FSL/SCRC

Generic FSL/SCRC 94-inch White Illuminated Retail Display Cabinet User Manual

Model: FSL/SCRC | Brand: Generic

1. INTRODUCTION

Thank you for choosing the Generic FSL/SCRC 94-inch White Illuminated Retail Display Cabinet with Cash Wrap Counter. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new display unit. Please read these instructions thoroughly before beginning assembly or use, and retain this manual for future reference.

Overall view of the white retail display cabinet with integrated cash wrap counter, showcasing its full-vision display and functional design.

2. Product Features

- **Integrated Design:** Combines a full-vision display showcase with a functional cash wrap counter.
- **Optimal Visibility:** Tempered glass panels ensure clear product display.
- **Durable Construction:** Crafted from high-quality engineered wood and tempered glass for longevity.
- **Illuminated Display:** Features an integrated LED light strip to enhance product visibility and ambiance.
- **Adjustable Shelving:** Two tempered glass shelves are height-adjustable to accommodate various item sizes.
- **Enhanced Security:** Equipped with lockable sliding glass doors for the display area and a lockable drawer in the cash wrap counter.
- **Ample Storage:** The cash wrap counter includes multi-level storage shelves and a secure drawer.

3. Safety Information

- Always assemble the unit on a clean, flat, and stable surface.

- Ensure all hardware is securely tightened before use. Periodically check and re-tighten as necessary.

- Do not overload shelves. Each tempered glass shelf has a maximum load capacity of 15 kg (33 lbs).

- Keep small parts and packaging materials away from children.

- Use appropriate lifting techniques when moving the assembled unit due to its weight (approximately 150 lbs).

- Avoid placing the unit in areas with high humidity or direct sunlight to prevent material degradation.

4. PACKAGE CONTENTS

Please verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, contact customer support immediately.
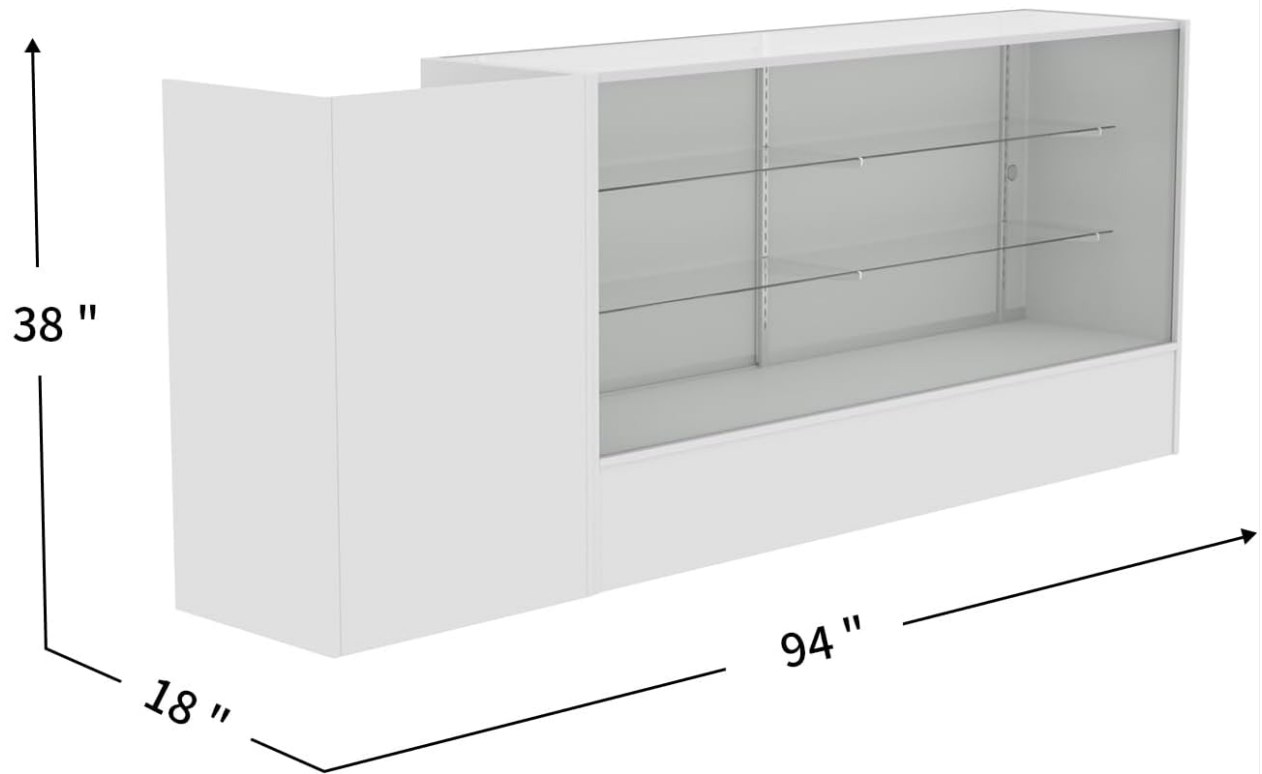

- Display Case Sections (Main body, top, base)

- Cash Wrap Counter Section

- Tempered Glass Shelves (2)

- Sliding Glass Doors (for display)

- Sliding Wooden Doors (for storage)

- LED Light Strip and Power Adapter

- Lock Mechanisms and Keys (for display doors and cash wrap drawer)

- Hardware Kit (screws, connectors, shelf pins, etc.)

