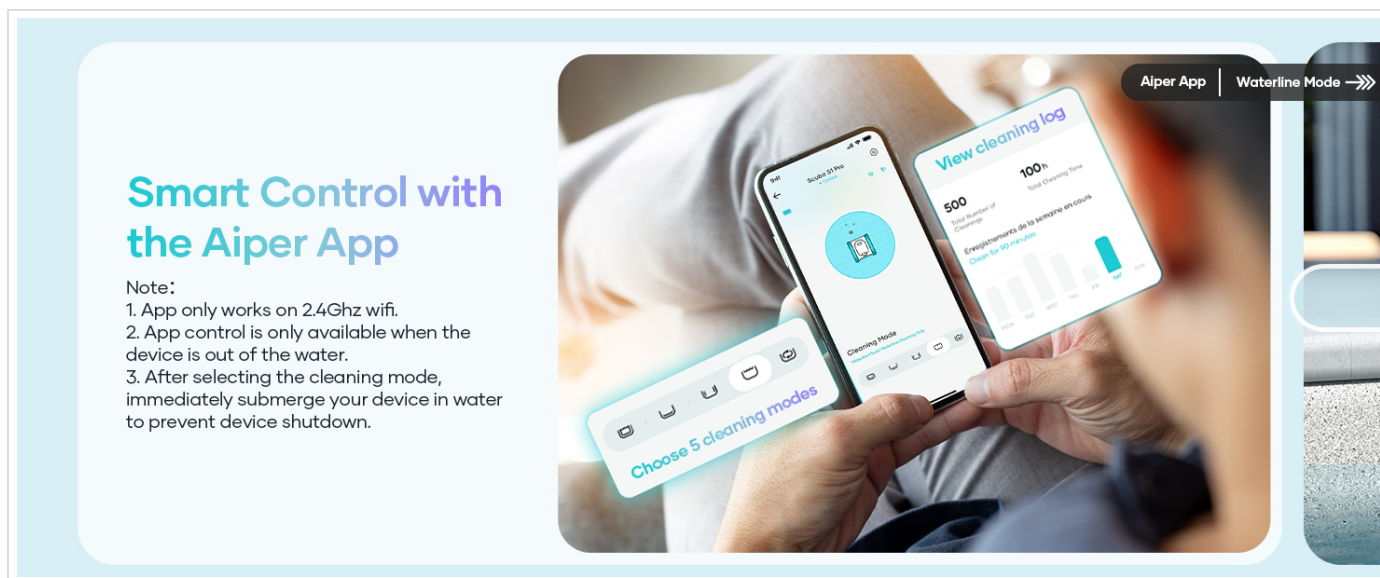

Figure 2.1: Charging the Scuba S1 Pro.

This image shows the AIPER Scuba S1 Pro robotic pool cleaner plugged into a wall outlet for charging. The blue light on the cleaner indicates its operational status or charging progress. The image emphasizes the ease of charging the unit indoors.

2.3 App Installation (Optional)

For enhanced control and monitoring, download the official AIPER app from your device's app store. The app works on a 2.4GHz Wi-Fi network. Note that app control is only available when the cleaner is out of the pool. Firmware updates can also be managed via the app.

3. Operating Instructions

3.1 Selecting a Cleaning Mode

The Scuba S1 Pro offers 5 cleaning modes. You can select modes using the power button or the AIPER app (for Wall-only mode and detailed settings).

- **Auto Mode:** Cleans both the pool floor and walls.
- **Eco Mode:** Runs for 45 minutes every 48 hours for cost-effective maintenance over a week.
- **Waterline Mode:** Focuses on cleaning the pool's waterline.
- **Floor-only Mode:** Cleans only the pool floor.
- **Wall-only Mode:** Cleans only the pool walls. This mode is primarily accessible via the AIPER app.

Advanced Particle Filtration

Figure 3.1: Cleaning Modes.

This image displays the AIPER Scuba S1 Pro robotic pool cleaner at the edge of a pool, illustrating its five cleaning modes: Waterline, Auto, Eco, Floor-only, and Wall-only. A smartphone screen in the foreground indicates that the Wall-only mode is accessible via the Aiper app, and app control is only available when the cleaner is out of the water.

3.2 Starting a Cleaning Cycle

1. Ensure the cleaner is fully charged.
2. Select your desired cleaning mode using the power button or the app.
3. Gently submerge the cleaner into the pool. The cleaner will activate automatically once submerged.
4. The cleaner will operate for its programmed cycle duration (up to 180 minutes depending on mode and battery level).

Quick Water Release

Figure 3.2: One-click Activation.

This image shows a person's hand pressing the power button on the top of the AIPER Scuba S1 Pro robotic pool cleaner, demonstrating its simple one-click activation process before deployment into the pool.

3.3 Retrieving the Cleaner

Once the cleaning cycle is complete or the battery is low, the cleaner will typically park itself near a pool wall. Use the provided hook (attachable to a standard pool pole) to retrieve the unit from the water. The motors will stop automatically when the cleaner senses it is out of water.

