## 2. SETUP AND FIT

### Choosing the Right Eartips:

The IDE11 Q2 Pro earplugs come with 7 pairs of eartips in various sizes (XS, S, M, L) and styles (single and double flange) to ensure a comfortable and effective seal. Proper fit is crucial for optimal noise reduction.

- 1. Examine Eartips:** Review the different sizes and styles provided.
- 2. Initial Selection:** Start with a medium-sized eartip (M) or the size that feels most natural for your ear canal.
- 3. Test Fit:** Gently insert the earplug into your ear. It should feel snug but not cause discomfort.
- 4. Check Seal:** A good fit will create a noticeable reduction in ambient noise. If the earplug feels loose, falls out easily, or noise reduction is minimal, try a larger size. If it causes pressure or pain, try a smaller size.
- 5. Experiment:** Try different sizes and styles (single vs. double flange) until you find the most comfortable and effective fit for both ears.

# Find Your Perfect Fit

Ensure the earplugs sit snugly in your ears

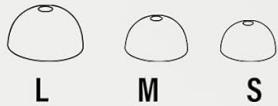

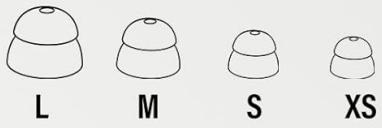

Image: An illustration demonstrating how to achieve a perfect fit for the earplugs, showing different eartip sizes and a visual guide for proper insertion.

## Inserting the Earplugs:

- Clean Hands:** Ensure your hands are clean before handling the earplugs.
- Grasp Earplug:** Hold the earplug by its outer body.
- Prepare Ear:** Gently pull your earlobe upwards and outwards to straighten the ear canal.
- Insert:** Carefully insert the earplug into your ear canal with a slight twisting motion until it feels secure and comfortable. Do not force it.
- Adjust:** Ensure the earplug sits flush with your ear, providing a good seal without protruding excessively.

## Removing the Earplugs:

To remove, gently twist the earplug and pull it outwards slowly. Avoid sudden or forceful removal to prevent discomfort or potential ear canal irritation.

## 3. OPERATING INSTRUCTIONS

The IDE11 Q2 Pro earplugs are designed for various situations where noise reduction is desired, offering up to 35dB of noise cancellation.

## High Fidelity Noise Reduction

Filter out the noise and focus on pure sound

Image: The earplugs are displayed alongside a graphic highlighting their 35dB noise reduction capability, emphasizing high-fidelity sound filtering.

### Recommended Uses:

- **Sleeping:** Block out snoring, street noise, or other disturbances for peaceful rest. The ergonomic design ensures comfort for side sleepers.
- **Focus & Study:** Create a quiet environment for enhanced concentration during work or study sessions.
- **Travel:** Reduce engine noise on planes, trains, or subways, and minimize general travel commotion.
- **Loud Environments:** Protect your hearing at concerts, music festivals, sporting events, or busy streets.
- **Work:** Ideal for environments with moderate noise levels where communication is still necessary but background noise needs to be reduced.

## 4. MAINTENANCE

### Cleaning Instructions:

To maintain hygiene and effectiveness, regularly clean your IDE11 Q2 Pro earplugs.

- Disassemble:** Gently remove the silicone eartips from the earplug body.
- Wash:** Wash both the earplug body and the silicone eartips with clean, lukewarm water and a mild soap.
- Rinse:** Rinse thoroughly to remove all soap residue.
- Dry:** Allow all components to air dry completely before reassembling or storing. Do not use harsh chemicals or abrasive materials.

# Reusable and Washable

Wash with clean water and drying before use or storage

Image: The earplugs submerged in water, demonstrating their washable and reusable nature for easy maintenance.

## Storage:

When not in use, store the earplugs in the provided portable carrying case to protect them from dust, dirt, and damage. This also makes them convenient for travel.

## 5. TROUBLESHOOTING

---

### Reduced Noise Cancellation or Poor Fit:

- **Check Eartip Size:** Ensure you are using the correct eartip size for your ear canal. If the earplugs feel loose or ineffective, try a larger size. If they cause discomfort or pain, try a smaller size.
- **Proper Insertion:** Re-insert the earplugs following the instructions in Section 2, ensuring a snug and secure seal.
- **Cleanliness:** Dirt or earwax buildup on the eartips can affect the seal. Clean the earplugs as described in Section 4.

### Discomfort During Use:

- **Eartip Size:** If you experience pressure or pain, the eartips might be too large. Try a smaller size.

- **Insertion Depth:** Ensure the earplugs are not inserted too deeply. They should sit comfortably without pressing against sensitive parts of your ear.
- **Material Sensitivity:** While made from soft silicone, if irritation persists, discontinue use and consult a healthcare professional.

## 6. SPECIFICATIONS

---
