## Rocketek Small-GT4S

# Rocketek 5-in-1 Wireless CarPlay and Android Auto Adapter Small-GT4S Instruction Manual

Model: Small-GT4S | Brand: Rocketek

## 1. INTRODUCTION

---

The Rocketek 5-in-1 Wireless CarPlay and Android Auto Adapter (Model: Small-GT4S) is designed to enhance your in-car entertainment and connectivity experience. This device converts your vehicle's existing wired CarPlay or Android Auto system into a wireless one, offering seamless integration with your smartphone. Additionally, it provides access to streaming services like Netflix and YouTube, and supports local media playback via TF card or USB.

## 2. PACKAGE CONTENTS

---

Please ensure all items are present in the package:

- Rocketek 5-in-1 Wireless CarPlay Adapter (Small-GT4S)
- USB-C to USB-A Cable
- USB-C to USB-C Cable
- TF Card (pre-installed or included separately)
- User Manual (this document)

Note: Not for MAZDA/TESLA/BMW.

Image 4.1: The adapter supports a wide range of car models and smartphone operating systems.

For detailed compatibility information for Android Auto, please visit the [official Android Auto website](#).

## 5. SETUP INSTRUCTIONS

Follow these steps for initial setup and connection:

1. **Connect the Adapter:** Plug the Rocketek 5-in-1 Wireless CarPlay Adapter into your car's USB data port using the appropriate USB-C to USB-A or USB-C to USB-C cable.
2. **Initial Boot-up:** The device will power on, and your car's screen should display an Android or CarPlay interface.
3. **Enable Bluetooth & Wi-Fi on Phone:** On your smartphone, ensure both Bluetooth and Wi-Fi are turned on.
4. **Pair with the Adapter:** On your car's screen, navigate to the Bluetooth settings or the adapter's main interface. Select the adapter's Bluetooth name (e.g., "AIBox-BT\_b054" or similar) from your phone's Bluetooth device list and pair. Confirm any pairing codes if prompted.
5. **Automatic Connection:** After successful Bluetooth pairing, the adapter will automatically connect to your phone via Wi-Fi for wireless CarPlay or Android Auto functionality.

### Setup Video Guides:

Video 5.2: This video demonstrates the process of using the Magic Link CarPlay AI Box, including initial connection steps.

Video 5.3: A quick demonstration of the Wireless CarPlay Adapter supporting Netflix and YouTube, showing the connection process.

Video 5.4: This video provides an overview of the 2024 upgraded wireless Android Auto and CarPlay adapter, including its features and connection.

Video 5.5: A step-by-step guide on how to connect the wireless CarPlay/Android Auto feature.

## 6. OPERATING INSTRUCTIONS

### 6.1. Wireless CarPlay & Android Auto

Once connected, the adapter allows you to use wireless CarPlay or Android Auto, mirroring your phone's essential apps (navigation, music, calls) directly onto your car's display. The system supports original car control methods, including voice control, steering wheel controls, touch screen, and knob operation.

Image 6.1: The adapter retains original vehicle control methods for a familiar user experience.

### 6.2. Streaming Media (Netflix, YouTube, TF Card)

The adapter comes with built-in Netflix and YouTube applications. To use these, ensure the adapter is connected to a stable Wi-Fi network or your phone's mobile hotspot. You can also play videos and music offline by inserting a microSD card (up to 256GB) into the TF card slot or using the USB port.

# Built-in YouTube and NETFLIX

**Tips:** 1. Hotspot or WiFi connection is needed for streaming apps;  
2. Valid Netflix/YouTube account login is required for access.

Image 6.2: Enjoy built-in Netflix and YouTube for an enhanced entertainment experience.

Image 6.3: The adapter supports offline video playback via TF card and screen mirroring.

### 6.3. Screen Mirroring

The screen mirroring feature allows you to display your smartphone's screen directly onto your car's infotainment system. This is useful for apps not natively supported by CarPlay or Android Auto.

#### Operating Video Guides:

Video 6.4: Learn how to play videos using the AI Box, covering both online streaming and local media playback.

Video 6.5: This video provides instructions on how to stream Netflix and YouTube online through the adapter.

Video 6.6: A guide on how to use the screen mirroring function to display your phone's content.

Video 6.7: This video offers a detailed setup guide for the screen mirroring feature.

Video 6.8: A comprehensive video demonstrating the features of the 4-in-1 Wireless CarPlay Android Auto Adapter.

## 7. TROUBLESHOOTING

Refer to the following tips for common issues:

- **Simultaneous Connection:** You cannot connect to Apple CarPlay/Android Auto and streaming services (like YouTube/Netflix) simultaneously. Switch between modes as needed.
- **Hotspot Connection Issues:** When setting up a connection to your phone's hotspot, remember to turn off Bluetooth on your phone first.
- **Lag-Free Streaming:** For optimal performance and to avoid playback delays, do not open multiple apps while streaming videos.
- **Compatibility Check:** Ensure your car model (post-2016 with factory wired CarPlay) and phone OS (iOS 10+ or Android 11+) meet the compatibility requirements.

**Important Things to Know Before Buy:**

- 1 Compatibility Notice:**  
ONLY works with cars that support WIRED Apple CarPlay or WIRED Android Auto and have a built-in OEM screen.
- 2 Supported Apps:**  
The built - in video apps support Netflix, YouTube. Other apps cannot be downloaded.
- 3 Limited Notice:**  
The video streaming feature cannot be used if your original car screen already supports wireless Apple CarPlay and Android Auto.
- 4 Internet Requirement:**  
Stable WiFi connection or mobile hotspot is required to use the video apps.
- 5 Smooth Playback Tips:**  
Don't open multiple apps while streaming videos to avoid playback delays.
- 6 Contact US:**  
Tutorial videos for all functions are available on the product detail page. If you have any questions, please contact us.
