6. MAINTENANCE

6.1 Cleaning

To clean the screen, gently wipe it with a soft, lint-free cloth. For the TV casing, use a soft, dry cloth. Avoid using abrasive cleaners, waxes, or solvents as they can damage the finish. Always unplug the TV before cleaning.

6.2 Software Updates

Your TV may receive software updates periodically to improve performance and add new features. Ensure your TV is connected to the internet to receive these updates. You can check for updates manually in *Settings* > *System* > *About* > *System update*.

7. TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common solutions:

- **No Power:** Check if the power cord is securely connected and the power outlet is working.
- **No Picture/Sound:** Verify the correct input source is selected. Check cable connections to external devices.
- **Poor Picture Quality:** Adjust picture settings. Ensure the input source is providing a high-quality signal.
- **Remote Not Working:** Replace batteries. Ensure no obstructions between the remote and the TV's IR sensor.
- **Network Connection Issues:** Restart your router and TV. Re-enter Wi-Fi password or check LAN cable.

For more complex issues, consult the TCL support website or contact customer service.
