Vego Garden 26" Extra Tall 9-in-1 Modular Raised Garden Bed Instruction Manual

Model: 9N1 | Color: Modern Gray

1. INTRODUCTION

Thank you for choosing the Vego Garden 26" Extra Tall 9-in-1 Modular Raised Garden Bed. This product is designed to provide an efficient and durable solution for your gardening needs, allowing for healthier root development and reduced physical strain during gardening activities. Our beds are constructed from VZ 2.0 material, a combination of Zinc, Magnesium, and Aluminum coated steel with an AkzoNobel paint finish, ensuring a long lifespan and eco-friendly performance.

2. SAFETY INFORMATION

Your safety during assembly and use is paramount. Please observe the following guidelines:

- **Non-Toxic Materials:** The VZ 2.0 material is 100% non-toxic and eco-friendly, ensuring a safe environment for growing edible plants.
- **Safe Edging:** The garden bed features an oval design with no sharp corners. Heavy-duty rubber edging is provided to cover all exposed edges, protecting against injury during assembly and use.
- **Secure Fasteners:** Ensure all fasteners (bolts and cap nuts) are tightened securely to maintain structural integrity.
- **Stable Placement:** Place the assembled garden bed on a level, stable surface to prevent tipping.

Increased Safety

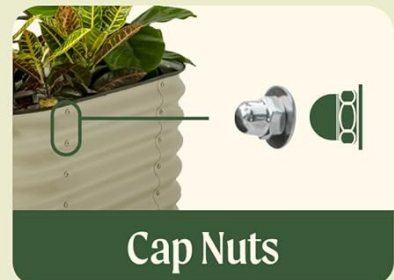

Image 2: Details of the increased safety features including rubber edging, round corners, and cap nuts.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present:

- VZ 2.0 Metal Panels (various sizes for modular configurations)
- 4 Sets of Bracing Rods
- Fasteners (Bolts, Washers, Cap Nuts)
- Heavy-Duty Rubber Edging
- Assembly Tool (if included, otherwise standard wrench/socket set required)

4. SETUP AND ASSEMBLY INSTRUCTIONS

The Vego Garden 9-in-1 Modular Raised Garden Bed offers 9 different configurations. Assembly typically takes

approximately 40 minutes. No specialized construction knowledge is required.

4.1 Choose Your Configuration

Refer to the diagram below to select one of the 9 possible configurations for your garden bed. This will determine which panels and how many of each type you will use.

9 Possible Configurations in 1 Garden Bed

★ Popular Configuration

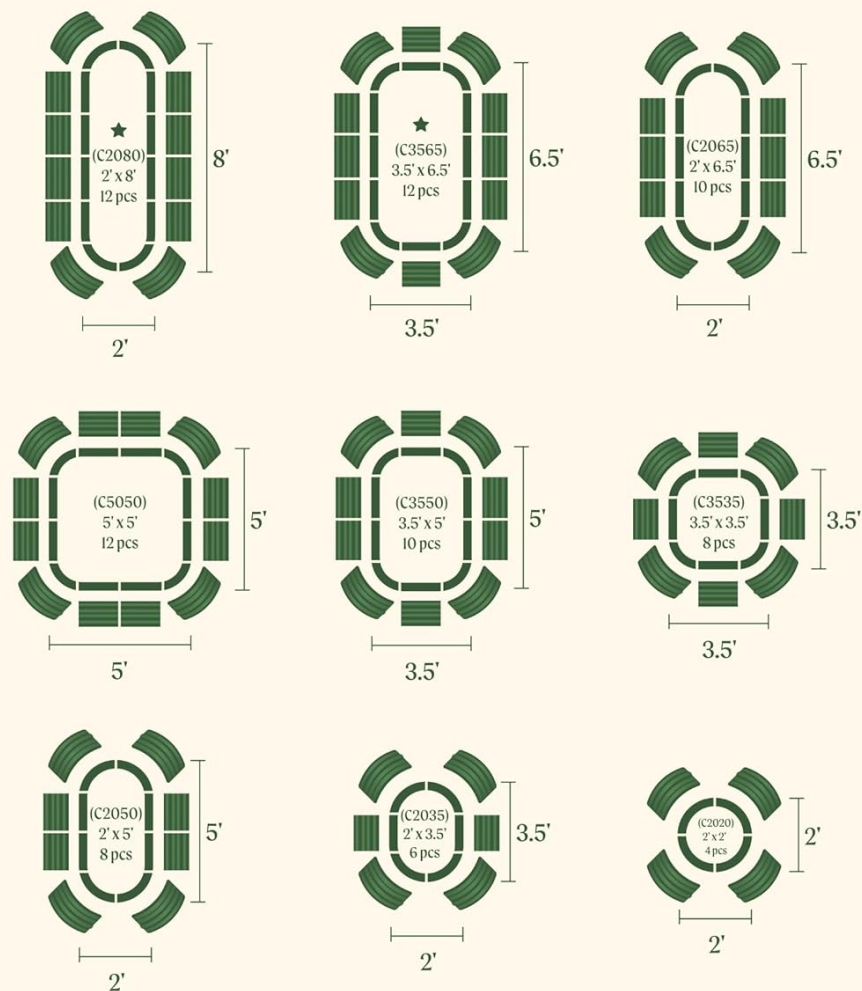

Image 3: Nine possible configurations for the modular garden bed.

