Maintenance

To maintain the appearance and functionality of your HUANUO standing desk, follow these guidelines:

- **Cleaning:** Wipe the desk surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Fingerprints and Smudges:** The desk surface may be prone to oil smudges from skin. These can be easily wiped away with a clean cloth.
- **Moving Parts:** Periodically check all screws and connections to ensure they are tight. Do not lubricate the lifting columns unless specifically instructed by the manufacturer.
- **Cable Management:** Ensure all cables are neatly managed and do not interfere with the desk's movement or pose a tripping hazard.

Troubleshooting

If you encounter issues with your electric standing desk, consider the following common troubleshooting steps:

- **Desk Not Moving:**

- Check if the power cable is securely plugged into both the desk and the wall outlet.
- Ensure there are no obstructions preventing the desk from moving up or down.
- Perform a reset procedure (refer to your specific manual for instructions, typically involves holding the 'down' button until the desk reaches its lowest point and slightly rises).

- **Uneven Movement:**

- Verify that the desk is placed on a level surface.
- Check for any loose connections or damaged components in the lifting mechanism.

- **Error Codes on LED Display:**

If an error code appears, consult the full product manual for specific meanings and solutions. Often, a simple power cycle or reset can resolve minor errors.

If problems persist after attempting these steps, contact HUANUO customer support for further assistance.
