3. MAINTENANCE

To ensure the longevity and appearance of your EasyCom Vanity Desk, follow these simple maintenance guidelines:

- **General Cleaning:** Wipe down all surfaces with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Mirror Care:** Clean the mirror surface with a standard glass cleaner and a lint-free cloth. Do not spray cleaner directly onto the mirror; instead, apply it to the cloth first.
- **Jewelry Organizers:** Regularly dust the rotating organizers and velvet-lined sections with a soft brush or cloth to prevent dust buildup.
- **Drawer & Cabinet Mechanisms:** Periodically check that drawer slides and cabinet hinges operate smoothly. If needed, a small amount of silicone-based lubricant can be applied to the slides.

4. TROUBLESHOOTING

If you encounter any issues with your vanity desk, please refer to the following common troubleshooting tips:

- **LED Lights Not Working:**

- Ensure the power cord for the lights is securely plugged into a working outlet.
- Check the connection between the light bulbs and the main wiring harness. Loose connections can prevent lights from illuminating.
- Verify that the light control switch is functioning correctly and not damaged.

- **Drawers or Cabinet Doors Sticking/Not Closing Smoothly:**

- Inspect the drawer slides and cabinet hinges for any obstructions or misalignment.
- Ensure all assembly screws are tightened appropriately, but do not overtighten.
- Check that the items stored inside are not interfering with the closing mechanism.

- **Charging Station Not Functioning:**

- Confirm the main power plug for the charging station is fully inserted into a live wall outlet.
- Test the charging station with a different device and cable to rule out device-specific issues.
- If the issue persists, ensure the internal wiring connections are secure (refer to assembly instructions if necessary).