4.2 Assembly Steps

- 1. Unpack Components:** Carefully remove all panels, bracing rods, fasteners, and rubber edging from the packaging.
- 2. Assemble Panels:** Based on your chosen configuration, connect the metal panels using the provided bolts, washers, and nuts. Ensure the corrugated sides face outwards. Do not fully tighten bolts until all panels are in place.
- 3. Install Bracing Rods:** Insert the 4 sets of bracing rods across the width of the bed, connecting opposing panels. These rods reinforce the structure and prevent bowing over time. Secure them with the appropriate fasteners.

4. **Tighten All Fasteners:** Once all panels and bracing rods are in position, systematically tighten all bolts and nuts to ensure a rigid and stable structure.
5. **Apply Rubber Edging:** Carefully fit the heavy-duty rubber edging along the top rim of the entire garden bed. This provides a smooth, safe edge and a finished appearance.

5. OPERATING INSTRUCTIONS

Once assembled, your Vego Garden bed is ready for planting. The 26-inch depth provides ample space for various root systems.

5.1 Soil Preparation

The extra depth of this raised bed allows for excellent drainage and soil quality. Consider the following for filling:

- **Shallow-Rooted Crops:** For plants like lettuce or radishes, you can use a Vego Soil Saving Floor (sold separately) or the Hugelkultur method to reduce the amount of soil needed.
- **Medium-Rooted Crops:** A standard soil mix is suitable.
- **Deep-Rooted Crops:** For vegetables like carrots or potatoes, fill the bed entirely with high-quality planting soil. Consider integrating Vego Worm Composters (sold separately) for organic fertilization.

26-Inch (2.2-Ft) Depth

Taller Than Most Waist-High Garden Beds on the Market
Great for Planting Any Crops

Crop Types	Best Practice
Shallow-Rooted	Use Vego Soil Saving Floor to save soil
Medium-Rooted	Use Hugelkultur method to save soil
Deep-Rooted	Add Vego Worm Composters to provide organic fertilizer

Image 4: 26-inch depth and crop type recommendations.

5.2 Planting and Watering

Plant your chosen vegetables, flowers, or fruits according to their specific needs. The elevated design helps prevent pests and improves drainage. For efficient watering, consider Vego Garden's irrigation kits (sold separately).

6. MAINTENANCE

The Vego Garden bed is designed for minimal maintenance and long-term durability.

- **Cleaning:** The VZ 2.0 material is rust-resistant and easy to clean. Simply wipe down the exterior with a damp cloth as needed.
- **Fastener Check:** Periodically inspect all bolts and nuts to ensure they remain tight. Re-tighten if any looseness is detected.
- **Lifespan:** With proper care, your Vego Garden bed is designed to last for 20+ years.

7. TROUBLESHOOTING

Most issues can be resolved by ensuring correct assembly and proper use.

- **Bowing Panels:** If panels appear to bow outwards, ensure the 4 sets of bracing rods are correctly installed and securely tightened. These rods are crucial for structural integrity.
- **Loose Connections:** If the bed feels unstable, re-check all fasteners and tighten them firmly.
- **Water Drainage Issues:** Ensure the ground beneath the bed allows for adequate drainage. The raised design inherently promotes good drainage, but compacted soil underneath can impede it.

For any issues not covered here, please contact Vego Garden customer support.

8. SPECIFICATIONS

Feature	Detail
Brand	Vego garden
Model	9N1
Material	Alloy Steel (VZ 2.0)
Color	Modern Gray
Dimensions (Example 9N1 Configuration)	96"D x 24"W x 26"H (243.8 cm D x 61 cm W x 66 cm H)
Special Features	Rust Resistant, Non-toxic, Food Safe Materials, Modular Design
Lifespan	20+ Years
Assembly Time	Approx. 40 minutes
Configurations	9 in 1 Modular

9. WARRANTY AND SUPPORT

Vego Garden products are built for durability and longevity. This raised garden bed is designed with a 20+ year life expectancy, reflecting our commitment to quality materials and construction.
