Rimoody 4G+64G Android 15 Car Stereo

Rimoody 4G+64G Android 15 Car Stereo User Manual

For Honda Fit 2008-2013 Models

PRODUCT OVERVIEW

The Rimoody 4G+64G Android 15 Car Stereo is designed to enhance your driving experience in Honda Fit models from 2008 to 2013. This head unit features a 10.1-inch in-cell touchscreen, providing responsive and clear visuals. It integrates advanced connectivity options including wireless Carplay, Android Auto, GPS navigation, Bluetooth 5.0, FM/RDS radio, and Wi-Fi for various applications.

The system operates on Android 15 with 4GB RAM and 64GB ROM, ensuring smooth performance for multitasking and app storage. Additional features include support for a backup camera and steering wheel controls for convenient operation.

Item Weight	2451.8 Grams
Compatible Devices	Smartphone
Batteries Included	No

In-Cell Touchscreen: The 10.1-inch 1280×720 In-Cell touchscreen is designed for high responsiveness and clarity, making interactions smooth and lag-free.

INCELL SCREEN

Adopting a touch display integrated screen makes the screen thinner and the display brighter.

This image displays a layered diagram of the In-Cell screen, highlighting its thinner design and brighter display due to integrated touch technology, with a stated 68% light transmittance and 100% RGB color accuracy.

INSTALLATION GUIDE

This section provides general installation steps. For specific vehicle wiring, consult a professional or the vehicle's service manual.

Step 1: Prepare the Dashboard

1. Carefully remove the existing air vent on the radio panel.
2. Unscrew and remove the emergency button.

3. Install the emergency button onto the new radio panel and secure it with the provided screws.
4. Install the new radio panel, ensuring all clips are properly seated.

Step 2: Connect Wiring and Reinstall

5. Connect the new radio's cables to the car's wiring harness. Ensure all connections are secure. If the wiring harness does not match, contact customer service for the correct harness.
6. Reinstall the trim panel at the bottom of the radio.
7. Verify all connections and test the unit before fully securing the dashboard components.

Installation

If the wiring harness does not match, please contact customer service to request the correct wiring harness

1. Install the air vent on the new radio panel and tighten the five screws. Install the emergency button on the new radio panel and tighten the one screw. Install all the clips on the new radio panel.

2. Connect the new radio to the car's cables and reinstall it. Reinstall the trim panel at the bottom of the radio. The new radio installation is complete.

This image illustrates the installation process, showing the removal of the original car stereo components, connecting the new unit's wiring, and the final appearance of the installed Rimoody car stereo in a Honda Fit dashboard.

OPERATING INSTRUCTIONS

Wireless Carplay / Android Auto

The unit supports wireless Carplay for iOS devices and Android Auto for Android devices, allowing seamless integration of your smartphone's features.

- **Hands-Free Communication:** Make and receive calls, access contacts, and manage notifications using voice commands (e.g., Siri) or the touchscreen.
- **Navigation:** Utilize your phone's navigation apps for real-time directions and traffic updates.
- **Media Playback:** Stream music, podcasts, and audiobooks directly from your smartphone.

Mirror Link

WIFI Connection

IOS

ANDROID

This image highlights the wireless connectivity options: Carplay (Bluetooth), Android Auto (Bluetooth), and Mirror Link (WiFi Connection), showing smartphone screens mirrored on the car stereo.

Mirror Link

Connect your smartphone via USB or Wi-Fi to mirror its screen onto the car stereo display. This allows you to access apps, play music, and view videos directly from your phone on the larger screen.

GPS Navigation & Wi-Fi

The unit includes built-in GPS for both online and offline maps. For offline maps, internet access is required to download map data initially. Connect to the internet via a Wi-Fi hotspot or tethering from your smartphone to browse the web, stream media, and download applications.

GPS & WIFI

This image illustrates the GPS and Wi-Fi functionalities of the car stereo, showing online and offline map options, alongside the 4GB RAM and 64GB ROM specifications for smooth operation.

FM/RDS Radio & Bluetooth 5.0

Enjoy high-quality FM radio with RDS (Radio Data System) for station information. Save your favorite stations for quick access to news, traffic, and music. Bluetooth 5.0 enables stable hands-free calls, phonebook synchronization, and wireless audio streaming for clear sound.

Lossless Sound Quality

This image highlights the audio features of the car stereo, including Bluetooth connectivity for music streaming, FM/RDS radio interface, and a graphic equalizer (EQ) for sound customization.

Backup Camera & Steering Wheel Control

The included AHD backup camera provides a clear rear view, assisting with safe parking and obstacle avoidance. The unit supports your vehicle's existing steering wheel controls, allowing you to manage various functions without taking your hands off the wheel.

This image displays the rear view camera with parking guidelines and the integration of steering wheel controls for convenient operation of the car stereo.

TROUBLESHOOTING

If you encounter issues, please refer to the following common solutions:

- **No Power:** Check all power connections and fuses. Ensure the car's ignition is on.
- **No Sound:** Verify speaker connections. Check volume levels and audio settings. Ensure the mute function is not active.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the stereo and your phone. Delete previous pairings and try reconnecting.

- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Touchscreen Unresponsive:** Perform a soft reset of the unit (refer to the device settings for reset options).
- **Wiring Harness Mismatch:** If the provided wiring harness does not fit your vehicle, contact Rimoody customer service for assistance.

For further assistance, consult the detailed troubleshooting section in the included user manual or contact customer support.

MAINTENANCE

To ensure the longevity and optimal performance of your Rimoody Car Stereo, follow these maintenance guidelines:

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the touchscreen. Avoid abrasive cleaners or solvents that may damage the screen.
- **Software Updates:** Periodically check for software updates to ensure you have the latest features and bug fixes. Updates can typically be found through the unit's settings or the manufacturer's website.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Cable Connections:** Ensure all cables are securely connected and free from damage. Loose connections can lead to intermittent issues.

WARRANTY AND SUPPORT

Rimoody provides comprehensive support for your product:

- **Warranty:** The product comes with a 2-year manufacturer's warranty.
- **Replacement Policy:** Enjoy a 12-month free replacement period.
- **Money-Back Guarantee:** A 30-day money-back policy is available.
- **Technical Support:** Lifetime technical support is provided.
- **Response Time:** Customer service aims to respond to inquiries within 24 hours.

For any installation or usage queries, please contact Rimoody customer service via email. You can find contact information in the included user manual or on the official Rimoody website.
