YITAHOME MAYIHvW6Dn

YITAHOME Dog Crate Furniture Instruction Manual

Model: MAYIHvW6Dn

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your YITAHOME Dog Crate Furniture. This product is designed to serve as both a secure enclosure for your small to medium-sized dog and a functional piece of furniture, such as an end table or bedside cabinet. Please read all instructions carefully before assembly and use to ensure proper function and safety.

SAFETY INFORMATION

- Ensure all parts are securely fastened before allowing your pet to use the crate.
- Do not exceed the maximum weight capacity of 200 lbs on the top surface.
- Regularly inspect the crate for any loose or damaged parts. Discontinue use if damage is found.
- Keep small children away from the crate during assembly to prevent injury.
- This product is intended for indoor use only.

PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Wooden panels (top, bottom, sides, back)

- Metal grate panels for doors and interior
- Removable plastic tray
- Lockable wheels (casters)
- Door latches and hinges
- Assembly hardware (screws, bolts, etc.)
- Assembly Instruction Manual

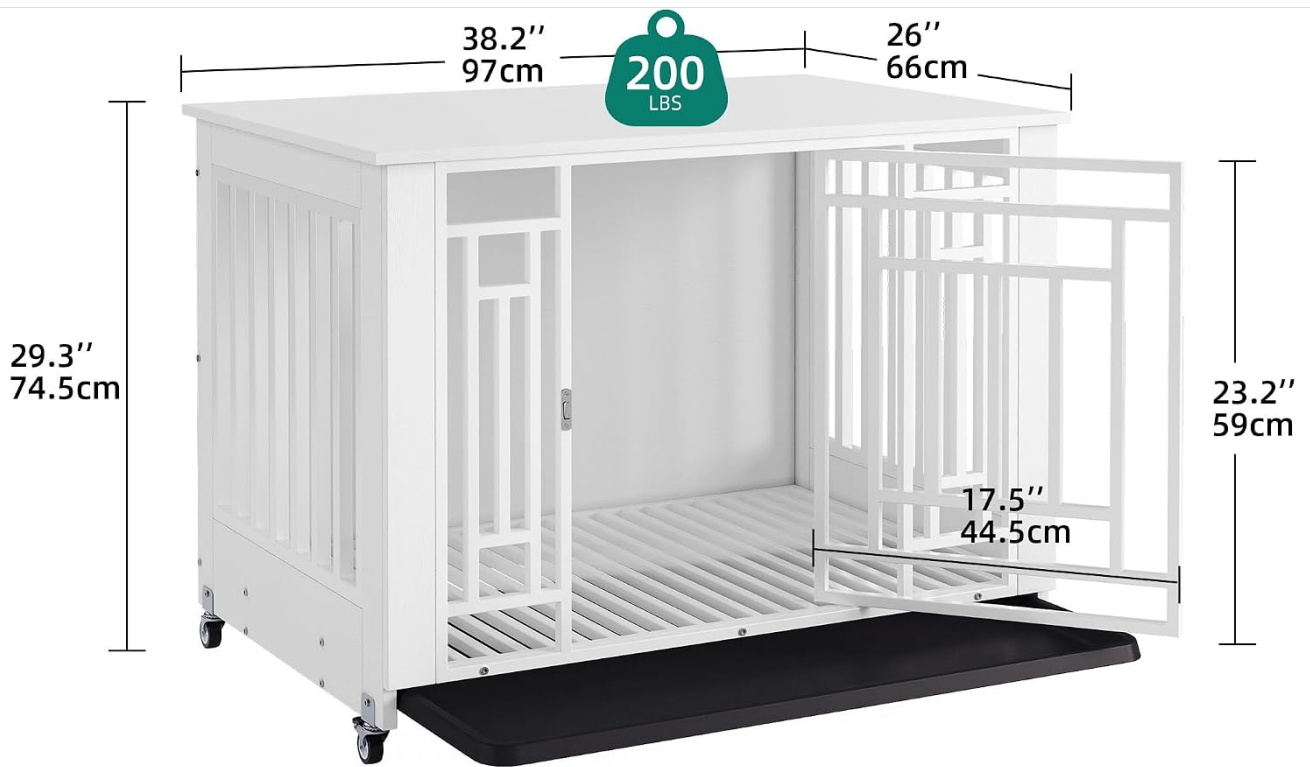

SETUP AND ASSEMBLY

Follow the included assembly instructions carefully. A typical assembly process involves:

