› PINDOWS Slim Minimalist Quartz Analog Watch for Women - Model PDS-649 Instruction Manual

## PINDOWS PDS-649

# PINDOWS Slim Minimalist Quartz Analog Watch

Model: PDS-649

## INTRODUCTION

Thank you for choosing the PINDOWS Slim Minimalist Quartz Analog Watch. This timepiece is designed for elegance and reliability, featuring a precise quartz movement, a durable gold-tone case, and a comfortable leather strap. This manual provides essential information for the proper setup, operation, and care of your watch to ensure its longevity and accurate performance.

## SETUP

---

### 1. Setting the Time

1. **Pull out the crown:** Gently pull the crown (the small knob on the side of the watch case) outwards to the first position.
2. **Adjust the time:** Rotate the crown clockwise or counter-clockwise to move the hour and minute hands to the desired time.
3. **Push in the crown:** Once the correct time is set, push the crown back into its original position. The second hand will begin to move, indicating the watch is running.

### 2. Wearing the Watch

Fasten the leather strap securely but comfortably around your wrist using the buckle. Ensure the watch is not too tight to allow for proper circulation, nor too loose to prevent it from sliding excessively.

## OPERATING INSTRUCTIONS

---

### Timekeeping

Your PINDOWS watch features a reliable quartz movement for accurate timekeeping. The analog display shows hours, minutes, and seconds.

### Luminous Dial

The watch features a luminous dial for improved visibility in low-light conditions. To activate the luminescence, expose the watch to a bright light source (such as sunlight or indoor lighting) for at least 30 minutes to allow the dial to fully absorb light. The glow will gradually fade over time.

# FULL LUMINOUS DIAL

FULL LUMINOUS DIAL ENSURES CLEAR VISIBILITY  
IN LOW-LIGHT CONDITIONS

*Image: The watch's luminous dial glowing in low-light conditions.*

### Water Resistance (30 Meters / 3 ATM)

This watch is water-resistant up to 30 meters (3 ATM). This means it is suitable for daily use, such as accidental splashes, rain, or hand washing. **It is not suitable for swimming, diving, showering, or any prolonged water immersion.** Avoid operating the crown while the watch is wet.

## MAINTENANCE

---

### Cleaning Your Watch

- Wipe the watch case and crystal with a soft, dry cloth.
- For the leather strap, avoid excessive moisture. If it gets wet, allow it to air dry naturally, away from direct heat.
- Do not use chemical cleaners or abrasive materials, as these can damage the watch's finish or strap.

### Battery Replacement

The watch is powered by a standard watch battery. When the watch stops running, it indicates the battery needs replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure the water resistance seal is maintained.

### Strap Care

Leather straps can wear over time. To prolong their life, avoid prolonged exposure to direct sunlight, extreme temperatures, and harsh chemicals. If the strap becomes stiff or cracked, consider replacing it.

