GETPAIRR N95C

GETPAIRR Vista 2.0 Portable Display Audio 11-inch with Android 15 User Manual

Model: N95C

INTRODUCTION

This manual provides detailed instructions for the installation, operation, maintenance, and troubleshooting of your GETPAIRR Vista 2.0 Portable Display Audio device. Please read this manual thoroughly before using the product to ensure proper functionality and safety. The GETPAIRR Vista 2.0 is an 11-inch portable display audio system featuring Android 15, a 5-core CPU, 3GB RAM, and 64GB ROM, offering Google Play, built-in GPS, Wireless CarPlay, Android Auto, AirPlay, and split-screen capabilities.

SETUP

1. Unpacking and Component Check

Carefully unpack all components and verify that the following items are included:

- GETPAIRR Vista 2.0 Main Unit
- Stand

- Cigarette Plug Adapter
- AUX Cable
- Japanese Instruction Manual (This document)

同梱物 (付属品)

- 1 GetPairr Vista 2.0本体
- 2 スタンド
- 3 シガープラグアダプタ
- 4 AUXケーブル
- 5 取扱説明書

Image: All components included with the GETPAIRR Vista 2.0, including the main unit, stand, power adapter, and cables.

2. Mounting the Device

Attach the provided stand to the main unit and secure it to a suitable location on your vehicle's dashboard or windshield. Ensure the device is stable and does not obstruct your view or interfere with driving controls.

3. Power Connection

Connect the cigarette plug adapter to the device and then plug it into your vehicle's 12V power outlet. The device will power on automatically when the vehicle's ignition is turned on.

4. Audio Output Connection

For optimal audio quality, connect the provided AUX cable from the GETPAIRR Vista 2.0 to your vehicle's AUX input port. Alternatively, you can use the built-in speaker or FM transmitter function (if available) to output audio to your car's speakers.

5. Initial Wireless CarPlay/Android Auto Pairing

To use Wireless CarPlay or Android Auto, ensure your smartphone's Bluetooth is enabled. On the GETPAIRR Vista 2.0 screen, navigate to the CarPlay/Android Auto section and follow the on-screen prompts to pair your phone via Bluetooth. Once paired, the connection will be automatic upon subsequent vehicle startups.

Your browser does not support the video tag.

Video: This video demonstrates the installation method for the 11-inch portable display audio speaker, showing how to connect the device and its components.

OPERATING INSTRUCTIONS

1. Basic Navigation and Interface

The device features an intuitive touch screen interface. Swipe left or right to navigate between app screens. Use the physical buttons (if any) for quick access to common functions like volume control or home screen.

Image: The Android 15 interface of the GETPAIRR Vista 2.0, displaying various Google Play applications like YouTube, Netflix, and Spotify.

2. Google Play Store and App Installation

Connect the device to Wi-Fi (via your smartphone's tethering or a dedicated hotspot) to access the Google Play Store. You can download and install various applications such as YouTube, Netflix, Spotify, and Google Maps to customize your in-car entertainment and navigation experience.

Your browser does not support the video tag.

Video: This video demonstrates the 11-inch display audio's compatibility with popular streaming services like YouTube, TikTok, and Netflix, showing content playback.

3. Wireless CarPlay and Android Auto

After initial pairing, your smartphone will automatically connect to the device for Wireless CarPlay or Android Auto when the ignition is on. This allows you to access navigation, music, calls, and messages directly on the device's screen without cables.

Image: The display showing the Wireless CarPlay and Android Auto interfaces, highlighting seamless smartphone integration.

4. AirPlay and Mirroring

The device supports AirPlay for iPhone users, allowing you to wirelessly mirror your iPhone's screen to the GETPAIRR Vista 2.0. This enables viewing videos, photos, and apps from your iPhone on the larger car display. Connect via Wi-Fi for this feature.

Your browser does not support the video tag.

Video: This video illustrates the connection method for the mirroring function, demonstrating how to cast a smartphone screen to the device.

5. Split-Screen (PIP) Functionality

The split-screen feature allows you to display two applications simultaneously. For example, you can have navigation on one side and a video streaming app on the other. Customize the default display apps and layout (left/right) in the device settings under 'Display' > 'Default Split App'.

Image: The split-screen (PIP) feature in action, displaying a navigation map on one side and a video player on the other, enhancing multitasking.

6. Gemini Voice Assistant and Built-in GPS

Utilize the Gemini Voice Assistant for hands-free control. Simply say commands like "Find nearby parking" or "Navigate to [destination]" to search for locations, set routes, and avoid traffic. The built-in GPS allows for independent navigation without relying on your smartphone's GPS. Install your preferred map application from Google Play (e.g., Google Maps) after connecting to Wi-Fi.

Image: A user interacting with the Gemini Voice Assistant for navigation, demonstrating hands-free operation and smart route planning.

MAINTENANCE

1. Cleaning the Device

To clean the screen and exterior of the device, use a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid using harsh chemicals, abrasive materials, or excessive moisture, as these can damage the screen or internal components.

2. Software Updates

The GETPAIRR Vista 2.0 supports Over-The-Air (OTA) software updates. Periodically check for available updates in the device settings to ensure you have the latest features, performance improvements, and security patches. A stable Wi-Fi connection is required for downloading updates.

TROUBLESHOOTING

If you encounter any issues with your GETPAIRR Vista 2.0, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not power on.	No power supply or faulty connection.	Ensure the cigarette plug adapter is securely connected to both the device and the vehicle's 12V outlet. Check if the vehicle's power outlet is functioning.
Wireless CarPlay/Android Auto not connecting.	Bluetooth not enabled or device not paired. Wi-Fi tethering conflict.	Ensure your smartphone's Bluetooth is on and paired with the device. If using smartphone tethering for internet, turn off tethering before connecting to Wireless CarPlay/Android Auto, then re-enable if needed. Restart both the device and your smartphone.

Problem	Possible Cause	Solution
Slow performance or app freezing.	Too many apps running in the background or insufficient RAM.	Close unnecessary applications. Restart the device. Ensure the device has sufficient free storage.
Low audio volume from device speakers.	Volume settings are too low.	Increase the volume on both the GETPAIRR Vista 2.0 and your vehicle's audio system. If using AUX, ensure the cable is fully inserted.
Screen glare or poor visibility.	Environmental lighting conditions.	Adjust the screen brightness in settings. Consider repositioning the device or using an anti-glare screen protector.

WARRANTY AND SUPPORT

1. Warranty Information

The GETPAIRR Vista 2.0 comes with a **1-year warranty** from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use. Please retain your proof of purchase for warranty claims.

2. Customer Support

If you experience any issues with your product that are not resolved by the troubleshooting section, or if you have questions regarding its operation, please contact GETPAIRR customer support. Contact details can typically be found on the product packaging, the seller's website, or through your purchase platform. When contacting support, please provide your model number (N95C) and a detailed description of the issue.