1. **Unpack Components:** Lay out all wooden panels, metal grates, and hardware on a clean, soft surface to prevent scratches.
2. **Assemble Frame:** Attach the side and back panels to the bottom panel using the provided hardware.
3. **Install Metal Grates:** Secure the metal grate panels into the designated slots on the wooden frame.
4. **Attach Doors:** Mount the doors using the hinges and ensure they swing freely. Install the door latches.
5. **Install Wheels:** Attach the four lockable wheels to the bottom of the crate. Ensure they are securely tightened.
6. **Insert Tray:** Slide the removable plastic tray into the bottom of the crate.
7. **Final Check:** Verify all screws and bolts are tightened, and the crate is stable.

Choosing the Right Size

It is important to select a crate size that provides adequate space for your dog to stand, turn around, and lie down comfortably. Refer to the dimensions below and measure your dog before use.

How to Measure Your Dog for a Crate:

Step 1: Measure Length

1. Ensure that your dog is standing on all four feet.
2. Measure from the tip of its nose to the base of its tail.

Step 2: Measure Height

1. Have your dog sit down.
2. Measure from the top of its head to the floor.

Warm Tips:

Please follow these instructions to confirm your pet's size before purchase for optimal accommodation.

OPERATING INSTRUCTIONS

Door Operation

The crate features two doors for easy access. To open, slide the latch mechanism and pull the door outwards. To close, push the door shut and engage the latch firmly to secure it.

Using Lockable Wheels

The crate is equipped with 360° lockable wheels for convenient mobility. To move the crate, unlock all four wheels. To secure the crate in a stationary position, press down on the locking mechanism on each wheel until it clicks into

place.

