## SICOTAS 1227 sideboard

# SICOTAS Sideboard Buffet Cabinet

MODEL: 1227 SIDEBOARD | BRAND: SICOTAS

## Introduction

Thank you for choosing the SICOTAS Sideboard Buffet Cabinet. This manual provides detailed instructions for assembly, safe use, and maintenance of your new furniture. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This product features a timeless fluted design, smart storage solutions with adjustable shelves, and versatile functionality suitable for various rooms including dining rooms, living rooms, kitchens, and entryways. Crafted from FSC-certified thickened high-quality boards with water-resistant surfaces, it is designed for durability and stability.

## Safety Information

- **Anti-Tipping Device:** An anti-tipping device is included and **must** be installed to prevent serious injury from furniture tip-over. Always secure the cabinet to a wall using the provided hardware.
- **Weight Limits:** Do not exceed the recommended weight capacity for shelves and the tabletop. Overloading can cause damage or injury.
- **Assembly:** Assemble the unit on a soft, clean surface to prevent scratches. Ensure all parts are correctly aligned and fasteners are tightened securely before use. Do not overtighten screws.
- **Children:** Keep small parts and packaging materials away from children during assembly.
- **Placement:** Place the cabinet on a level surface to ensure stability.

## Package Contents

Before assembly, please verify that all components and hardware are present and undamaged. Refer to the included instruction booklet for a detailed list of numbered panels and lettered hardware. If any parts are missing or damaged, please contact customer support.

## Assembly Instructions

---

This sideboard consists of multiple pieces (e.g., 3 pieces for the 87-inch model). The assembly process for each individual cabinet unit is similar. Follow these steps for each unit:

1. **Attach Cam Bolts to Top Panel:** Insert cam bolts (A) into the designated holes on the top panel (1) and the top support rail (10). Tighten with a screwdriver.
2. **Attach Brackets:** Secure the metal brackets (H) to the top panel (1) and top support rail (10) using screws (G).
3. **Attach Cam Bolts to Base Panel:** Insert cam bolts (A) into the designated holes on the base panel (2). Ensure they are fully seated and tightened.
4. **Install Drawer Glides:** Attach the drawer glides (CL/CR) to the base panel (2) using screws (E).
5. **Assemble Side Panels:** Insert wooden dowels (C) into the side panels (5, 8, 9) and then attach them to the base panel (2). Secure with cam locks (B) by turning them clockwise.
6. **Install Back Panel:** Slide the back panel (6) into the grooves of the assembled side panels.
7. **Attach Top Panel:** Place the top panel (1) onto the assembled structure, aligning the cam bolts with the holes in the side panels. Secure with cam locks (B).
8. **Assemble Drawer Box:** Attach the drawer front (15) to the drawer sides (16, 17, 18) using screws (D). Slide the drawer bottom (19) into the grooves.
9. **Install Drawer Glides on Drawer:** Attach the remaining drawer glides (DL/DR) to the sides of the assembled drawer box using screws (E).
10. **Install Door Hinges:** Attach hinges (M) to the cabinet doors (13, 14) using screws (N).
11. **Attach Doors to Cabinet:** Mount the doors (13, 14) to the cabinet frame, aligning the hinges with the pre-drilled holes. Secure with screws (N).
12. **Install Adjustable Shelf:** Insert shelf pins (K) into the desired height holes inside the cabinet. Place the adjustable shelf (7) on top of the pins.
13. **Install Anti-Tipping Device:** Secure the anti-tipping device (L) to the back of the cabinet and to a wall stud using the provided screws (D). This step is critical for safety.

## Setup

---

- **Placement:** Choose a flat, stable surface for your sideboard. Ensure there is adequate space for opening doors and drawers.
- **Anti-Tipping:** As mentioned in the safety section, the anti-tipping device must be installed. Position the cabinet against a wall and follow the instructions for securing it.
- **Leveling:** If the floor is uneven, use the adjustable foot pads (if included) to level the cabinet and prevent wobbling.

## Operating Instructions

- **Drawers:** The drawers feature a smooth sliding mechanism for effortless access. To open, gently pull the fluted front. To close, push until fully seated.
- **Doors:** The cabinet doors have a handle-less design. To open, gently push the door inward slightly, and it will spring open. To close, push firmly until it latches.
- **Adjustable Shelves:** The internal shelves can be adjusted to three different heights to accommodate various items. To adjust, remove the shelf, reposition the shelf pins (K) to the desired height, and then place the shelf back on the pins.

## Maintenance

---

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Promptly wipe up any spills to prevent water damage to the water-resistant surface.
- **Sunlight:** Avoid prolonged exposure to direct sunlight to prevent fading or discoloration of the wood finish.
- **Inspection:** Periodically check all fasteners and connections to ensure they remain tight. Retighten if necessary.

## Troubleshooting

---

- **Wobbling:** Ensure the cabinet is placed on a level surface. Adjust the foot pads if necessary. Check that all assembly screws are tightened.
- **Drawer/Door Not Closing Smoothly:** Check for any obstructions in the drawer glides or door hinges. Ensure hinges are properly aligned and tightened.
- **Scratches/Dents:** Minor scratches can sometimes be touched up with a wood repair marker matching the finish. For significant damage, contact customer support.
