2. SAFETY INFORMATION

Please read and understand all safety instructions before operating the ESHINE 6000 Series Queen Adjustable Bed Frame.

- Always follow the instructions provided with the product.
- Do not use the bed frame if any parts are damaged or missing. Contact customer support for replacement parts.
- Keep the bed frame away from heat sources and direct sunlight to prevent damage to electronic components.
- Do not place heavy objects on the adjustable sections of the bed frame, as this may impede movement or cause damage.
- Do not allow children or pets to play on or around the bed frame, especially during adjustment, to prevent injury.
- Ensure all power cords are properly routed and secured to avoid tripping hazards or damage.
- In case of emergency or power failure, use the emergency power-down feature to return the bed to a flat position.

3. KEY FEATURES

The ESHINE 6000 Series Adjustable Bed Frame is equipped with several features designed for comfort and convenience:

- **Multi-Functional Design:** Includes lumbar support, head-pillow-tilt, soft under-bed lighting, dual USB ports, and a 3-level massage system.

- **Ultra Comfort & Lumbar Support:** Ergonomic design conforms to natural body curves. Built-in lumbar support helps relieve lower back pressure. Adjustable head tilt allows for optimal positioning for reading, watching TV, or relaxation.
- **Smart Control:** Operate all functions using the dedicated ESHINE APP or the wireless remote control. Adjust custom positions, pillow tilt, and massage modes. Features dual-side independent controls for split configurations (if applicable).
- **Customizable Features:** Adjustable legs offer two height options (8 inches and 11.4 inches) to suit user preference. Integrated dual USB ports provide convenient device charging. Under-bed lighting enhances visibility in low-light conditions.
- **Durability:** Constructed with a steel-reinforced base and includes mattress retention bars for stability. Features an emergency power-down function for safety.

This image provides a numbered breakdown of the bed frame's features, including up to 55° head tilt, up to 45° leg tilt, up to 30° pillow tilt, adjustable lumbar support bar, back & leg massage, under-bed LED lighting, under-bed USB & Type-C ports, mattress retaining bar, and 3.4"+8" adjustable bed legs.

4. SETUP AND ASSEMBLY

The ESHINE 6000 Series Adjustable Bed Frame is designed for straightforward assembly. Due to the weight of the components, it is recommended that two adults perform the setup.

4.1 Unpacking

- Carefully remove all components from the packaging.
- Verify that all parts listed in the included assembly guide are present.

- Place the frame components on a clean, flat surface.

4.2 Frame Assembly

- Attach the adjustable legs to the bed frame. The legs can be set to either 8 inches or 11.4 inches height. Ensure all legs are securely tightened.
- Install the mattress retention bars at the foot of the bed. These bars prevent the mattress from sliding during adjustments.
- Connect the power cord to the control box on the bed frame and then to a grounded electrical outlet.
- Refer to the detailed assembly instructions provided in the product packaging for specific steps and diagrams.

5. OPERATING INSTRUCTIONS

The ESHINE 6000 Series Adjustable Bed Frame can be operated using the wireless remote control or the ESHINE smart app.

5.1 Wireless Remote Control

The wireless remote provides full control over all bed frame functions. Ensure batteries are correctly installed.

Figure 5: ESHINE Adjustable Bed Remote Control. This image displays the wireless remote control with labels for each button, including Anti-Snore preset, Memory Positions, Lift/Lower Lumbar, Lift/Lower Headrest, Head/Foot Up/Down, Flat button, Under Bed LED ON/OFF, Head/Foot Massage (3 intensities), Massage Modes Select (3 modes), Flash Light ON/OFF, and 10, 20, 30 Minute Massage Timer Light.

- **Head/Foot Incline:** Use the corresponding arrow buttons to raise or lower the head and foot sections.
- **Pillow Tilt:** Adjust the pillow section independently for optimal neck and head support.
- **Lumbar Support:** Use the 'Lift Lumbar' and 'Lower Lumbar' buttons to adjust the firmness and position of the lumbar support.
- **Massage Function:** Activate the 3-level massage system for the head and/or foot sections. Select from 3 massage modes and set a timer (10, 20, or 30 minutes).
- **Zero Gravity:** Press the 'Zero Gravity' preset button to achieve a position that elevates your head and feet, promoting circulation and reducing pressure on your lower back.
- **Anti-Snore:** Press the 'Anti-Snore' preset button to slightly elevate the head, which can help open airways.
- **Memory Positions:** Save your favorite positions using the 'MEM' buttons. To save, adjust the bed to your desired position, then press and hold a 'MEM' button until the bed beeps.
- **Flat Button:** Press the 'FLAT' button to quickly return the bed to a completely flat position.
- **Under-Bed Lighting:** Toggle the under-bed LED lights on or off for ambient illumination.
- **Flashlight:** The remote includes a built-in flashlight for convenience.

5.2 Smart App Control

Download the ESHINE APP from your device's app store. Follow the in-app instructions to pair your adjustable bed frame. The

app offers all the functionalities of the remote control, plus additional customization options and independent controls for dual-side adjustable beds.

5.3 USB Charging Ports

The bed frame includes dual USB ports (Type-A and Type-C) located on the side for convenient charging of your electronic devices.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your ESHINE adjustable bed frame.

- **Cleaning:** Wipe the frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Motor and Mechanism:** The motors and adjustment mechanisms are designed to be maintenance-free. Do not attempt to lubricate or open the motor housing.
- **Cables and Connections:** Periodically check all power cords and connections to ensure they are secure and undamaged.
- **Remote Control:** Replace batteries in the wireless remote control as needed.

7. TROUBLESHOOTING

If you encounter issues with your ESHINE adjustable bed frame, refer to the following common solutions:

Problem	Possible Cause	Solution
Bed does not respond to remote.	No power, remote batteries low, remote not paired.	Check power connection. Replace remote batteries. Refer to pairing instructions in the full manual.
Motor makes unusual noise.	Obstruction, loose connection.	Check for obstructions under the bed. Ensure all connections are secure. If noise persists, contact customer support.
Bed moves slowly or intermittently.	Low power, overloaded.	Ensure bed is plugged directly into a wall outlet. Do not exceed weight capacity.
Under-bed light not working.	Light feature off, power issue.	Ensure under-bed light is activated via remote or app. Check power connection.

For issues not listed here, please consult the comprehensive user manual or contact ESHINE customer support.