DETAIL DESIGN

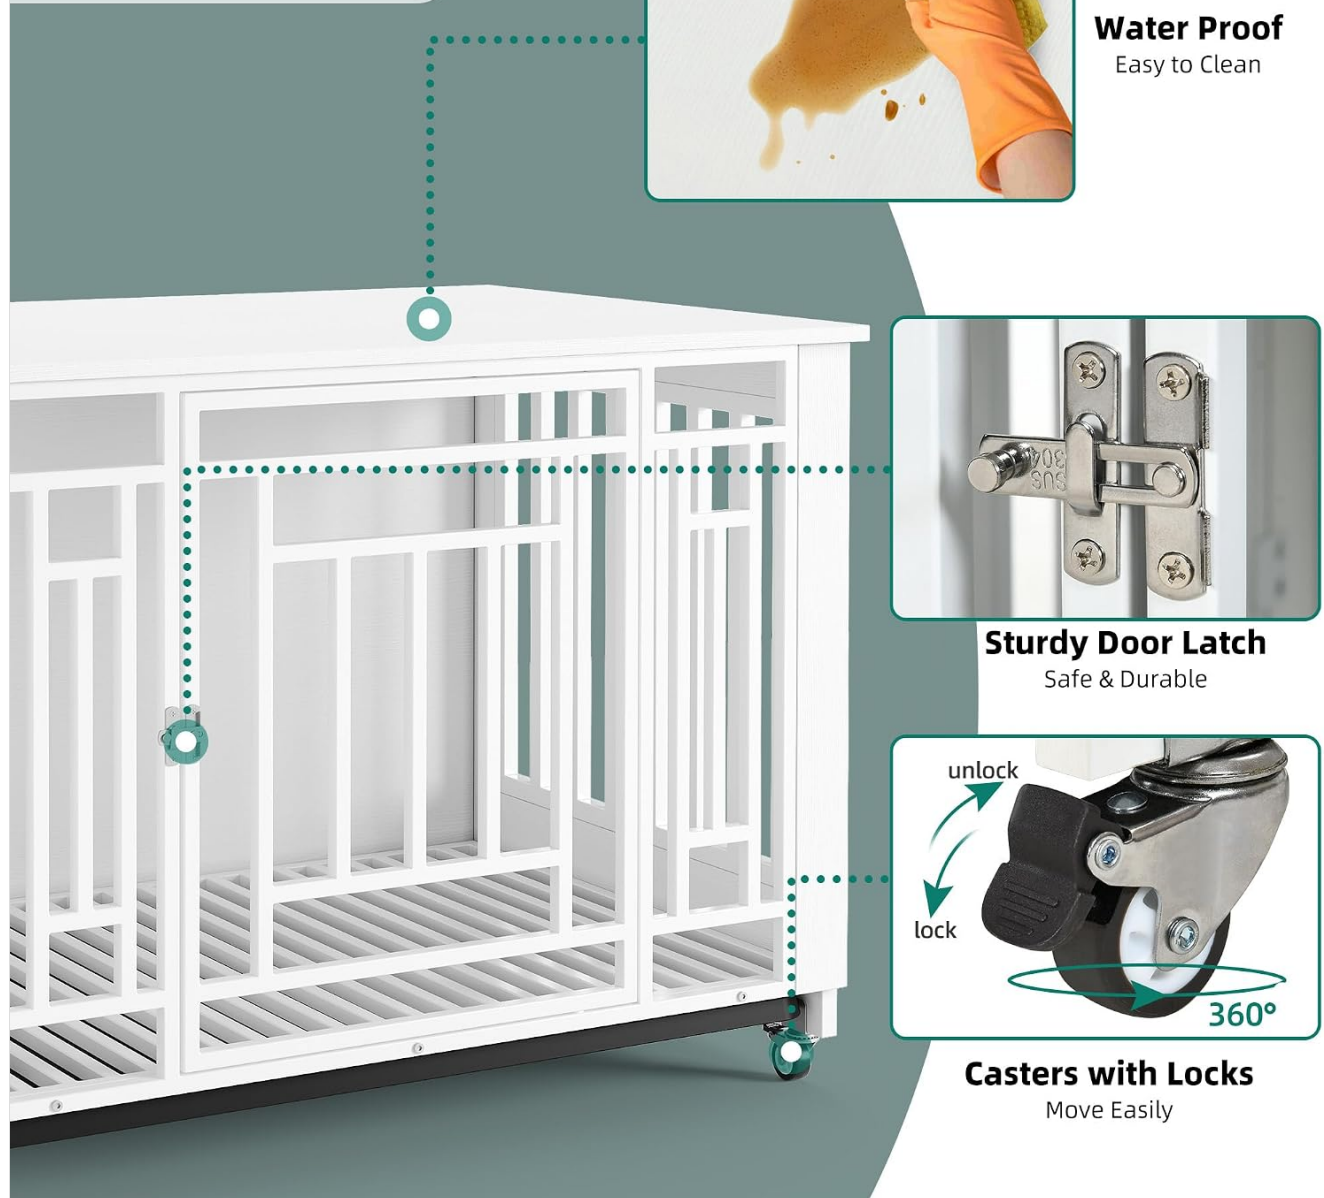

Image: Detail view highlighting the sturdy door latch and the lock/unlock function of the 360° rotating casters.

Removable Tray

The plastic tray at the bottom of the crate can be easily pulled out for cleaning. Ensure the tray is fully inserted before closing the doors.

MAINTENANCE

Cleaning the Crate

- **Removable Tray:** The plastic tray can be easily removed and washed with mild soap and water. Rinse thoroughly and dry before returning it to the crate.
- **Wooden Surfaces:** Wipe wooden surfaces with a damp cloth and mild cleaner. Avoid abrasive cleaners that may damage the finish.

- **Metal Grates:** Clean metal grates with a damp cloth. For stubborn dirt, use a pet-safe cleaner.

Regular Inspection

Periodically check all screws, bolts, and latches to ensure they remain tight and secure. Tighten any loose hardware as needed to maintain the crate's stability and safety.

TROUBLESHOOTING

Issue: Crate feels unstable or wobbly.

Solution: Check all assembly hardware (screws, bolts) and tighten them securely. Ensure the crate is placed on a flat, level surface. If using wheels, ensure all locks are engaged when stationary.

Issue: Doors do not close or latch properly.

Solution: Verify that the crate frame is assembled squarely. Check hinges for proper alignment and ensure no obstructions are preventing the door from closing fully. Adjust latches if necessary.

Issue: Dog is chewing on the crate.

Solution: While the crate features chew-resistant metal tubes, persistent chewing can cause damage. Provide appropriate chew toys for your dog. Consider using a chew deterrent spray on non-metal parts if chewing persists.

ATTENTION TO DETAIL

It provides a safe and comfortable environment for your pet while giving you peace of mind.