## TROUBLESHOOTING

---

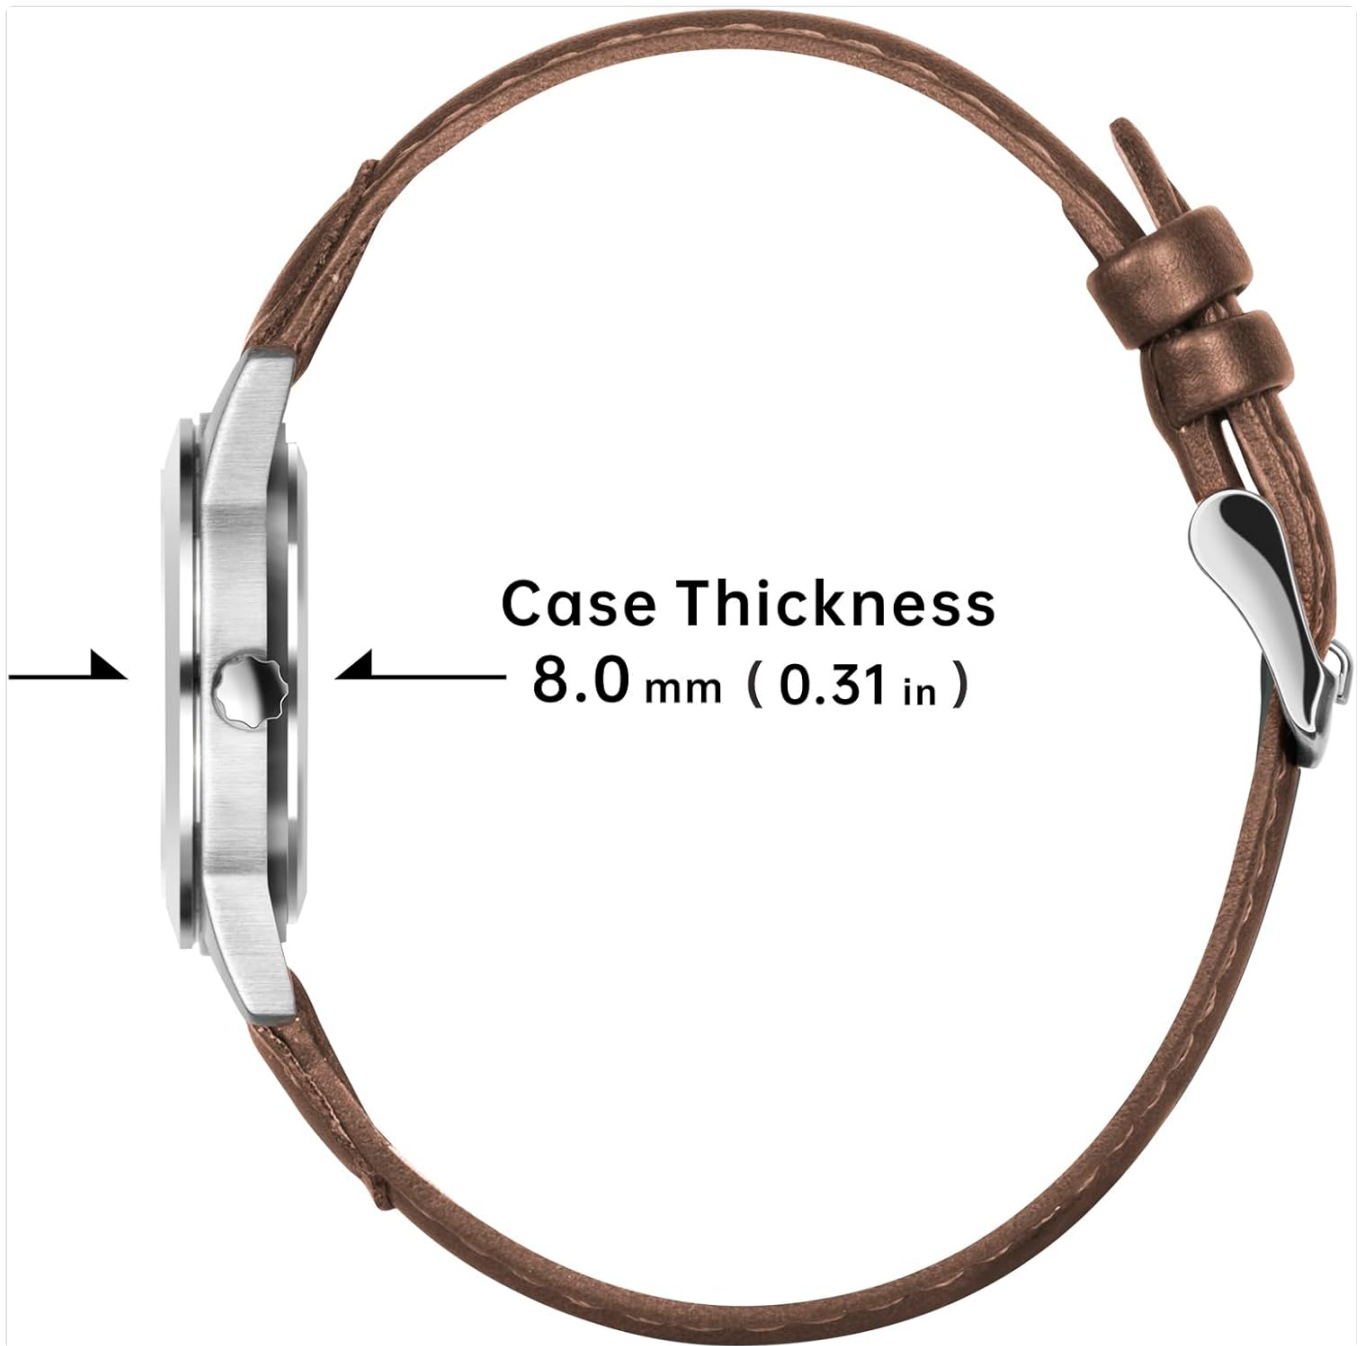

Problem	Possible Cause	Solution
Watch not running	Battery depleted; Crown pulled out	Replace battery; Push crown fully in
Time is inaccurate	Weak battery; Magnetic interference	Replace battery; Keep watch away from strong magnets
Condensation under crystal	Water ingress; Extreme temperature change	Seek professional repair immediately to prevent damage

## SPECIFICATIONS

---

- **Model Name:** PDS-649
- **Movement Type:** Quartz
- **Display:** Analog
- **Case Material:** Stainless Steel
- **Case Diameter:** 30 Millimeters
- **Case Thickness:** 8 Millimeters
- **Band Material:** Leather
- **Band Width:** 14 Millimeters
- **Band Length:** 220 Millimeters

- **Crystal:** Mineral Glass
- **Water Resistance Depth:** 30 Meters (3 ATM)
- **Power Source:** Battery Powered
- **Additional Features:** Arabic Numerals, Easy Reader, Luminous Dial
