

SIXTOP P-1 Camera+4.3inch

SIXTOP Wireless Backup Camera P-1 with 4.3-inch HD Display Monitor User Manual

Model: P-1 Camera+4.3inch | Brand: SIXTOP

1. INTRODUCTION

The SIXTOP Wireless Backup Camera Kit provides enhanced visibility for safe reversing and parking. This system features a 4.3-inch HD display monitor and a waterproof wireless camera, designed for easy installation and stable signal transmission. It is compatible with a wide range of vehicles including cars, trucks, trailers, vans, and SUVs, offering a clear view day and night.

2. PRODUCT OVERVIEW AND COMPONENTS

The SIXTOP Wireless Backup Camera Kit includes the following components:

- 4.3-inch HD Display Monitor
- Wireless Backup Camera with IP68 Waterproof Rating
- 10-meter Extension Power Cable
- Cigarette Lighter Charger
- Mounting Bracket for Monitor
- Antenna & Accessories
- Stickers
- User Manual

Packing List & Size

3. SETUP AND INSTALLATION

Follow these steps for a quick and easy installation:

- Monitor Installation:** Connect the 4.3-inch HD display monitor to the cigarette lighter charger. Push the ON/OFF button on the charger to power on the monitor. Secure the monitor to your dashboard or windshield using the provided mounting bracket.
- Camera Installation:** Mount the wireless backup camera near your vehicle's license plate. For reversing use, connect the camera's power wire to the reverse light. For general rearview use, connect the power wire to either the license plate light or the taillight. Ensure a secure connection for stable operation.

Figure 3.1: Visual guide for connecting the monitor to the car charger (Step 1) and wiring the backup camera to the vehicle's lights (Step 2).

Once connected and powered on, the backup camera system will automatically pair and be ready for use. The advanced wireless technology ensures no lag or interference in signal transmission, with a range of up to 328ft in open space and up to 35ft within the vehicle.

6. MAINTENANCE

The SIXTOP Wireless Backup Camera is designed for durability and reliability:

- **IP68 Waterproof:** The camera features an IP68 waterproof standard, effectively isolating water mist and protecting the lens from external elements.
- **Extreme Temperature Resistance:** The camera is built to operate normally in extreme temperatures ranging from 176°F to -22°F, resisting water, dust, and harsh weather conditions.
- **Cleaning:** Regularly clean the camera lens and monitor screen with a soft, damp cloth to ensure clear visibility. Avoid abrasive cleaners.

7. TROUBLESHOOTING

If you encounter any issues with your SIXTOP Wireless Backup Camera, please refer to the following common solutions:

- **No Signal/Interference:** Ensure the camera and monitor are properly powered and within the transmission range. Check for any large metal obstructions that might block the wireless signal.
- **Poor Image Quality:** Clean the camera lens and monitor screen. Adjust brightness, contrast, and color settings on the monitor. Ensure the camera is securely mounted and not vibrating.
- **Power Issues:** Verify that the cigarette lighter charger is fully inserted and receiving power. Check all cable connections for looseness or damage.
- **Parking Lines Incorrect:** Access the customization menu on the monitor to adjust the parking line settings (width, height, position).

For further assistance, please contact customer support.

8. SPECIFICATIONS

Product Dimensions	4.5 x 3 x 1.1 inches
Item Weight	8.03 pounds
Screen Size	4.3 Inches