- Assembly Guide

5. SETUP AND ASSEMBLY

Assembly of this unit is required. Please refer to the detailed *Assembly Guide* included in your package for step-by-step instructions. Ensure you have adequate space and assistance for assembly, as the unit is large and heavy.

5.1 Product Dimensions

PRODUCT SIZE

This image illustrates the overall dimensions of the display cabinet, providing a clear understanding of its size for planning placement.

5.2 Rear View and Storage

■ WITH LOCK

The back of the unit features sliding wooden doors for secure storage beneath the display area, and the integrated cash wrap counter provides additional functionality.

5.3 Cash Wrap Counter Storage

MULTI-LEVEL STORAGE SPACE

The cash wrap counter offers multi-level storage space, including an accessible drawer and open shelves for organizing supplies and accessories.

6. OPERATING INSTRUCTIONS

6.1 Sliding Glass Doors

The display section features smooth-gliding tempered glass doors. To open, gently slide the doors along their tracks. Ensure the tracks are clear of debris for optimal operation.
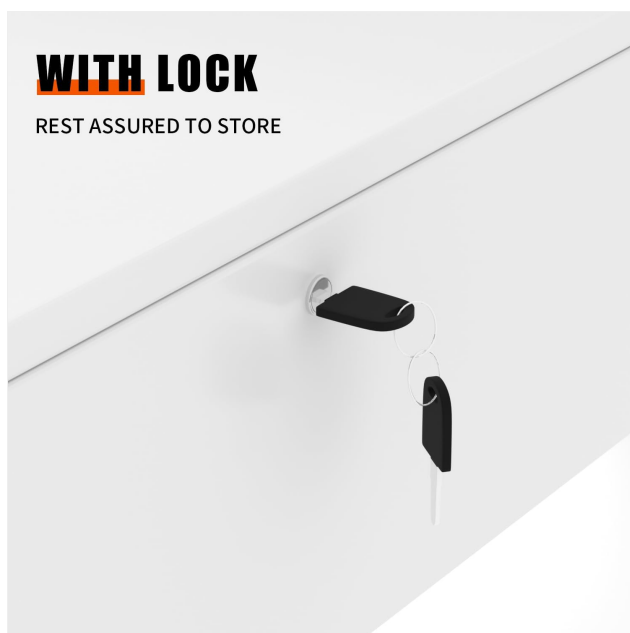

The front of the display cabinet features smooth-gliding tempered glass doors, allowing easy access to displayed items while maintaining visibility.

6.2 Locking Mechanisms

The display cabinet and cash wrap drawer are equipped with locks for security. Use the provided keys to lock and unlock these sections.

- **Display Case Lock:** Insert the key into the lock on the sliding glass doors and turn to secure or release.
- **Cash Wrap Drawer Lock:** Insert the key into the lock on the drawer and turn to secure or release.

The sliding glass doors of the display case are equipped with a secure lock, ensuring the safety of displayed merchandise.

SLIDING DOOR DESIGN

The cash wrap counter includes a lockable drawer, providing secure storage for cash, documents, or other valuable items.

6.3 Adjustable Shelves

The two tempered glass shelves can be adjusted to different heights. To adjust, carefully remove items from the shelf, lift the shelf, and reposition the shelf pins in the desired slots along the vertical tracks. Ensure both sides are level before placing items back on the shelf.

The display cabinet features adjustable shelf brackets, allowing users to customize the height of the tempered glass shelves to accommodate items of different sizes.

6.4 LED Illumination

The integrated LED light strip provides enhanced illumination for your displayed products. Connect the power adapter to the designated port and plug it into a standard electrical outlet. Use the inline switch (if present) to turn the lights on or off.

6.5 Shelf Load Capacity

Each tempered glass shelf is designed to hold a maximum weight of 15 kg (33 lbs). Do not exceed this limit to prevent damage or injury.

STRONG LOAD-BEARING CAPACITY

15KG

MAX LOAD

The tempered glass shelves are designed for strong load-bearing capacity, capable of holding up to 15kg each, suitable for a variety of retail products.

7. MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or solvents that may damage the finish. For glass surfaces, use a standard glass cleaner.
- **Dusting:** Regularly dust all surfaces to maintain appearance and prevent buildup.
- **Hardware Check:** Periodically inspect all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Glass Care:** Handle tempered glass shelves and doors with care to prevent chipping or breakage.

8. TROUBLESHOOTING

- **Problem:** Sliding doors are stiff or difficult to move.
  Solution: Check tracks for debris and clean if necessary. Ensure the unit is level.

- **Problem:** LED lights are not working.
  Solution: Verify the power adapter is securely connected to both the unit and the electrical outlet. Check if the outlet is functional.

- **Problem:** Shelves appear uneven.
  Solution: Ensure shelf pins are inserted into corresponding slots on both sides of the vertical tracks. Adjust as needed.

- **Problem:** Unit wobbles or feels unstable.
  Solution: Re-check all assembly hardware and tighten any loose connections. Ensure the unit is placed on a flat, level surface.
