5. MAINTENANCE AND CARE

Proper care will help maintain the appearance and extend the life of your Vipbear sofa.

Fabric Care (Chenille)

- **Regular Cleaning:** Vacuum the sofa regularly using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for chenille, testing on an inconspicuous area first.
- **Avoid Harsh Chemicals:** Do not use bleach, abrasive cleaners, or solvents, as these can damage the fabric.

- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading.
- **Cushion Care:** Fluff and rotate cushions periodically to maintain their shape and even out wear. Back cushions are removable for easier cleaning and fluffing.

General Maintenance

- Check all connections and fasteners periodically to ensure they remain tight.
- Keep the sofa away from heat sources and excessive moisture.

6. TROUBLESHOOTING

If you encounter any issues with your Vipbear Modular Sectional Sleeper Sofa, refer to the following common solutions:

- **Sofa feels unstable after assembly:** Ensure all modular connectors are fully engaged and all legs (if applicable) are securely tightened. Re-check assembly steps.
- **Pull-out bed mechanism is stiff:** Ensure no obstructions are blocking the mechanism. Apply gentle, even pressure when pulling out or pushing in the bed. Avoid forcing the mechanism.
- **Backrest not adjusting:** Ensure you are pushing the backrest forward until it clicks before reclining to the next position. Check for any fabric or debris obstructing the internal mechanism.
- **USB ports not charging:** Verify that the sofa is properly connected to a power source (if required, though typically USB ports on furniture are powered by an internal connection to a wall outlet). Try a different USB cable or device to rule out cable/device issues.
- **Cushions appear flat:** Fluff cushions regularly. Removable back cushions can be rotated and patted to restore shape.

If the issue persists, please contact Vipbear customer support for further assistance.
