## 1. Product Overview

---

The Razor A5 Lux Kick Scooter is designed for riders aged 8 and up, supporting a weight of up to 220 lbs (100 kg). It features large 8-inch (200 mm) urethane wheels that provide a smooth ride and illuminate as they spin. The scooter is constructed with a strong, height-adjustable aluminum T-tube and a larger deck to accommodate taller riders. Its easy folding mechanism allows for convenient portability and storage.

The scooter is available in various bold colors with attention-grabbing graphics on both the handlebar and deck, adding a distinctive style.

## 2. Safety Information

---

**WARNING: Riding a scooter can be a hazardous activity. Certain conditions may cause the equipment to fail without fault of the manufacturer. Scooters are intended to move and it is therefore possible to get into dangerous situations and/or lose control and/or fall. If such things occur, you can be seriously injured or die. ALWAYS use common sense and practice safe riding.**

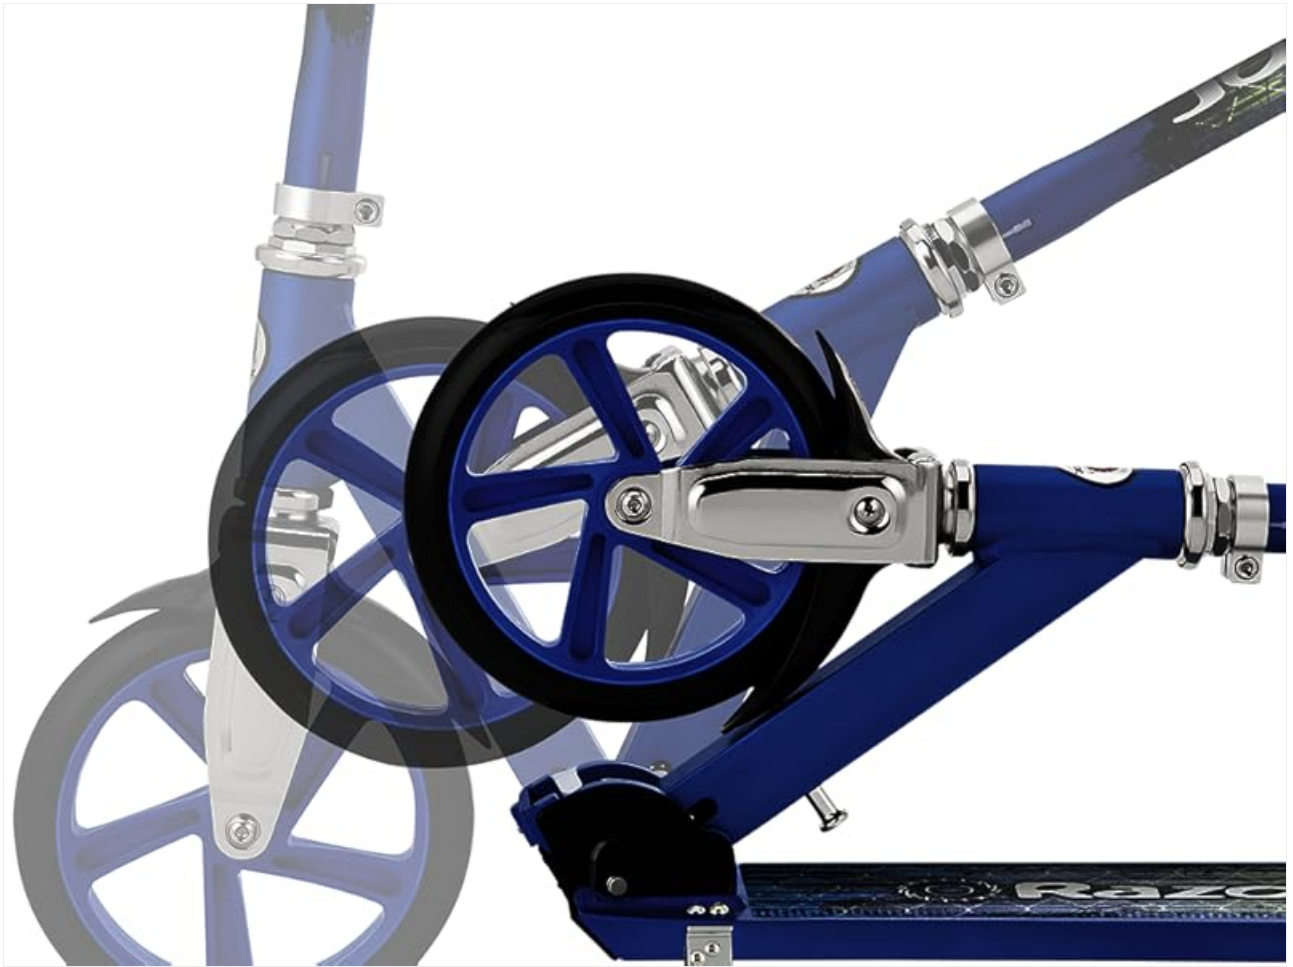

- Always wear a helmet and appropriate safety gear (knee pads, elbow pads, wrist guards) when riding.
- Ensure all fasteners and components are securely tightened before each ride.
- Ride on smooth, paved surfaces away from motor vehicles. Avoid riding on uneven terrain, loose debris, or wet surfaces.
- Do not exceed the maximum weight limit of 220 lbs (100 kg).
- Adult supervision is recommended for younger riders.
- Familiarize yourself with local laws and regulations regarding scooter use.

## 3. Setup and Assembly

---

The Razor A5 Lux Kick Scooter comes mostly pre-assembled. Follow these steps for initial setup:

1. **Unpacking:** Carefully remove the scooter from its packaging. Retain all packaging materials for future storage or transport.
2. **Unfolding:** Locate the folding mechanism near the base of the T-tube. Release the latch and unfold the scooter until it locks securely into the riding position. Ensure the locking mechanism is fully engaged before use.

The easy-to-use folding mechanism for compact storage and transport.

- 3. Handlebar Adjustment:** The handlebars are adjustable to suit different rider heights. Loosen the quick-release clamp on the T-tube, extend or retract the handlebars to the desired height, and then securely tighten the clamp. Ensure the handlebars are aligned with the front wheel.