Figure 3.3: Easy Retrieval.

This image shows the AIPER Scuba S1 Pro robotic pool cleaner being retrieved from the pool using a hook attached to a pole. This illustrates the convenient method for removing the cleaner from the water after its cleaning cycle is complete.

Easy to Clean

Figure 3.4: Quick Water Release.

This image shows a person holding the AIPER Scuba S1 Pro robotic pool cleaner above the pool edge, with water rapidly draining from its underside. This demonstrates the quick water release feature, making the cleaner lighter and easier to handle after retrieval.

3.4 Pool Compatibility

The Scuba S1 Pro is designed for use in various pool types and shapes, including concrete, fiberglass, and vinyl, covering areas up to 2,150 sq.ft. and lengths up to 66ft. It handles unique shapes like kidney or L-shaped pools effortlessly.

Figure 3.5: Pool Size and Battery Life.

This aerial view of a large, irregularly shaped pool features the AIPER Scuba S1 Pro robotic cleaner. Text overlays highlight its 180-minute battery life, 4-hour charge time, and suitability for pools up to 2,150 sq.ft. or 66ft in length, demonstrating its capacity for extensive cleaning.

4. Maintenance

4.1 Cleaning the Filter Basket

Regular cleaning of the filter basket is crucial for maintaining optimal cleaning performance.

1. After each use, remove the filter basket from the cleaner.
2. Empty any collected debris.
3. Rinse the 180-micron primary filter and the 3-micron secondary filter thoroughly with a hose until clean.
4. Ensure the filters are completely dry before reinserting them into the cleaner.

Revolutionary Horizontal Water Level Cleaning

Figure 4.1: Advanced Particle Filtration System.

This image illustrates the AIPER Scuba S1 Pro's dual filtration system. On the left, a 180-micron filter basket is shown with various collected debris like leaves, hair, twigs, gravel, and sand. On the right, a 3-micron filter is displayed, designed to capture finer particles such as algae and microorganisms, highlighting the cleaner's comprehensive filtration capabilities.

Figure 4.2: Easy Filter Cleaning.

This image shows a person cleaning the filter basket of the AIPER Scuba S1 Pro robotic pool cleaner with a garden hose. The cleaner itself is visible nearby, emphasizing the straightforward process of maintaining the filtration system.

4.2 General Cleaning and Storage

Wipe down the exterior of the cleaner with a soft, damp cloth. Store the cleaner in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods. Ensure the battery is partially charged (around 50%) before long-term storage to preserve battery health.

5. Troubleshooting

Problem	Possible Cause	Solution
Cleaner does not turn on.	Low battery; Power button not pressed correctly.	Charge the cleaner fully. Ensure the power button is pressed firmly.
Poor cleaning performance.	Clogged filter basket; Obstruction in suction port; Low battery.	Clean the filter basket thoroughly. Check and clear any obstructions. Recharge the cleaner.
Cleaner gets stuck or navigates erratically.	Large debris obstruction; Pool features (steps, drains) interfering; Sensor blockage.	Remove large debris from the pool. Ensure no objects are blocking the cleaner's path. Clean sensors if visible. For steps, consider using "Floor-only" mode if "Auto" mode struggles.
Debris escapes upon retrieval.	Filter basket door not closing properly due to debris.	Ensure the filter basket is not overfilled. Check the spring-loaded door mechanism for any small debris preventing it from sealing completely. Clean the basket thoroughly before and after use.
App connection issues.	Not on 2.4GHz Wi-Fi; Cleaner submerged; Bluetooth interference.	Ensure your device is connected to a 2.4GHz Wi-Fi network. App control only works when the cleaner is out of the water. Try restarting the app and cleaner.

If the problem persists after attempting these solutions, please contact AIPER customer support.

6. Specifications

Model Name: Scuba S1 Pro

Brand: AIPER

Product Dimensions: 18.6"L x 17.4"W x 11.8"H

Power Source: Battery Powered

Battery Life: Up to 180 minutes

Charge Time: Approximately 4 hours

Filter Type: 180-micron primary, 3-micron secondary

Max Pool Size: Up to 2,150 sq.ft.

Max Wall Climbing Angle: 90°±15°

Color: Blue

ASIN: B0FPC7RZRD

7. Warranty and Support

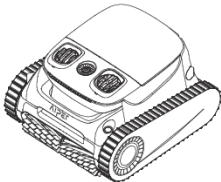

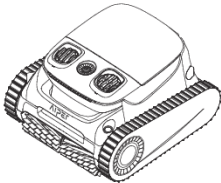

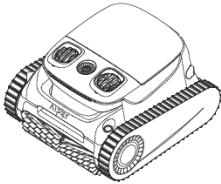

The AIPER Scuba S1 Pro comes with a 2-year product care plan, ensuring peace of mind regarding your investment. The product undergoes rigorous testing before shipping to ensure quality and reliability.

For technical support, warranty claims, or any inquiries, please visit the official AIPER website or contact their customer service directly. Keep your purchase receipt as proof of purchase for warranty purposes.