Adjustable handlebars allow for a comfortable fit for various rider heights.

## 4. Operating Instructions

---

Before riding, ensure you are wearing all recommended safety gear.

1. **Starting:** Place one foot firmly on the deck of the scooter. Use your other foot to push off the ground, gaining momentum. Once moving, place your pushing foot onto the deck behind your front foot.
2. **Steering:** Lean gently in the direction you wish to turn and use the handlebars to guide the front wheel.
3. **Braking:** To slow down or stop, apply pressure to the rear fender brake with your heel. This will press the fender against the rear wheel, initiating braking.

### REAR FENDER BRAKE

AN INTUITIVE WAY TO SLOW AND STOP

The rear fender brake provides an intuitive way to slow down and stop.

4. **Light-Up Wheels:** The 8-inch urethane wheels feature integrated lights that activate automatically as the wheels spin, enhancing visibility and adding a unique visual element to your ride.

The large 8-inch urethane wheels light up as they spin, offering a smooth ride.

## 5. Maintenance

---

- **Cleaning:** Wipe the scooter with a damp cloth to remove dirt and debris. Avoid using harsh chemicals or abrasive cleaners.
- **Inspections:** Regularly check all bolts, nuts, and fasteners to ensure they are tight. Inspect the wheels for wear and tear, and ensure they spin freely.
- **Storage:** Store the scooter in a dry, protected area when not in use. The folding mechanism allows for compact storage.

## 6. Troubleshooting

---

- **Loose Handlebars:** If handlebars feel loose, tighten the quick-release clamp on the T-tube.
- **Squeaky Wheels:** If wheels squeak, check for debris and clean them. If the issue persists, the bearings may need lubrication or replacement.
- **Brake Not Engaging:** Ensure the rear fender brake is free of obstructions and that it makes firm contact with the wheel when pressed.

## 7. Specifications

---

Feature	Detail
Brand	Razor
Model Name	A5 Lux Kick Scooter
Age Range	Kid (8+)
Weight Limit	220 Pounds (100 kg)
Product Dimensions (L x W x H)	33.9" x 16.9" x 38.6"
Item Weight	8.8 Pounds
Number of Wheels	2
Wheel Material	Polyurethane
Wheel Size	200 Millimeters (8 inches)
Frame Material	Aluminum
Handlebar Type	Adjustable
Brake Style	Rear Braking
Special Features	Adjustable Handlebar Height, Foldable, Light Up Wheels
